THE MADRAS AND BOMBAY ARMIES ACT, 1893.

[56 AND 57 VICTORIA, CHAPTER 62.]

An Act to amend the Law relating to the Madras and Bombay Armies.

[5TH DECEMBER, 1893.]

BE it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Com-

mons, in this present Parliament assembled, and by the authority of the same, as follows:—

1. (1) The offices of Commander-in-Chief of the forces in the Presidencies of Madras and Bombay respectively, and of Military Secretary to the Government of each of those Presidencies, are hereby abolished, and all things which by or under any Act of Parliament are required or authorised to be done by, to, or before any of the officers whose offices are hereby abolished, shall or may be done by, to, or before such officer as the Commander-in-Chief of the forces in India, with the approval of the Governor-General of India in Council, may appoint in that behalf, and the Commander-in-Chief of the forces in India shall, for the purposes of section one hundred and eighty of the Army Act, be deemed to be the Commander-in-Chief in each Presidency in India.

(2) The military control and authority exercisable by the Governors in Council of the Presidencies of Madras and Bombay shall cease to be exercised by those Governors in Council, and shall be exercisable by the Governor-General of India in Council, and all things which by or under the Army Act are required or authorised to be done by, to, or before the Governor in Council of the Presidency of Madras or of Bombay, shall or may be done by, to, or before the Governor General of India in Council.

(3) The officers holding at the commencement of this Act the offices of Commanders-in-Chief of the forces in the Presidencies of Madras and Bombay shall cease to be Members of the Council of the Governors of Madras and Bombay respectively.

2. The Acts specified in the schedule to this Repeal. Act are hereby repealed to the extent in the third column of that schedule mentioned.

3. This Act shall come into operation at such date as the Governor General of India in Council may by notification in the *Gazette of India* fix in that behalf.

4. This Act may be cited as the Madras and Bombay Armies Act, 1893.

The 3rd January, 1894.

CHIEF COMMISSIONER IN BRITISH BALUCHISTAN.

NOTIFICATION.

Camp Sibi, the 30th December, 1893.

No. 35 F.C.—In exercise of the powers conferred on him by Section 3 of the Baluchistan Forest Regulations, 1890, the Chief Commissioner in British Baluchistan is pleased to declare the undermentioned land to be a State Forest, with effect from 1st April, 1894 :—

NAME OF FOREST.	District.	Area in acres.	BOUNDARIES.				REMARKS.
			East.	South.	West.	North.	
Gohar	Thal-Chotiali Kavas.	1,500	Leaving the public road about half a mile above the bazaar, the line runs up the edge of the steep cliff on the east of the residency and follows the ridge which forms the watershed on the north-east side of the Gohar Valley up to the summit overlooking Koshki.	The watershed between the Gwashki and Koshki Valleys.	From the ridge overlooking Koshki, the line turns north by west and follows a high spur dividing the drainage which flows towards Gwashki from that which flows towards Taleria as far as the east boundary of the Barget State Forest. Hence the boundary of the two estates march together as far as the rifle target at the bottom of the "Shpano" Tangi.	The public road on the south side of the Gwashki Valley.	This forest includes all the catchment area of the water supply of the Ziarat Station, as well as the hill on which the station is situated.

By Order,
W. STRATTON, Captain,
First Assistant.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series. The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively. In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1876:—

REVENUE DEPARTMENT.

[Revised Advertisement.]

A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Departments.

The first five volumes and Volume VI, Parts I, II, III & IV of the Dictionary are now ready at the Office of the Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is R45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, R6 and 8 shillings respectively will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 550 royal octavo pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and half of G; Volume IV, latter half of G to middle of L and Volume V contains the latter half of L to end of O; Vol. VI (which will consist of four parts), Part I, contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year, but a tenth volume, may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a glossary of the vernacular and European names of the plants, animals, and minerals of India, and as such, will be a work of reference, which, it is hoped, may prove of considerable value.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

**Weather Review of India for the week ending on Saturday,
December 23rd, 1893.**

Throughout the whole of the week under review a large area of high and uniform pressure has been stationary over the greater part of Northern and Central India. From this area readings have decreased southward and the lowest pressures have been steadily reported from Malabar and Ceylon. Light and variable winds and calms with fine weather have prevailed within the high pressure area, noticed above, while over North-East India and the Peninsula northerly to easterly winds have been experienced and occasional light showers have fallen. Notwithstanding the general absence of rain the mean temperature has been lower than usual over the provinces of Burma, Bengal, Assam, Bombay and Madras, and was about normal in other parts of the country except in North-West India, there was some excess.

On Sunday, December 17th, pressure was changing irregularly and by small amounts. A large high pressure area overlay North-Western and Central India, and a smaller high pressure area North-Eastern India. From these areas readings decreased southward and were lowest over Ceylon and the south of the Bay. The wind was north-westerly over the Gangetic plain and between north and east elsewhere. Light rain had fallen at Bharno and at one or two places in the south of the Peninsula. On the 18th pressure was decreasing except in Baluchistan and the Indus Valley, but the general distribution of pressure and the air movements were practically unchanged. Heavyish rain (3·25 inches) had

fallen at Negapatam, moderate rain (1·82 inch) at Colombo, and light showers at Wellington and Srinagar. On the 19th the barometer was falling over the Indus Valley and rising elsewhere. Pressure was uniform over the greater part of the country, but moderate gradients prevailed over North-East India and over the south of the Peninsula. The winds were unaltered. A further heavyish fall of rain (2·42 inches) was reported from Negapatam and a light shower from Tinnevely. The chart of the 20th showed small and irregular barometric changes. Hence the general conditions were unaltered, high uniform pressures and light winds or calms prevailing over the greater part of India, but moderate gradients and light to moderate winds over North-East India and the Peninsula. The only rainfall was a shower at Negapatam. On the 21st pressure was decreasing generally, but the changes were small and the pressure distribution and the winds were unchanged. Light rain had fallen at Negapatam. On the 22nd, the barometer was falling in Baluchistan and Sind, but elsewhere the changes were unimportant. Northerly to easterly winds prevailed over North-Eastern India, the Bay, and the Peninsula, and calms and variable breezes in Central and North-West India. There was no rain anywhere. The chart of the 23rd showed that the barometer had continued to fall over India and Burma, the changes being brisk over Northern India. Gradients had become slighter and there was hardly any air movement over Northern and Central India. There was again no rain.

Temperature.—The following table shows the variations of the mean temperature from the normal on each day of the week for the different provinces of India :—

On the first three days of the week the mean temperature of the whole country was slightly below the normal average, but on the four other days there was an excess of about 1°0. The provincial variations show that on the mean of the week there was a deficiency, compared with the normal, of 2°2 in Burma, of 1°5 in Madras, of 0°9 in Bengal and Assam, and of 0°4 in Bombay. In the other provinces there was an excess which, however, was small except over North-West India.

Rain.—The rainfall table at the close shows that during the week rain occurred only in three of the rainfall divisions. Madras (south-central) had an average fall for the division of 0·04 inch, Madras (south) of 0·10 inch, and East Coast (south) of 0·42 inch. The only heavy fall during the week was at Negapatam which station had a total of 5·86 inches.

E. C. BUCK,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 30th December.*—A few showers in parts of the Carnatic and Tanjore; no rain elsewhere. The rainfall to date has exceeded the average except in Malabar, Tinnevely and Madras, and nowhere is it seriously deficient. Sowings still going on in parts. Standing crops flourishing generally. Water for irrigation sufficient. Harvest continues to yield average outturn. Pasture and fodder sufficient. Prices easier in the Circars and Southern districts; almost unaltered elsewhere.

Bombay.—*For week ending 3rd January.*—Slight rain in four districts, more rain required in parts of the Deccan. Standing crops withering for want of moisture or damaged by insects, rats, excessive cold or blight in parts of six districts; prospects otherwise good. Sowing of late crops progressing in seven, and reaping of early crops in eight, districts. Land being prepared for next season in one district. Cotton-picking continues in three districts. Fodder sufficient and agricultural stock good. Prices steady.

Bengal—*For week ending 30th December.*—There was no rainfall during the week. The harvesting of winter rice is being rapidly completed, and reports of the outturn continue to be generally satisfactory. Prospects of the spring crops and of poppy and tobacco are favourable. Sugarcane is being harvested in some districts. *Ganja* prospects in the Rajshahi district are good. No important change in the price of common rice occurred during the week. Cattle are in good condition and the supply of fodder is sufficient. The number of persons on relief-works and gratuitously relieved during the week were—FARIDPUR (MADARIPUR SUB-DIVISION.)—*Relief-works*, 220 men and 40 children. *Gratuitous relief*, 39 men, 209 women, and 147 children, total 395, against 125 in the previous week; BACKERGUNGE (SADAR AND PIROJPUR SUB-DIVISIONS.)—*Gratuitous relief*, men 369, women 1,500, and children 1,873, total 3,742, against 2,277 (inclusive of Pirojpur figures) in the preceding week.

North-Western Provinces and Oudh.—*For week ending 3rd January.*—The weather has been generally cloudy, and showers have fallen in places, benefiting the standing crops. Poppy doing well. Sugarcane-pressing going on. Spring crops flourishing. Supplies and fodder sufficient. Prices fairly steady.

Punjab.—*For week ending 3rd January.*—Rain has fallen in five districts. Harvesting of autumn crops nearly over. Irrigation of spring crops going on. Condition of standing crops is generally good and prospects are reported to be good to average. Rain badly wanted in Dera Ismail Khan. Field rats are doing damage to crops in parts of Umballa and Lahore. Cattle are generally reported to be in good condition, and fodder is sufficient in all districts except in parts of Shahpur, where it is scarce. The poppy crop has germinated well. Prices falling in six districts; stationary elsewhere.

Central Provinces.—*For week ending 3rd January.*—Weather cloudy during the latter part of the week with slight showers of rain in eight districts. Insects are reported to have attacked the winter crops in three districts; elsewhere the crops are reported to be in good condition. Prices steady.

Burma.—*For week ending 30th December.*—No rain has fallen. Reaping and threshing of the main paddy crop progressing in Lower Burma. The first of the crop has reached the Rangoon market. Crop prospects continue good. Harvesting of wet-weather paddy in Upper Burma approaching completion. Reaping of millets and sessamum and planting of dry-weather crops progressing. The price of paddy has risen considerably in Magwe and has fallen considerably in Henzada, Wakema, Shwegyin and Mandalay, while in Rangoon there is a slight fall. Fodder and water-supplies sufficient.

Assam.—*For week ending 2nd January.*—Weather seasonable. Harvesting of late rice continues. Condition of cattle fair. Fodder and water sufficient.

Mysore and Coorg.—*For week ending 3rd January.*—**MYSORE:** Standing crops in good condition. Harvesting operations still continue. No material change in prices.

COORG: Reaping of rice and picking of coffee in progress. Fodder and water sufficient for cattle. Prices stationary.

Berar and Hyderabad.—*For week ending 3rd January.*—**BERAR:** Weather seasonable. Crops generally in satisfactory condition. Picking of cotton and cutting of *jowar* (*Sorghum vulgare*) continue. Weeding operations in Akola not yet completed. Supply of fodder and water ample. Cattle doing well. Prices fallen slightly in two talukas.

HYDERABAD: No rain during the week. Sowing of hot-weather crops continues. Spring crops in good condition.

Central India.—*For week ending 3rd January.*—Slight rain fell during the week in several parts of Central India. The autumn crops are being gathered in Bhopal; cotton-picking in progress in Gwalior, and spring operations in progress in other parts. Standing crops generally in good condition throughout Central India. Outturn expected to be good, except in parts of Gwalior. Condition of agricultural stock indifferent in Gwalior; good in other Agencies. Prices of food-grains low in Bhopal, falling in West Malwa, steady elsewhere. The opium crop is in good condition in parts of Gwalior and Western Malwa, fair in Bhopal and the Neemuch district.

Rajputana.—*For week ending 3rd January.*—Rain fell in Jeypore, Abu, Marwar, and Jhallawar. Agricultural operations, standing crops, and cattle, generally satisfactory. Prospects generally good. Pasturage or fodder sufficient. Prices falling in three States, risen in one, fluctuating in one, and steady elsewhere.

Kashmir.—*For week ending 2nd January.*—Snow and rain since the 31st December. Prices stationary.

Nepal.—*For week ending 30th December.*—Weather cloudy. Prospects normal.

Calcutta, the 27th December, 1893.

No. 1915.

The Right Honourable Victor-Alexander Bruce, Earl of Elgin and Kincardine, P.C., LL.D., Lord Bruce of Kinloss and Lord Bruce of Torry, in the Kingdom of Scotland, and Baron Elgin, of Elgin, in the United Kingdom, is expected to arrive at Aden on or about the 15th proximo and at Bombay on or about the 20th idem, to assume the office of Viceroy and Governor General of India.

The Resident at Aden will receive the Earl of Elgin with all the honours and distinctions which are due to the Viceroy of India.

His Excellency the Governor of Bombay will make arrangements, in communication with the Naval authorities, for the landing and reception of the Earl of Elgin at Bombay with all the honours and distinctions which are due to the Viceroy of India.

An Aide-de-Camp of the Viceroy will proceed to Bombay to attend upon the Earl of Elgin throughout his journey from Bombay to Calcutta.

At the Railway stations at which halts for one hour and upwards are made for rest and refreshment, the Earl of Elgin will be met by one Civil and (if a Military Station) one Military Officer only. There will also be a Guard of Honour upon the platform.

At stations between Bombay and Howrah, other than those mentioned in the preceding paragraph, the attendance of officers is dispensed with.

Proper police precautions will be taken at all the stations along the line at which the train stops.

Upon the Earl of Elgin's arrival at the Howrah terminus of the East Indian Railway, His Lordship will be received by the Secretaries to the Gov-

ernment of India and by the Military Secretary and Aides-de-Camp to the Viceroy.

The following officers will also be in attendance upon the Howrah Railway platform :—

The Commissioner of Burdwan.

One of the Secretaries to the Government of Bengal.

The Brigadier-General Commanding the Presidency District with the District Staff.

The Commissioner of Police, Calcutta.

The Chairman of the Commissioners of Calcutta.

The Sheriff of Calcutta.

The Magistrate of Howrah.

A Guard of Honour of the East Indian Railway Volunteer Corps will be drawn up on the platform of the Howrah Railway station, and a Guard of Honour of Native Infantry outside the station.

The Earl of Elgin, attended by his personal staff, by the Secretaries to the Government of India, by the Military Secretary and Aides-de-Camp of the Viceroy, will proceed to Government House in the Viceroy's carriages escorted by the Body Guard and the Calcutta Light Horse.

The line of route will be lined throughout by troops under the orders of the Brigadier-General Commanding the Presidency District.

A Royal salute will be fired from the ramparts of Fort William as the cortége appears upon the Hooghly Bridge.

A Guard of Honour of British Infantry and a Guard of Honour of the Administrative Battalion, Presidency Volunteers, will be drawn up opposite the grand entrance of Government House.

The Earl of Elgin will be received as he alights from the carriage at the foot of the grand staircase by His Honour the Lieutenant-Governor of Bengal attended by his personal staff.

All the Civil and Military Officers of Government at the Presidency will be in attendance upon the grand staircase of Government House. Consular Officers and other Representatives of Foreign Governments at Calcutta, and all non-official gentlemen, are invited to be present upon the grand staircase.

His Excellency the Viceroy and Governor General, attended by his personal staff and the Members of the Governor General's Council, will receive the Earl of Elgin at the top of the grand staircase, and will conduct His Lordship to the Throne Room.

The troops will then be withdrawn.

Full dress will be worn by Civil and Military Officers, and morning dress by all gentlemen not entitled to wear uniform.

The Earl of Elgin will arrive at Howrah on Thursday, the 25th January 1894, at 5 P.M. (Calcutta time). The ceremonial to be observed on his assumption of the office of Viceroy and Governor General of India will be notified hereafter.

THE SCHEDULE.—ENACTMENTS TO BE DEEMED IN FORCE IN ANGUL AND THE KHONDALS.

A Regulation for the peace and government of Angul and the Khondmals.

WHEREAS it is expedient to provide for the peace and government of the tracts of country in Orissa known as Angul and the Khondmals; It is hereby enacted as follows:—

CHAPTER I.

PRELIMINARY.

1. (1) This Regulation may be called the Title and commencement. Angul District Regulation, 1894; and

(2) It shall come into force on such day as the Lieutenant-Governor of Bengal may, by notification in the Calcutta Gazette, direct.

2. For the purposes of this Regulation the district of Angul shall be deemed to comprise Angul, together with that portion of Killah Bod which is known as the Khondmals. The former may be called the Sadr, or Angul, Sub-division; the latter the Khondmals Sub-division of the said district of Angul.

3. (1) So much of each of the enactments Laws to be in force in the district of Angul. specified in the schedule as is at the commencement of this Regulation in force in the territories to which the enactment generally applies shall, in the form in which (as at present amended or hereafter to be amended by subsequent enactments, if any) it is so in force, be deemed to be in force in the district of Angul, or such part thereof as is mentioned in the third column of the said schedule, subject to any modifications contained in this Regulation.

(2) An enactment not comprised in the schedule shall not be deemed to be, or to have been, in force in any part of the district of Angul, unless it shall have been expressly extended thereto, or shall, after the commencement of this Regulation, be so extended thereto, in exercise of the powers conferred by section 5 of this Regulation, or by any other enactment for the time being in force in the district of Angul:

Provided that for the purpose of anything done, or any offence committed, or any fine or penalty imposed or incurred, or any proceedings commenced, before the passing of this Regulation, under any other Regulation or Act which, under the provisions of this section, is declared not to be in force in Angul, such Regulation or Act shall be considered to have been in force in Angul.

4. The Local Government may, with the previous sanction of the Governor General in Council, by a notification in the Calcutta Gazette, declare that any enactment or part thereof comprised in the schedule shall no longer be in force in the district of Angul; and on the publication of such notification such enactment or part thereof shall, subject to the proviso to section 3, cease to have effect in the said district.

5. In addition to the enactments comprised in the schedule, the Local Government may, with the previous sanction of the Governor General in Council, by a notification

in the Calcutta Gazette, declare that any other enactment or any part thereof shall be in force in the district of Angul; and on the publication of such notification such enactment shall be deemed to be comprised in the schedule.

6. For the purpose of facilitating the application of any enactment for the time being in force in the district of Angul, any Court may construe such enactment with such alterations not affecting the substance thereof as may be necessary or proper to adapt it to the matter before the Court.

7. Notwithstanding anything in this Regulation or in the enactments comprised in the schedule, no finding, sentence, judgment, decree or order of any Court shall be revised, set aside or altered, either in appeal or on revision or otherwise, by reason of any irregularity in procedure, unless such irregularity has, in the opinion of a higher Court, caused a failure of justice.

8. All acts of executive authority, proceedings, decrees and sentences of which have been done, taken or passed in or with respect to the district of Angul before the commencement of this Regulation by any officer of the Government, or by any person acting under his authority, or otherwise in pursuance of an order of the Government, and which have been, or shall hereafter be, ratified by the Lieutenant-Governor of Bengal, shall be as valid and operative as if they had been duly done, taken or passed in accordance with law; and no suit or other proceeding shall be commenced, maintained or continued against any person whatsoever on the ground that any such acts, proceedings, decrees or sentences were not duly done, taken or passed in accordance with law.

9. Any person liable to be imprisoned in any civil or criminal jail in the district of Angul, or to be transported beyond the sea under any order or sentence passed by any officer or Court duly empowered under this Regulation, may be imprisoned in any other civil or criminal jail in British India, or may be transported to any other place which the Local Government may, from time to time, select.

10. In this Regulation, and in every enactment in force in the district of Angul, unless there be something repugnant in the subject or in the context,—

(a) "High Court" shall mean, with reference to criminal proceedings against European British subjects, or persons jointly charged with such subjects, the High Court of Judicature at Fort William in Bengal; and in any other case it shall mean the Court of the Superintendent:

(b) "Superintendent" shall mean the Superintendent for the time being of the Orissa Tributary Maháls:

(c) "district" shall mean the district of Angul as defined in section 2 of this Regulation:

(d) "Deputy Commissioner" shall mean the officer in chief executive charge of the district

of Angul, by whatever other title he may be designated :

(e) "District Court" and "District Judge" shall mean the Court of the Deputy Commissioner and the Deputy Commissioner respectively :

(f) "Magistrate" shall mean any officer exercising all or any of the powers of a Magistrate under the Code of Criminal Procedure, 1882, by whatever other title he may be designated :

(g) "District Superintendent" shall mean the chief officer in charge of the Angul District Police, by whatever other title he may be designated :

(h) "Tahsildar" shall mean the officer in charge of a Subdivision of the district of Angul as defined in section 2 :

(i) "collection-agent" shall mean any village-sarbaráhkár, any Tahsildar, or any other person duly authorized to collect any demand due to the Government and accruing within the district of Angul : and

(j) "accountant" shall mean any person charged with the duty of keeping the accounts of any such demand as is mentioned in clause (i).

CHAPTER II.

CONSTITUTION AND JURISDICTION OF COURTS.

11. There shall ordinarily be the following Courts in the district of Angul, and they shall be subject to the general superintendence and control of the Local Government :—

- (1) the Courts of the Tahsildars of Angul and of the Khondmals ;
- (2) the Court of the Deputy Commissioner ;
- (3) the Court of the Superintendent.

12. The Local Government may, with the previous sanction of the Governor General in Council, establish any other Court (in addition to those specified in section 11), and may invest it with such powers to be exercised in the district of Angul as it may, from time to time, prescribe.

13. The immediate control and supervision of the Court of the Deputy Commissioner and of any other Court of equal or similar powers that may hereafter be established under section 12 shall be vested in, and every such Court shall (both in its judicial and executive functions) be subordinate to, the Court of the Superintendent. The immediate control and supervision of the Courts of the Tahsildars, and of any other similar Court that may hereafter be established under section 12, shall be vested in, and all such Courts shall (both in their judicial and executive functions) be subordinate to, the Court of the Deputy Commissioner.

14. The Local Government may, by notification in the Calcutta Gazette, define, and may from time to time vary, the local limits of the jurisdiction and the powers of

any Court constituted under this Regulation, or of any officer of the Government employed in the district of Angul.

15. The Courts mentioned in section 11 shall ordinarily have the powers specified below :—

Name of Court.	Revenue powers.	Criminal powers.	Civil powers.
1. Tahsildars of the Angul Sub-division or of the Khondmals Sub-division.	Powers corresponding to those of a Deputy Collector under any law for the time being in force in the district of Angul.	The ordinary powers of a Sub-divisional Magistrate of the second class as defined in the Code of Criminal Procedure, 1882. Powers under the Whipping Act.	Powers corresponding to those of a Civil Court, as defined in the Code of Civil Procedure, to try original civil suits, of which the value does not exceed five hundred rupees. Powers of a Court of Small Causes under Act IX of 1887; the limit of powers in each case to be decided by the Local Government.
2. Deputy Commissioner.	Powers corresponding to those of a Collector under any law for the time being in force in the district of Angul.	The ordinary powers of a District Magistrate and of a Sessions Judge as defined in the Code of Criminal Procedure, 1882.	Powers corresponding to those of a District Judge as defined in the Code of Civil Procedure to try original civil suits and appeals without limit as respects the value.
3. Superintendent.	Powers corresponding to those of a Commissioner and of the Board of Revenue under any law for the time being in force in the district of Angul.	The ordinary powers of a High Court as defined in the Code of Criminal Procedure, 1882, except in regard to criminal proceedings against European British subjects or persons jointly charged with European British subjects.	Powers corresponding to those of a High Court as defined in the Code of Civil Procedure.

CHAPTER III.

ADMINISTRATION OF CRIMINAL JUSTICE.

16. The district of Angul shall be a sessions division, the Court of the Deputy Commissioner shall be the Court of Session, and the Deputy Commissioner shall be the Judge of that Court.

17. As Sessions Judge the Deputy Commissioner may take cognizance of any offence as if he were a Court of original jurisdiction without the accused person being committed

to him by a Magistrate, and, when so taking cognizance of an offence, shall, subject to the provisions of this Regulation, follow the procedure prescribed by the Code of Criminal Procedure, 1882, for the trial of warrant cases by Magistrates.

18. A trial before a Court of Session may be Sessions trials without a jury or the aid of out jury or assessors.

19. (1) The police-officer of highest rank present at a police-station shall be deemed to be the officer in charge of such police-station.

X of 1882. (2) Any police-officer may exercise the powers conferred by section 55 of the Code of Criminal Procedure, 1882, on an officer in charge of a police-station.

X of 1882. 20. Notwithstanding anything contained in section 57 or section 61 of the Code of Criminal Procedure, 1882, an officer in charge of a police-station may detain a person arrested without warrant for such time as, in all the circumstances of the case, is reasonable. But when such officer of his own authority detains any such person in custody for a longer period than twenty-four hours, exclusive of the time necessary for the journey from the place of arrest to the nearest Magistrate's Court, he shall, in the report prescribed in section 62 of the Code of Criminal Procedure, 1882, state his reasons for prolonging the detention of such person, and, where the detention extends beyond three days, shall submit further reports of the reasons therefor at such intervals as the Magistrate to whom the report under section 62 was submitted may by general or special order direct.

X of 1882. 21. Nothing in the first paragraph of section 162 of the Code of Criminal Procedure, 1882, shall be construed to apply to a statement made to a police-officer who is also a Magistrate.

22. A prosecution for an offence against the State, or for the offence of giving false evidence in respect of a statement made by a person who has accepted a tender of pardon, may be entertained upon complaint made by order of, or under authority from, the Deputy Commissioner.

X of 1882. 23. Any Magistrate tendering a pardon to an accomplice under section 337 of the Code of Criminal Procedure 1882, may, notwithstanding anything contained in that section, try the case himself.

24. The period of limitation for an appeal from any appealable sentence or order in any criminal case shall be thirty days from the date of such sentence or order, but shall be exclusive of that date.

X of 1882. 25. Notwithstanding anything contained in the Code of Criminal Procedure, 1882, no appeal shall lie—

(a) in any case in which a Tahsildar exercising the powers of a Magistrate of the second class passes a sentence of imprisonment not exceeding one month, or of fine not exceeding fifty rupees, or of whipping only.

(b) in any case in which the Deputy Commissioner exercising the powers of a District Magistrate, or of a Court of Sessions, passes a sentence of imprisonment for a term not exceeding three months, or of fine not exceeding one hundred rupees, or of whipping only.

26. Where an offence referred to in section 195 of the Code of Criminal Procedure, 1882, is committed before the presiding officer of a Criminal Court, or in contempt of his authority, or is brought to his notice in the course of a judicial proceeding, he may himself try for such offence the person accused thereof.

27. Notwithstanding anything contained in section 495 of the Code of Criminal Procedure, 1882, any Court may allow any police-officer to conduct a prosecution.

28. Any Court may, for reasons to be stated in writing, refuse to exercise, in the manner mentioned in section 526A of the Code of Criminal Procedure, 1882, the power of postponement or adjournment given by section 344 of that Code.

29. In the case of any proceeding the record of which has been called for and examined by himself, or which has been reported for orders under section 435 of the Code of Criminal Procedure, 1882, or which otherwise comes to his knowledge, the Deputy Commissioner or the Superintendent may in his discretion exercise any of the powers conferred on a Court of appeal by sections 195, 423, 426, 427 and 428 of that Code, and may, for sufficient reasons to be recorded, enhance the sentence:

Provided that—

(1) no order under this section shall be made to the prejudice of the accused unless he has had an opportunity of being heard in his defence;

(2) nothing in this section shall apply to an entry made under section 273 of that Code, or shall be deemed to authorize the conversion of a finding of acquittal into one of conviction.

30. Nothing in this chapter with respect to procedure in enquiries or trials, or with respect to sentences or appeals therefrom, or to the enhancement or execution thereof, shall be construed to affect the Code of Criminal Procedure, 1882, in its application to European British subjects or to persons jointly charged with such subjects.

CHAPTER IV.

ADMINISTRATION OF CIVIL JUSTICE.

31. (1) When in any civil proceeding it is necessary to decide any question regarding succession, inheritance, pre-emption, caste, special property of females, betrothals, marriage adoption, guardianship, minority, bastardy, family relationship, wills, legacies, gifts, partitions or any other religious or social usage or institution, the Buddhist law in cases where the parties are Buddhists, the Muhammadan law in cases where the parties are Muhammadans, and the Hindu law in cases where the parties are Hindus, shall form the rule of decision, except in so far as such law has by any enactment been altered or abolished, or is opposed to any custom having the force of law in the district of Angul.

(2) In cases not provided for by sub-section (1) of this section, or by any other law for the time being in force, the Court shall act according to justice, equity and good conscience.

32. (1) In any suit instituted on or after the date on which this Regulation may come into force—

Interest.

(a) the amount of interest which may be decreed on any loan or debt shall not exceed the original amount of such loan or debt;

(b) interest on any debt or liability for a period exceeding one year shall not be decreed at a higher rate than two per cent. per mensem, notwithstanding any agreement to the contrary, and no compound interest arising from any intermediate adjustment of account shall be decreed.

XIV of 1882. (2) For the purposes of sub-section (1), section 43 of the Code of Civil Procedure shall be deemed to be in force throughout the territories to which this Regulation extends, notwithstanding any special contract or agreement to the contrary.

33. The Government shall be presumed, until the contrary be proved or determined, to be entitled to the exclusive use and control of the water (a) of all rivers and streams flowing in natural channels, (b) of all natural collections of water, and (c) of all tanks and irrigation-bunds constructed wholly or in part by or at the expense of the Government within the district of Angul.

34. (1) An original decree or order made by the Court of a Tahsildar in any civil or revenue suit, the value of which does not exceed fifty rupees, shall, subject to the provisions of this Regulation with respect to revision, be final.

(2) From every other decree or order made by the Court of a Tahsildar an appeal shall lie to the Court of the Deputy Commissioner.

(3) An original decree or order made by the Court of a Deputy Commissioner in any civil or revenue suit, the value of which does not exceed five hundred rupees, shall, subject to the provisions of this Regulation with respect to revision, be final.

(4) From every other original decree or order made by the Court of a Deputy Commissioner in any civil or revenue suit an appeal shall lie to the Court of the Superintendent.

(5) Save as provided by sub-section (6) and subject to the provisions of this Regulation with respect to revision, every appellate decree or order of the Court of the Deputy Commissioner in any civil or revenue suit shall be final.

(6) An appeal from an appellate decree or order of the Court of the Deputy Commissioner in a civil or revenue suit, the value of which exceeds one thousand rupees, and in which the Deputy Commissioner has revised or modified the orders of the Lower Court, shall lie to the Court of the Superintendent.

35. The Superintendent or the Deputy Commissioner may, of his own motion or otherwise, call for the record of any civil or revenue case decided by any Court under his control and super-

vision, and may pass such order therein as he may think fit.

CHAPTER V.

RECOVERY OF PUBLIC DEMANDS.

36. Whenever any sum due to Government is unpaid on the date next after that on which payment is due, the accountant shall certify in writing to the Tahsildar the fact of the arrear and the amount due.

37. On receipt of any such certificate the Tahsildar may, after making any enquiry which he may consider necessary, if he be satisfied that the demand specified in the notice is justly due, issue a notice to the defaulter ordering him, within a given time, (a) to pay up the amount due, or (b) to appear before him and state any objection he may have to pay such amount.

38. If the amount due be not paid or contested as provided in the last foregoing section, the Tahsildar may recover the same by the attachment and sale of any moveable or immoveable property belonging to the defaulter, together with all costs of realizing the same.

39. The Tahsildar shall exempt from sale the holding of any raiyat unless and until he has satisfied himself that the said raiyat has no other property by the sale of which the sum due from him can be realized.

40. All the proceedings of a Tahsildar under this Chapter shall be subject to revision by the Deputy Commissioner and by the Superintendent, who may alter or modify the orders of the said Tahsildar in any way he thinks fit; but there shall be no appeal as a matter of right to either of the above officers.

41. Every Tahsildar shall keep in his office, in such form as may from time to time be prescribed by the Superintendent, a register of his proceedings under this Chapter, and every payment made by any defaulter shall be duly entered in such register.

CHAPTER VI.

VILLAGE-CHAUKIDARS.

42. Subject to the approval of the Deputy Commissioner, the District Superintendent of Police may appoint any person to be a village-chaukidar, and may for any misconduct or neglect of duty dismiss any village-chaukidar.

43. The Deputy Commissioner may, from time to time, by an order in writing under his hand, declare any local area or group of dwellings to be a village for the purposes of this Chapter.

44. Every village-chaukidar acting as such at the time of the passing of this Regulation shall be deemed to have been appointed under section 42.

45. Every village-chaukidar who shall (a) withdraw from the duties of his office without the express permission of the District Superintendent of Police, or of some other officer duly authorized by him to grant such permission, (b) resign his office without the permission of the District Superintendent of Police, unless he has given at least two months' notice of his intention to resign, or (c) be guilty of cowardice, shall be liable, on conviction before a Magistrate, to a fine not exceeding ten rupees:

Provided that no prosecution shall be instituted against any village-chaukidar under this section without the previous sanction of the Deputy Commissioner.

46. Any village-chaukidar who is guilty of any wilful misconduct in his office or neglect of his duty, such misconduct or neglect not being an offence within the meaning of the Indian Penal Code, or of section 45 of this Regulation, and not being of so grave a character as, in the opinion of the District Superintendent of Police, to require his dismissal from his office, shall be liable under the orders of the District Superintendent to a fine not exceeding three rupees, and such fine may be recovered as if it were a fine leviable under the provisions of the Code of Criminal Procedure, 1882.

47. Every village-chaukidar appointed under this Regulation shall perform the following duties:—

first, he shall give immediate information to the officer in charge of the police-station within the limits of which the village of which he is a chaukidar is situated of every unnatural, suspicious or sudden death which may occur, and of every murder, culpable homicide, rape, dacoity, robbery, theft, mischief by fire, house-breaking, counterfeiting coin, causing grievous hurt, riot, and all attempts and preparations to commit, and abetments of, all the said offences which may be committed within such village, or which may come to his notice otherwise, and he shall further keep the police informed of all disputes which are likely to lead to any riot or serious affray;

second, he shall arrest all proclaimed offenders and all persons whom he may find in the act of committing any of the offences above specified;

third, he shall observe, and from time to time report to the officer in charge of the police-station within the limits of which such village is situated, the movements of all bad characters in such village;

fourth, he shall report to the officer in charge of such police-station the arrival of any suspicious characters in the neighbourhood;

fifth, he shall present himself at such police-station at such intervals as the Deputy Commissioner may direct;

sixth, he shall supply any local information which the Deputy Commissioner or the District Superintendent of Police may require; and

seventh, he shall obey the orders of the Deputy Commissioner and of the District Superintendent of Police with respect to the place where he is to reside and in regard to keeping watch in the village and other matters connected with his duties as village-chaukidar.

48. Whenever a village-chaukidar arrests any person, he shall forthwith take the person so arrested to the police-station within the limits of which the village of which he is a chaukidar is situated:

Provided that, if the arrest is made at night, such person shall be so taken as soon as convenient on the following morning.

49. An appeal shall lie to the Deputy Commissioner from every order of the District Superintendent of Police punishing a village-chaukidar with fine or dismissal, and, subject to the general power of revision of the Superintendent, the order which the Deputy Commissioner may pass on such appeal shall be final.

CHAPTER VII.

REGISTRATION OF DOCUMENTS.

50. (1) The Local Government may appoint such persons as it thinks proper to be Sub-Registrars for the sub-divisions of the district, or for any part of them, and may at any time suspend or remove any Sub-Registrar so appointed.

(2) A Sub-Registrar appointed under this section shall be deemed to be a public servant within the meaning of the Indian Penal Code. XLV of 1860.

51. (1) The Deputy Commissioner shall be *ex-officio* Registrar of the district; and all Sub-Registrars appointed as aforesaid shall be subject to his general control and superintendence.

(2) The Deputy Commissioner may by an order in writing delegate his powers during his absence from head-quarters to the Tahsildar or to any Sub-Registrar under him.

52. All documents may be registered at the option of the parties by or in whose favour such documents are executed, but the Local Government may, from time to time, with the previous sanction of the Governor General in Council, by notification in the Calcutta Gazette, declare with respect to documents of any class described in such notification that documents of that class executed on or after a date to be prescribed by the said notification, and purporting or operating to create, declare, assign or extinguish, whether in present or in future, any right, title or interest, whether vested or contingent, to or in immoveable property situate in any part of the district specified in the notification, shall be registered in

Penalty for village-chaukidar withdrawing from his duties, etc.

Procedure on arrest by village-chaukidar.

Appeal from the District Superintendent's order.

Power of Local Government to appoint Sub-Registrars.

Deputy Commissioner to be *ex-officio* Registrar; control of Sub-Registrars; delegation of Registrar's powers.

Power of Local Government to direct compulsory registration in certain cases.

XLV of 1860.

X of 1882.

accordance with the provisions of this Regulation, and that no such document shall affect any property comprised or referred to therein, or be received in evidence of any transaction affecting such property, unless it has been registered in accordance with the provisions of this Chapter.

53. The Local Government may, at any time with the previous sanction of the Governor General in Council, by notification in the Calcutta Gazette, cancel or vary, with effect on and from a date to be prescribed by such notification, any notification made under the last foregoing section.

54. (1) The Local Government may, from time to time, make rules to regulate the registration of documents under this Regulation.

(2) Rules under this section may (among other matters)—

(a) define the time, place and mode of presenting documents for registration ;

(b) regulate the duties and powers of registering officers and of the Deputy Commissioner as *ex-officio* Registrar, and specify the cases in which those officers may enforce the appearance of executors and witnesses ; and

(c) fix the fees payable for registration, searches and copies, and the time when fees shall be payable.

(3) Rules under this section shall be published in the Calcutta Gazette, and shall thereupon have the force of law.

(4) The provisions of sections 81 and 82 of the Indian Registration Act, 1877, regarding offences by registering officers and other persons, shall, so far as they can be made applicable, apply to like offences when committed with respect to the registration of documents under this Regulation.

III of 1877.

CHAPTER VIII.

MISCELLANEOUS.

55. (1) The Deputy Commissioner in the performance of his official duties is empowered to require, or to authorize any Tahsildar to require, any proprietor, farmer, rent-collector or occupier of land (a) to furnish such information, accounts and documents as he may be capable of furnishing, and (b) to supply provisions and labour at market rates for the use of troops and officers of the Government marching in or through the district of Angul on the public service. Any such person failing to comply with such requisition shall be liable to a penalty not exceeding one hundred rupees, and such penalty may be levied in the manner provided by the Code of Criminal Procedure, 1882, for the levy of criminal fines.

(2) Any person aggrieved by any order of the Deputy Commissioner under this section may appeal to the Superintendent, whose order shall be final

X of 1882.

56. (1) Whenever any property is sold by public auction by or under the orders of a public servant competent to cause the sale of such property, the auction-purchaser of such property shall be bound to pay the amount for which such property is sold at such time and at such place as may be notified at the time of sale, and shall be bound to conform to all the conditions under which the sale is made.

(2) If the auction-purchaser omits or fails to pay the amount for which the property is sold at such place or time as is notified at the time of sale, or fails to comply with any of the conditions under which the sale is made, it will be competent to the officer by or under whose order the property is sold to direct the re-sale of such property.

(3) Such re-sale shall be made at the risk of the auction-purchaser at the first sale, and the difference between any bid made by him and the proceeds of the second sale rendered necessary in consequence of his default shall be recoverable from him, together with all costs incurred, as a demand due to Government.

*Explanation:—*The expression "public servant" as used in this section has the same meaning as is attached to it in the Indian Penal XLV of 1860. Code.

57. The Deputy Commissioner may, with the sanction of the Superintendent, make rules to regulate the writing of petitions and the conduct of cases in his Court and in the Courts subordinate to him by persons not duly qualified under the Legal Practitioners Act, 1879 :

XVIII of 1879.

Provided that nothing in the above clause shall be deemed to apply to any legal practitioner duly qualified under that Act and holding a certificate under section 7 of that Act authorizing him to practise in any other Court.

58. Notwithstanding anything contained in the Court-fees Act, the VII of 1870. Power of Court to grant exemption from payment of court-fees. the presiding officer of any Court may, in special cases, by an order in writing and for reasons to be recorded therein, exempt any document from the payment of such fees.

59. Notwithstanding anything contained in the Indian Oaths Act, X of 1873. Administration of oath or solemn affirmation. 1873, any form of oath or solemn affirmation common amongst, or held binding by, the persons of the race or persuasion to which any witness in, or party to, any judicial proceeding (not being the accused in any criminal proceeding) belongs, and not repugnant to justice and decency, and not purporting to affect any third person, may be administered to such witness or party.

60. The district of Angul shall be held to be a general police-district within the meaning of Act V of 1861 as modified by Act No. VII of 1869 passed by the Lieutenant-Governor of Bengal in Council, and the Superintendent shall exercise in it all powers and authorities conferred on an Inspector-General of Police.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series. The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1876:—

REVENUE DEPARTMENT.

[Revised Advertisement.]

A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes and Volume VI, Parts I, II, III & IV of the Dictionary are now ready at the Office of the Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs 45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, Rs 6 and 8 shillings respectively will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and half of G; Volume IV, latter half of G to middle of L, and Volume V contains the latter half of L to end of O; Vol. VI (which will consist of four parts), Part I, contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year, but a tenth volume, may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a glossary of the vernacular and European names of the plants, animals, and minerals of India, and as such, will be a work of reference, which, it is hoped, may prove of considerable value.

ENACTMENTS REPEALED.

The Prisons Bill.

(Chapter I.—Preliminary.—Sections 1-3. Chapter II.—Maintenance and Officers of Prisons.—Sections 4-6.)

A Bill to amend the law relating to Prisons.

WHEREAS it is expedient to amend the law relating to prisons in British India, and to provide rules for the regulation of such prisons; It is hereby enacted as follows :—

CHAPTER I.

PRELIMINARY.

1. (1) This Act may be called the Prisons Title, extent and com- Act, 1894.
mencement.

(2) It extends to the whole of British India, inclusive of Upper Burma, British Baluchistan, the Santal Parganas, the Hill Tracts of Chittagong, the Chutia Nagpur Division, the Tarai Parganas, the Pargana of Spiti, and the Zamindari and Amani Estates of Ganjam and Vizagapatam, and the Presidency-towns of Calcutta, Madras and Bombay; and

(3) It shall come into force on the day of

2. (1) On and after that day the enactments mentioned in the schedule shall be repealed to the extent specified in the third column thereof.

(2) But all rules and appointments made, directions given and orders issued under any of these enactments shall, so far as they are consistent with this Act, be deemed to have been respectively made, given, and issued under this Act.

(3) Any enactment or document referring to any of these enactments shall, so far as may be, be construed to refer to this Act or to the corresponding portion thereof.

Definitions.

3. In this Act—

(1) "prison" means any central or district or temporary gaol or house of correction or penitentiary, and includes all grounds or buildings appurtenant to or occupied for the use of the prison, but does not include a subsidiary gaol or a place (other than a gaol) specially appointed by the Local Government under section 541 of the Code of Criminal Procedure, 1882, except as to any of the provisions of this Act or the rules made under it which may have been extended to such gaol or place by rule made under section 58:

(2) "a subsidiary gaol" means a gaol not being a central or district gaol, in which only civil or unconvicted criminal prisoners or convicted criminal prisoners under a sentence not exceeding a period to be fixed in the case of each such gaol by the Local Government are confined, except when it is necessary to detain prisoners with longer sentences in a subsidiary gaol pending removal to a central or district gaol or as convict officers or menials:

(3) "criminal prisoner" means any prisoner charged with or convicted of an offence or confined under the provisions of the Code of Criminal

Procedure, 1882, or by order of a Court-martial:

(4) "convicted criminal prisoner" means any criminal prisoner under sentence of a Court or Court-martial, and includes a person detained in prison under the provisions of Chapter VIII of the Criminal Procedure Code, 1882:

(5) "civil prisoner" means any prisoner who is not a criminal prisoner as defined above;

(6) "remission system" means the rules for the time being in force regulating the award of marks to, and the consequent shortening of sentences of, prisoners in gaols: and

(7) "history-ticket" means the record to be kept by a prisoner of such information as is required in respect of such prisoner by this Act or the rules made under it.

CHAPTER II.

MAINTENANCE AND OFFICERS OF PRISONS.

4. The Local Government shall provide, for Accommodation for the prisoners in the territories under such Government, accommodation in prisons constructed and regulated in such manner as to comply with the requisitions of this Act in respect of the separation of prisoners.

5. (1) Whenever it appears to the Inspector Temporary accom- General of Prisons that modation for prisoners. the number of prisoners in any prison is greater than can conveniently or safely be kept therein, and it is not convenient to transfer the excess number to some other prison,

or whenever from the outbreak of epidemic disease within any prison, or for any other reason, it is desirable to provide for the temporary shelter and safe custody of any prisoners,

provision shall be made, by such officer and in such manner as the Local Government may from time to time direct, for the temporary shelter and safe custody of so many of the prisoners as cannot be conveniently or safely kept in the prison.

(2) Prisoners for whom such temporary shelter is provided shall be subject to the same rules as if they were within the prison.

6. An Inspector General of Prisons shall be Inspector General of appointed for the territories subject to each Local Government, and shall exercise, subject to the order of the Local Government, the general control and superintendence of all prisons situate in the territories under such Government:

Provided always that civil gaols in the Presidency of Bombay shall continue to be managed under the provisions of sections 8 to 10 of Bombay Act II of 1874.

*The Prisons Bill.**(Chapter II.—Maintenance and Officers of Prisons.—Section 7. Chapter III.—Duties of Officers.—Sections 8-17.)*

7. For every prison there shall be a Superintendent, a Medical Officer (who may also be the Superintendent), a Gaoler and such other officers as the Local Government thinks necessary :

Provided that in the Presidency of Bombay it shall be competent to the Local Government to declare that in certain prisons the office of Gaoler shall be held by the person appointed Superintendent.

CHAPTER III.

DUTIES OF OFFICERS.

Generally.

8. All officers of a prison shall obey the directions of the Superintendent; all subordinate officers shall perform such duties as may be directed by the Gaoler with the sanction of the Superintendent; and the duties of each subordinate officer shall be inserted in a book to be kept by such officer.

9. No officer of a prison shall sell or let, nor shall any person in trust for or employed by him sell or let, or derive any benefit from selling or letting, any article to any prisoner.

10. No officer of a prison shall, nor shall any person in trust for or employed by him, have any interest, direct or indirect, in any contract for the supply of the prison: nor shall he derive any benefit, directly or indirectly, from the sale or purchase of any article on behalf of the prison or belonging to a prisoner.

Superintendent.

11. (1) Subject to the orders of the Inspector General of Prisons, the Superintendent shall manage the prison in all matters relating to discipline, labour, expenditure, punishment and control.

(2) Subject to such directions as may from time to time be given by the Local Government, the Superintendent of a prison other than a central gaol or a prison situate in a Presidency-town shall obey all lawful orders respecting

the prison given by the District Magistrate, and shall report to the Inspector General all such orders and the action taken thereon.

Medical Officer.

12. The Medical Officer shall have charge of the sanitary administration of the prison, and shall perform such duties as may be prescribed by rules made by the Local Government under section 59.

13. Whenever the Medical Officer has reason to believe that the mind of a prisoner is, or is likely to be, injuriously affected by the discipline or treatment to which he is subjected, the Medical Officer shall report the case in writing to the Superintendent, together with such observations as the Medical Officer thinks proper.

14. On the death of any prisoner, the Medical Officer shall forthwith record in writing the following particulars, namely:—

- (1) when the deceased was taken ill,
- (2) when the Medical Officer was first informed of the illness,
- (3) the nature of the disease,
- (4) when the prisoner died, and
- (5) (in cases where a *post-mortem* examination is made) an account of the appearances after death,

together with any special remarks that appear to the Medical Officer to be required.

Gaoler.

15. (1) The Gaoler shall reside in the prison, unless the Superintendent permits him in writing to reside elsewhere.

(2) The Gaoler shall not, without the Inspector General's sanction, be concerned in any other employment.

16. Upon the death of a prisoner, the Gaoler shall give immediate notice thereof to the Superintendent and the Medical Officer.

17. The Gaoler shall keep, or cause to be kept, the following records:—

- (1) a register of prisoners admitted;
- (2) a book showing when each prisoner is to be released;
- (3) a punishment-book for the entry of the punishments inflicted on prisoners for prison-offences;

The Prisons Bill.

(Chapter III.—Duties of Officers.—Sections 18–22. Chapter IV.—Admission, Removal and Discharge of Prisoners.—Sections 23–25. Chapter V.—Discipline of Prisoners.—Section 26.)

(4) a visitors' book for the entry of any observations made by visitors to the prison ;

(5) a record of the money and other articles taken from prisoners ;

and all such other records as may be prescribed by rules made under section 58 or section 59.

18. The Gaoler shall be responsible for the safe custody of the records to be kept by him under section 17, for the commitment warrants and all other documents confided to his care, and also for the money and other articles taken from prisoners

19. The Gaoler shall not be absent from the prison for a night without permission in writing from the Superintendent ; but, if absent without leave for a night from unavoidable necessity, he shall immediately report the fact and the cause of it to the Superintendent.

20. Where a Deputy Gaoler is appointed to a prison, he shall be competent to perform any duty required by this Act or by any rule made under section 58 or section 59 to be performed by the Gaoler.

Subordinate Officers.

21. The officer acting as gate-keeper, or any other officer of the prison, may examine anything carried in or out of the prison, and may stop and search any person suspected of bringing in spirits or other prohibited articles into the prison, or of carrying out any property belonging to the prison, and, if any such articles or property be found, shall give immediate notice thereof to the Gaoler.

22. Subordinate officers shall not be absent from the prison without leave from the Superintendent or from the Gaoler, and before absenting themselves they shall leave their keys in the Gaoler's office.

CHAPTER IV.

ADMISSION, REMOVAL AND DISCHARGE OF PRISONERS.

23. (1) When a prisoner is first admitted, and whenever he afterwards enters the prison, he shall be searched, and all weapons and prohibited articles shall be taken from him.

(2) Every criminal prisoner shall also, as soon as possible after admission, be examined by

the Medical Officer, who shall enter in a book, to be kept by the Gaoler, a record of the state of the prisoner's health, and of any wounds or marks on his person, the class of labour he is fit for if sentenced to rigorous imprisonment, and any observations which the Medical Officer thinks fit to add.

(3) In the case of female prisoners the search and examination shall be carried out by the matron under the orders of the Medical Officer.

24. All money or other articles in respect whereof no order of a competent Court has been made, and which may be brought into the prison by any criminal prisoner, or sent to the prison for his use, shall be placed in the custody of the Gaoler.

25. (1) All prisoners, previously to being removed to any other prison, shall be examined by the Medical Officer.

(2) No prisoner shall be removed to any other prison, unless the Medical Officer certifies that the prisoner is free from any illness rendering him unfit for removal.

(3) No prisoner shall be discharged against his will from prison, if labouring under any acute or dangerous distemper, nor until, in the opinion of the Medical Officer, such discharge is without danger to himself or other persons.

CHAPTER V.

DISCIPLINE OF PRISONERS.

26. The requisitions of this Act with respect to the separation of prisoners are as follows :—

(1) in a prison containing female prisoners as well as males, the females shall be imprisoned in separate buildings, or separate parts of the same building, in such manner as to prevent their seeing, or conversing or holding any intercourse with, the males ;

(2) in a prison where male prisoners under the age of eighteen are confined, means shall be provided for separating them altogether from the other prisoners and for separating those of them who have arrived at the age of puberty from those who have not ;

(3) unconvicted criminal prisoners shall be kept apart from convicted criminal prisoners ; and

(4) civil prisoners shall be kept apart from criminal prisoners.

Rules as to separation of prisoners.

27. The Local Government shall have power to make rules—

(1) as to the description and construction of the cells to be used for the partial or entire seclusion of prisoners under the provisions of this Act;

(2) as to the time during which prisoners not guilty of offences against prison rules may be confined separately.

28. No cell shall be used for solitary confinement unless it is furnished

Solitary confinement. with the means of enabling the prisoner to communicate

at any time with an officer of the prison, and every prisoner confined in a cell for not less than twenty-four hours, whether as a punishment or otherwise, shall be visited at least once a day by the Medical Officer or a medical subordinate.

29. (1) Every prisoner under sentence of death

Prisoners under sentence of death.

shall, immediately on his arrival in the prison after sentence, be searched by, or by order of, the Gaoler, and all articles shall be taken from him which the Gaoler deems it dangerous or inexpedient to leave in his possession.

(2) Every such prisoner shall be confined in a cell apart from all other prisoners, and shall be placed by day and by night under the charge of a guard.

CHAPTER VI.

FOOD, CLOTHING AND BEDDING OF CIVIL AND UNCONVICTED CRIMINAL PRISONERS.

30. A civil prisoner or an unconvicted criminal prisoner shall be

or other necessities belonging to any civil or unconvicted criminal prisoner shall be given or sold to any other prisoner; and any such prisoner transgressing this regulation shall lose the privilege of purchasing food or receiving it from private sources, for such time as the Superintendent thinks proper.

32. (1) Every civil prisoner and unconvicted criminal prisoner unable

Supply of clothing and bedding to civil and unconvicted criminal prisoners.

to provide himself with sufficient clothing and bedding shall be supplied by the Superintendent with such clothing and bedding as may be necessary.

(2) When any civil prisoner has been committed to prison in execution of a decree in favour of a private person, such person, or his representative, shall be liable to pay to the Superintendent on demand the cost of the clothing and bedding so supplied to the prisoner; and in default of such payment the prisoner shall be released.

CHAPTER VII.

EMPLOYMENT OF PRISONERS.

33. (1) Civil prisoners may, with the Superintendent's permission, work and follow any trade or profession.

(2) Civil prisoners finding their own implements, and not maintained at the expense of the prison, shall be allowed to receive the whole of their earnings; but the earnings of such as are furnished with implements or are maintained at the expense of the prison shall be subject to a deduction, to be determined by the Superintendent, for the use of implements and the cost of maintenance.

34. (1) No criminal prisoner sentenced to labour or employed on labour at his own desire shall, except on an emergency with the sanction in writing of the Superintendent, be so employed for more than nine hours in any one day.

(2) The Medical Officer shall from time to time examine the labouring prisoners while they are employed, and shall at least once in every fortnight have recorded upon the history-ticket of each prisoner employed on labour the weight of such prisoner at the time.

(3) When the Medical Officer is of opinion that the health of any prisoner is likely to be injured by a continuance of any kind or class of labour, he shall not be employed on such labour but shall be placed on such other kind or class of labour as the Medical Officer may consider suited for him.

35. (1) Provision shall be made by the Superintendent for the employment (as long as they so desire) of all criminal prisoners sentenced to simple imprisonment.

(2) The Superintendent shall make rules as to the amount and nature of such employment; but no prisoner not sentenced to rigorous imprisonment shall be punished for neglect of work excepting by such alteration in the scale of diet as may be established by the rules of the prison in the case of neglect of work by such prisoners.

CHAPTER VIII.

HEALTH OF PRISONERS.

36. (1) The names of prisoners desiring to see the Medical Officer or appearing out of health in mind or body shall be reported by the officer in immediate charge of them to the Gaoler.

(2) The Gaoler shall, without delay, call the attention of the Medical Officer to any prisoner desiring to see him, or who is ill, or whose state of mind or body appears to require attention,

and shall carry into effect all lawful directions given by the Medical Officer in writing respecting alterations of the discipline or treatment of any such prisoner.

37. All directions given by the Medical Officer in relation to any prisoner, with the exception of orders for the supply of medicines or directions relating to such matters as are carried into effect by the Medical Officer himself or under his superintendence, shall be entered day by day in the prisoner's history-ticket or in such other record as the Local Government may by rule direct, and the Gaoler shall make an entry in its proper place stating in respect of each direction the fact of its having been or not having been complied with, accompanied by such observations, if any, as the Gaoler thinks fit to make, and the date of the entry.

38. In every prison an infirmary or proper place for the reception of sick prisoners shall be provided.

CHAPTER IX.

VISITS TO, AND CORRESPONDENCE OF, PRISONERS.

39. (1) Due provision shall be made for the admission, at proper times and under proper restrictions, into every prison of persons with whom civil or unconvicted criminal prisoners may desire to communicate.

(2) The Local Government shall regulate the communication and correspondence of prisoners with their friends in such manner as it may think necessary for the maintenance of good order and discipline.

40. (1) The Gaoler may demand the name and address of any visitor to a prisoner, and, when the Gaoler has any ground for suspicion, may search any visitor, or cause him to be searched, but the search shall not be made in the presence of any prisoner or of another visitor.

(2) In case of any such visitor refusing to permit himself to be searched, the Gaoler may deny him admission; and the grounds of such proceeding, with the particulars thereof, shall be entered in his journal.

CHAPTER X.

OFFENCES IN RELATION TO PRISONS.

41. Whoever, contrary to the rules made under section 59, brings, throws or attempts by any means whatever to introduce into any prison or any place provided under section 5 for the temporary shelter and safe custody of prisoners, or gives or attempts to give to any prisoner outside the limits of a prison, any article mentioned in the said rules,

and every officer of a prison who, contrary to such rules, knowingly suffers any such article to be introduced into any such prison or place, to be possessed by any prisoner or to be given to any prisoner outside the limits of a prison,

and whoever, contrary to such rules, communicates or attempts to communicate with any prisoner,

and whoever abets any offence made punishable by this section,

shall, on conviction before a Magistrate, be liable to rigorous imprisonment for a term not exceeding six months, or to fine not exceeding two hundred rupees, or to both.

42. When any person, in the presence of any officer of a prison, commits any offence specified in the preceding section, and refuses on demand of such officer to state his name and residence, or gives a name or residence which such officer knows, or has reason to believe, to be false, such officer may arrest him, and shall without unnecessary delay make him over to a Police-officer, and thereupon such Police-officer shall proceed as if the offence had been committed in his presence.

43. The Superintendent shall cause to be affixed, in a conspicuous place outside the prison or the place provided as aforesaid, a notice in English and the local Vernacular setting forth the penalties incurred by persons committing any offence under section 41.

*The Prisons Bill.**(Chapter XI.—Prison-offences.—Sections 44-45.)*

CHAPTER XI.

PRISON-OFFENCES.

44. The following acts are declared to be prison-offences when committed by a prisoner:—

- (1) such wilful disobedience to the regulations of the prison by any prisoner as shall have been declared by rules made under section 58 to be a prison offence;
- (2) an assault or use of criminal force by any prisoner;
- (3) the use of insulting or threatening language by any prisoner;
- (4) immoral or indecent or disorderly behaviour by any prisoner;
- (5) wilfully disabling himself from labour;
- (6) contumaciously refusing to work;
- (7) filing, cutting, altering or removing handcuffs, fetters or bars;
- (8) wilful idleness or negligence at work by any prisoner sentenced to rigorous imprisonment;
- (9) wilful mismanagement of work by any prisoner sentenced to rigorous imprisonment;
- (10) wilful damage to prison property;
- (11) tampering with or altering or defacing history-tickets, records or documents;
- (12) receiving, possessing or transferring any articles contrary to the rules made under section 59 of this Act;
- (13) feigning illness or concealing illness;
- (14) wilfully bringing false accusations against any officer or prisoner;
- (15) omitting or refusing to report, as soon as it comes to his knowledge, the occurrence of any fire, any plot or conspiracy, any escape, attempt or preparation to escape, and any attack or preparation for attack upon any prisoner or gaol official;
- (16) conspiring to escape, or to assist in escaping, or to commit any other of the offences aforesaid.

45. The Superintendent may examine any person touching any such offence, and determine thereupon, and punish such offence by—

- (1) a formal warning:

EXPLANATION.—A formal warning shall mean a warning personally addressed to a prisoner by the Superintendent and recorded in the punishment-book and on the prisoner's history-ticket;

- (2) change of labour to some more irksome or severe form;
- (3) hard labour for a period not exceeding seven days in the case of prisoners not sentenced to rigorous imprisonment;
- (4) such loss of privileges admissible under the remission system for the time being in force as may be prescribed by rules made by the Governor General in Council;
- (5) penal diet, that is, restriction of diet in such manner and subject to such conditions regarding labour as may be prescribed by the Local Government:

Provided that such restriction of diet shall in no case be applied to a prisoner for more than ninety-six consecutive hours, and shall not be repeated except for a fresh offence nor until after an interval of one week;

- (6) solitary confinement for any period not exceeding seven days:

Provided that after each period of solitary confinement an interval of not less duration than such period must elapse before the prisoner is again sentenced to solitary or separate confinement:

EXPLANATION.—Solitary confinement means such confinement with or without labour as entirely secludes the prisoner both from sight of, and communication with, other prisoners;

- (7) separate confinement for any period not exceeding fourteen days:

Provided that after each period of separate confinement an interval of not less duration than such period must elapse before the prisoner is again sentenced to separate or solitary confinement:

EXPLANATION.—Separate confinement means such confinement with or without labour as entirely secludes a prisoner from communication with, but not from sight of, other prisoners:

- (8) cellular confinement for any period not exceeding six months:

EXPLANATION.—Cellular confinement means such confinement with or without labour as secludes a

prisoner from communication with, but not from sight of, other prisoners, and allows him not less than one hour's exercise per diem ;

(9) penal diet as defined in clause (5) combined with solitary confinement as defined in clause (6) ;

(10) imposition of handcuffs of such pattern, and subject to such rules as to manner and period of imposition, as may be prescribed by rules made by the Governor General in Council ;

(11) imposition of fetters of such pattern and weight, in such manner and for such period, as may be prescribed by rules made by the Governor General in Council ;

(12) the substitution of gunny for clothing of other material for a period which shall not exceed three months ;

(13) whipping, provided that the number of stripes shall not exceed thirty :

Provided that nothing in this section shall render any female or civil prisoner liable to the imposition of any form of handcuffs or fetters, or to whipping.

46. Any two of the punishments enumerated in section 45 may be awarded for any such offence in combination, subject to the following exceptions, namely :—

(1) formal warning shall not be combined with any other punishment ;

(2) penal diet shall not be combined with "change of labour," nor shall any additional period of penal diet awarded singly be combined with any period of penal diet awarded in combination with solitary confinement ;

(3) solitary confinement shall not be combined with separate confinement or with cellular confinement, or separate confinement with cellular confinement, so as to prolong the total period of seclusion to which the prisoner shall be liable ;

(4) whipping shall not be combined with any other form of punishment, except separate confinement and loss of privileges under the remission system.

47. (1) The Superintendent shall have power to award any of the punishments enumerated in sections 45 and 46 of this Act, subject, in the case of cellular confinement for a period exceeding one month, to the previous confirmation of the Inspector General.

(2) No officer subordinate to the Superintendent shall have power to award any punishment whatever.

48. (1) No punishment other than those specified in the foregoing sections shall be inflicted on any prisoner, and no punishment shall be inflicted on any prisoner otherwise than in accordance with the provisions of the foregoing sections.

(2) Any Gaoler or subordinate officer of a gaol contravening this section shall be held to have committed an offence punishable under section 53 of this Act.

49. (1) No punishment of penal diet, either singly or in combination, or of whipping, shall be executed until the prisoner awarded such punishment has been examined by the Medical Officer, who, if he considers the prisoner fit to undergo the punishment awarded, shall certify accordingly in the appropriate column of the punishment-book prescribed in section 17.

(2) If he considers the prisoner unfit to undergo the punishment awarded, he shall in like manner record his opinion in writing and shall state whether the prisoner is absolutely unfit for punishment of the kind awarded, or whether he considers any modification necessary.

(3) In the latter case he shall state what extent of punishment he thinks the prisoner can undergo without injury to his health.

50. (1) In the punishment-book prescribed in section 17 of this Act there shall be recorded, in respect of every punishment inflicted, the prisoner's name, register number and the class (whether habitual or not) to which he belongs, the offence of which he was guilty, the date on which such offence was committed, the number of previous offences recorded against the prisoner, and the date of his last offence, the punishment awarded, and the date of infliction.

(2) In the case of every serious offence, the names of the witnesses proving the offence shall be recorded, and, in the case of offences for which whipping is awarded, the Superintendent shall record the substance of the evidence of the witnesses, the defence of the prisoner, and the finding with the reasons therefor.

(3) Against the entries relating to each punishment the Gaoler and Superintendent shall affix their initials as evidence of the correctness of the entries.

51. If any prisoner is guilty of any offence against gaol discipline which, by reason of his having frequently committed such offences or

otherwise, in the opinion of the Superintendent, is not adequately punishable by the infliction of any punishment awardable by himself under this Act, the Superintendent may forward such prisoner to the Court of the District Magistrate or of any Magistrate of the first class having jurisdiction, together with a statement of the circumstances, and such Magistrate shall thereupon inquire into and try the charge so brought against the prisoner, and, upon conviction, may sentence him to imprisonment of either description which may extend to one year, such term to be in addition to any term for which such prisoner was undergoing imprisonment when he committed such offence, or may sentence him to any of the forms of punishment specified in sections 45 and 46 of this Act:

Provided that no person shall be punished twice for the same offence.

52. (1) No punishment of whipping shall be inflicted in instalments, or Whipping. except in the presence of the Superintendent and Medical Officer or medical subordinate.

(2) Whipping shall be inflicted with a light ratan not less than half an inch in diameter on the buttocks, and in case of prisoners under the age of sixteen it shall be inflicted with a lighter ratan in the same manner.

53. (1) Every Gaoler or subordinate officer of a prison ill-treating any prisoner, or wilfully violating or neglecting any provision of this Act or any rule made under section 58 or section 59, shall be liable, under the orders of the Superintendent or Inspector General, to fine not exceeding three months' pay.

(2) Any fine imposed under this section may be recovered, either by deductions from the officer's salary, or under the law for the time being in force for the recovery of fines.

54. (1) Every Gaoler or subordinate officer of a prison who shall be guilty of any violation of duty or willful breach or neglect of any rule or regulation or lawful order made by competent authority, or who shall withdraw from the duties of his office without permission, or without having given previous notice in writing of his intention for the period of two months, or who shall engage without authority in any employment other than his gaol duty, or who shall be guilty of cowardice, or who shall offer any personal violence not warranted by the circumstances to any person in his custody shall be liable, on conviction before a Magistrate, to a penalty not exceeding two hundred

rupees, or to imprisonment, with or without hard labour, for a period not exceeding three months, or to both.

(2) No person shall, under this section or section 53, be punished twice for the same offence.

CHAPTER XII.

MISCELLANEOUS.

55. Whenever the Superintendent considers it necessary (with reference either to the state of the prison or the character of the prisoners) for the safe custody of any prisoners that they should be confined in irons, he may, subject to such rules and instructions as may be laid down by the Inspector General with the sanction of the Local Government, so confine them.

56. (1) Prisoners under sentence of transportation shall, subject to any rules made under section 59, be confined in fetters for the first three months after admission to prison.

(2) Should the Superintendent consider it necessary, either for the safe custody of the prisoner himself or for any other reason, that fetters should be retained on any such prisoner for more than three months, he shall apply to the Inspector General of Prisons for sanction to their retention for the period for which he considers their retention necessary, and the Inspector General may sanction such retention accordingly.

57. No prisoner shall be put in irons or under mechanical restraint by the Gaoler of his own authority, except in case of urgent necessity, in which case notice thereof shall be forthwith given to the Superintendent.

58. The Governor General in Council may for any part of British India, and each Local Government with the previous sanction of the Governor General in Council may for the territories under its administration, make rules consistent with this Act—

(1) defining the acts which shall constitute prison offences;

(2) determining the classification of such offences into serious and minor offences;

(3) fixing the punishments admissible under this Act which shall be awardable for commission of such offences or classes of offences;

ernment to make rules.

to the control of the Gov-
ernor General in Council,
make rules consistent with
this Act—

- (1) for the government of prisons and for the guidance of all officers appointed under this Act ;
- (2) as to the food, bedding and clothing of criminal prisoners and of civil prisoners maintained otherwise than at their own cost ;
- (3) for the employment and control of convicts within or without prisons, and for the guidance of the guards in charge of such convicts ;
- (4) for defining articles the introduction of which into prisons without due authority is prohibited ;
- (5) for the classification of the forms of labour ;
- (6) for regulating the manner in which the proceeds of the employment of prisoners shall be disposed of ;
- (7) for regulating the confinement in fetters of prisoners sentenced to transportation ;

- (8) for the classification and the separation of prisoners ;
- (9) for the preparation and maintenance of history-tickets ;
- (10) for the selection and appointment of prisoners as officers of prisons ;
- (11) for rewards for good conduct ;
- (12) for regulating the transfer or removal of prisoners from one prison or place to another ;
- (13) for the treatment, transfer and disposal of criminal lunatics or recovered criminal lunatics confined in prisons ;
- (14) for regulating the transmission of appeals and petitions from prisoners ;
- (15) for the appointment and guidance of visitors of prisons ; and
- (16) generally, in regard to the admission, custody, employment, dieting, treatment and release of prisoners, and for other purposes consistent with this Act.

(2) Copies of such rules, so far as they affect the government of prisons, shall be exhibited in some place to which all persons employed within a prison have access.

60. All rules now in force relating to any of the matters mentioned in sections 12, 27, 35, 55, 56, 58 and 59 shall, so far as such rules are consistent with this Act, be deemed to have been made under those sections respectively, and the existing officers of prisons shall be deemed to have been appointed under this Act.

61. All or any of the powers and duties conferred and imposed by this Act on a Superintendent may be exercised and performed by such other officer as the Local Government may from time to time appoint in this behalf other by name or by his official designation.

STATEMENT OF OBJECTS AND REASONS.

THERE are at present four different Acts in force for the regulation of jails in British India and for the enforcement of discipline therein. These Acts differ *inter se* in various important points, namely, as to the jail-offences enumerated in them, as to the punishments which might be inflicted for these offences, and as to the authorities competent to inflict these punishments. In consequence divergent systems of jail management have grown up in the several Provinces, whereby there has been a sacrifice of that uniform enforcement of sentences of imprisonment which effective general administration requires. The object of this Bill is to repeal the four local Acts and to prescribe a uniform system of prison management in India.

2. The Bill is mainly based on Act XXVI of 1870 (*an Act to amend the law relating to Prisons*), which is in force in the North-Western Provinces and Oudh, the Punjab, the Central Provinces, Coorg and Burma, with amendments embodying the conclusions arrived at by the Government of India on the Report of the Jail Committee of 1889 and the Report of the Prison Conference of 1892, as stated in the Resolution recorded in the Home Department of the 9th November, 1892, and in the Circular letter to Local Governments and Administrations, dated the 25th March, 1893, to which it appeared necessary to give legislative form.

3. The details of the Bill which appear to call for remark are noticed in this paragraph.

Section 3 provides for clearer definitions of the terms "prison," "subsidiary gaol," "criminal prisoner," "convicted criminal prisoner," and "civil prisoner," and adds definitions of the terms "remission system" and "history-tickets".

Section 11.—The powers of a District Magistrate to issue orders to the Superintendent of a prison have been restricted to prisons other than central gaols or prisons situated in a Presidency-town.

Section 12.—The sanitary administration of a prison has been vested in the Medical Officer.

Section 23.—An addition has been made to this section, which provides a useful precaution against false charges of police torture or the means of detecting such mal-practices, if committed. It also makes separate provision for the search and examination of female prisoners after admission into prison.

Section 26 makes provision for the separation of juveniles who have arrived at the age of puberty from those who have not.

Section 28 requires the Medical Officer or a subordinate Medical Officer to visit each prisoner confined in cells at least once a day.

Section 34 restricts the employment of criminal prisoners sentenced to labour to nine hours in any one day, except on an emergency, and then only with the sanction in writing of the Superintendent. With the view of watching more closely the health of prisoners, this section provides for recording the weight of criminal prisoners at least once a fortnight upon their history-tickets, and places upon the Medical Officer the responsibility of seeing that a prisoner's health is not injured by the work on which he is employed.

Section 44.—This section follows the general principles embodied in the existing Prisons Acts (themselves based upon English legislation) and includes in the law itself a statement of the most important jail-offences. A few additional offences which seemed of sufficient importance have been included in this section, but it is still necessary to reserve the power of making rules the breach of which involve penal consequences, since every breach of a jail regulation is a jail offence, and it is not possible to include in the Act all the regulations which have to be observed in jails or expedient to make legislation necessary for the purpose of adding to or altering them. In order to provide for the equal treatment of prisoners throughout India, however the first clause of this section, relating to prison regulations generally, has been restricted by providing that, to make disobedience to such regulations punishable, the rules creating offences must be sanctioned by the Governor General in Council.

Section 45.—Hitherto there have been in use in jails, besides the punishments prescribed in the existing laws, other forms of punishments, consisting in the modification, to the disadvantage of a prisoner, of matters of discipline or treatment left to the discretion of the executive, such as loss of marks, relegation to a disagreeable form of labour, modifi-

cation of diet, forfeiture of privileges, etc. In order, however, to prevent the introduction of objectionable forms of punishment and to secure the due record of all punishments of whatever nature, it has been considered desirable to specify exhaustively all the forms of punishment which may be resorted to; and while the section retains those forms of punishment which are laid down in the present law, clauses (1), (2), (4) and (5) introduce into it the descriptions of punishment which have hitherto prevailed at the discretion of the executive. In some of the remaining clauses modifications have also been made. Clauses (6), (7) and (8) distinguish between the different degrees of solitary, separate and cellular confinement which may be used as a punishment and are borrowed from Provincial Jail Codes where they have been found successful. Clause (9) provides for the combination of penal diet and solitary confinement; the maximum period for which penal diet may (under clause (5)) be imposed at one time is entered at ninety-six hours instead of seventy-two hours as in section 48 (2) of the Act of 1870, but this is in accordance with the law in force in Bombay (Bombay Act II of 1874, section 35, proviso) and has met with general approval. Clauses (10) and (11) relate to the imposition of irons as a punishment, which under the Act of 1870 can in other Provinces than Bengal only be ordered by the Magistrate under section 49 of the Act of 1870. The restrictions which have of late years been placed on the employment of corporal punishment and the objections to the frequent use of penal diet, make it necessary to invest Superintendents with some additional means of coercion for the control of unruly and hardened criminals. Clause (12) adds a minor punishment which has been found useful in Bengal in connection with thefts and destruction of prison clothing. Female and civil prisoners are specially excluded from the punishments of handcuffs or fetters and from whipping.

Sections 46 to 50 have been recommended by the Conference of experts on jail management from all Provinces who were convened by the Government of India in the early part of 1892 for the purpose of preparing an amended and consolidated Prisons Bill for all India.

Section 51 reproduces the section bearing number 49 in the Act of 1870, but the period of additional imprisonment which may be ordered by the Magistrate after judicial trial has been increased from six months to one year. It also provides that the Court may resort to any of the ordinary forms of jail punishment as it thinks fit, to meet the case of a Magistrate taking a different view from the Superintendent of the gravity of the prisoner's offence.

Section 54 is borrowed from the Police Act, V of 1861, section 29, and is likely to prove a useful provision.

Sections 55 and 56.—These sections are based on the rules in force in Madras and have been accepted generally by Local Governments and Administrations.

Sections 58 and 59.—These sections make provision for framing the necessary rules for regulating the matters which are left by the previous sections of the Bill to be dealt with by such rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 11th January, 1894 :—

No. 2 OF 1894.

A Bill to Repeal certain obsolete Enactments and to amend certain other Enactments.

WHEREAS it is expedient that certain enactments specified in the first schedule to this Act which are spent, or have ceased to be in force otherwise than by express specific repeal, or have by lapse of time or otherwise become unnecessary, should be expressly and specifically repealed ;

And whereas it is also expedient that certain formal amendments should be made in the enactments specified in the second schedule to this Act ;

It is hereby enacted as follows :—

1. (1) This Act may be called the Repeal-Title, extent and ing and Amending Act, commencement. 1894.

(2) It extends to the whole of the territories administered by the Governor of Bombay in Council ; and

(3) It shall come into force at once.

2. (1) The enactments specified in the first schedule are hereby re-Enactments in sche- schedule are hereby re-
pealed to the extent men-

pealed to the extent men-
tioned in the fourth column
thereof.

(2) The enactments specified in the second schedule shall be modified to the extent and in the manner mentioned in the fourth column thereof.

3. The repeal by this Act of any enactment shall not affect any Statute, Savings. Act or Regulation in which such enactment has been applied, incorporated or referred to ;

and this Act shall not affect the validity, invalidity, effect or consequences of anything already done or suffered, or any right, title, obligation or liability already acquired, accrued or incurred, or any remedy or proceeding in respect thereof, or any release or discharge of or from any debt, penalty, obligation, liability, claim or demand, or any indemnity already granted, or the proof of any past act or thing ;

nor shall this Act affect any principle or rule of law, or established jurisdiction, form or course of pleading, practice or procedure, or existing usage, custom, privilege, restriction, exemption, office or appointment, notwithstanding that the same respectively may have been in any manner affirmed, recognized or derived by, in or from any enactment hereby repealed ;

nor shall the repeal by this Act of any enactment provide or restore any jurisdiction, office, custom, liability, right, title, privilege, restriction, exemption, usage, practice, procedure or other matter or thing not now existing or in force.

<i>Part I.—Regulations of the Bombay Code.</i>				
1827 .	II	Caste questions; Pleadings.	In section 56, the words and figures under the rules regarding Commissioners, contained in the third clause of section XXXVIII of this Regulation.	Obsolete, in consequence of the repeal of section 38 (without any saving as to references) by Act XIV of 1869.
" .	V	Acknowledgment of debts; interest; mortgages.	Appendix B . . .	This Appendix is obsolete since the repeal of section 13 by Act XII of 1873. It was omitted from the Bombay Code, Ed. 1880.
" .	XII	Police . . .	Appendix E . . .	This Appendix is referred to in clause 1 of section 13 of the Regulation. It was apparently not repealed by Act XVII of 1862, which left unrepealed clause 1 of section 13 "in as far as it regulates the endorsement and record of warrants issued by Magistrates." Act X of 1872 repealed "so much of section 13 as has not been repealed," but did not specifically repeal Appendix E. In consequence of the repeal of section 13, Appendix E is obsolete, and might formally be repealed.
" .	XIII	Criminal Courts.	Appendices A, B, D, E, F, G, H, I, J, K, L, M and N.	These Appendices are obsolete, the sections of the Regulation to which they referred having been repealed by one or other of the enactments mentioned opposite the Regulation on page xv of the Chronological Table prefixed to the Bombay Code, Ed. 1880. (Appendix C was repealed by Bombay Act VI of 1866.)
" .	XX	Customs and Duties.	So much as has not been repealed.	Parts were repealed by Acts I of 1838 and I of 1852. The portions which have not been specifically repealed are the title, the preamble, Appendices D, F and G, and the statement of tariff valuations printed at the end of the Regulation. These portions are apparently obsolete, since the rest of the Regulation has been repealed. No part of the Regulation was printed in the Bombay Code, Ed. 1880.
" .	XXI	Duty on Opium and Spirits.	So much as has not been repealed.	Chapters I to IV were repealed by Act I of 1878, Chapters V to VIII by Act IV of 1857, Chapter IX by Bombay Act VIII of 1866, and Chapters X to XIII by Bombay Act V of 1878. Part of the title was repealed by Act XII of 1876, and parts of the preamble were repealed by

In the preamble, <i>the words and figures</i> and to provide for the recovery by the Local Government of advances made for purposes other than those specified in section three of the Land Improvement Act, 1871.	Obsolete, since the repeal of the third clause of section 17 of Act X of 1876 by Act XV of 1880, section 2.
1877	XIV	Broach and Kaira Incumbered Estates Act, 1877.	In section 39, <i>the word And where it first occurs, and the word</i> further.	These words are superfluous since the repeal effected by Act XXI of 1881.
1878	I	Opium Act, 1878.	In section 41, clause (b), <i>the words</i> the said. The third paragraph of section 2.	
1884	XI	Sindh Incumbered Estates Act, 1884.	Section 8 Section 9.	This paragraph refers to Act VII of 1836, which it is proposed to repeal—see <i>supra</i> , page 20. (It is not clear why the paragraph was enacted at all; it is not apparent why proceedings under Act I of 1878 should be validated by an Act of 1836, for this seems to be the effect of the paragraph.) Temporary provision. Expired. Validation clause (see second paragraph of section 3 of the Bill).

Part II.—Act of the Governor General in Council.

1839	XX	Levy of haqqs, etc.	In section 3, for shall be punishable as for an undue exaction under Regulation XVII of 1827, section XVI, of the Bombay Code, notwithstanding the offender be not a Revenue Officer of Government, read shall, whether he is or is not a Revenue Officer of Government, be punishable with imprisonment for a term which may extend to seven years, and shall also be liable to fine not exceeding ten times the amount of the sum so levied.	Bombay Regulation XVII of 1827 was repealed by Bombay Act V of 1879. That Act applies to nearly the whole of the Bombay Presidency—see section 1 and notifications under the Scheduled Districts Act, 1874. Under section 2 of Bombay Act V of 1879 the reference to Bombay Regulation XVII of 1827 in Act XX of 1839, section 3, must be read as if made to Chapter IV of the Act of 1879. But the penalties prescribed by that chapter for undue exactions by Revenue Officers are (see section 32) fine, reduction, suspension and dismissal, and these penalties are obviously unsuitable to the case of non-officials. It seems therefore to be necessary to substitute for the reference in Act XX of 1839, section 3, a clause reproducing the penalties enacted in Bombay Regulation XX of 1827, section XVI, clause first (<i>vis.</i> , imprisonment and fine). This is the object of the amendment suggested in column 4.

STATEMENT OF OBJECTS AND REASONS.

The objects of this Bill are to remove obsolete matter from, and to make two formal amendments in, certain local enactments applying to the Presidency of Bombay, in view to the impending publication of the first volume of the new edition of the Bombay Code.

The Bill has been approved by the Government of Bombay.

Abstract of the Proceedings of the Council of the Governor General of India,
assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR
GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING
LAWS AND REGULATIONS UNDER THE PROVISIONS OF
THE INDIAN COUNCILS ACTS, 1861 AND 1892 (24 & 25
VICT., CAP. 67, AND 55 AND 56 VICT., CAP. 14).

The Council met at Government House on Thursday, the 4th January, 1894.

PRESENT:

His Excellency the Viceroy and Governor General of India, G.C.M.G.,
G.M.S.I., G.M.I.E., *presiding*.
His Honour the Lieutenant-Governor of Bengal, K.C.S.I.
His Excellency the Commander-in-Chief, K.C.B., G.C.I.E., V.C.
The Hon'ble Sir A. E. Miller, Kt., Q.C.
The Hon'ble Lieutenant-General H. Brackenbury, C.B., R.A.
The Hon'ble Sir C. B. Pritchard, K.C.I.E., C.S.I.
The Hon'ble J. Westland, C.S.I.
The Hon'ble Sir A. P. MacDonnell, K.C.S.I.
The Hon'ble Dr. Rashbehary Ghose.
The Hon'ble Sir G. H. P. Evans, K.C.I.E.
The Hon'ble C. C. Stevens.
The Hon'ble J. Buckingham, C.I.E.
The Hon'ble A. S. Lethbridge, M.D., C.S.I.
The Hon'ble Gangadhar Rao Madhav Chitnavis.
The Hon'ble H. F. Clogstoun, C.S.I.
The Hon'ble W. Lee-Warner, C.S.I.
The Hon'ble P. Playfair.

NEW MEMBERS.

The Hon'ble GANGADHAR RAO MADHAV CHITNAVIS, the Hon'ble MR.
CLOGSTOUN, the Hon'ble MR. LEE-WARNER and the Hon'ble MR. PLAYFAIR
took their seats as Additional Members of Council.

PRESIDENCY SMALL CAUSE COURTS ACT, 1882, AMENDMENT BILL.

The Hon'ble SIR ALEXANDER MILLER moved that the Bill to amend the Presidency Small Cause Courts Act, 1882, be referred to a Select Committee consisting of the Hon'ble Sir Antony MacDonnell, the Hon'ble Sir Griffith Evans, the Hon'ble Dr. Rashbehary Ghose, the Hon'ble Mr. Mehta, the Hon'ble Mr. Playfair and the Mover. He said:—

"It will be in the recollection of some at least of the Members of Council that last session I had proposed to send this Bill to a Select Committee which was practically the same as the Committee now named, except that new names have been substituted for those who have ceased to be Members of the Council and therefore of the Committee. The Bill, however, stood over to await certain replies. Those replies have since been received from various quarters and they run to some length. I do not mean to trouble the Council with the whole of them, but I must refer to some of them in the course of what I have to say. I do not know that I ever have seen a more remarkable case of difference of opinion than that which I find in the papers below me. I think the well-known quotation "*quot homines, tot sententiæ*," thoroughly applies to them. There is but one thing in which they are all agreed. They all agree that something ought to be done to alter the existing law, but I can hardly find any two of them that agree as to what that something ought to be. Under the circumstances all that I can do will be to place all these opinions in the hands of the Members of the Select Committee, if nominated, and to hope that the labours of the Committee may evolve out of this mass of varying opinions something which will be substantially acceptable to the whole of the community.

"The first question arises on section 2 of the Bill. Section 2 of the Bill proposes to deal with the constitution of the Court. As the law at present stands, one-third at least of the Judges of the Court must be barristers or advocates—and one-third means two in the present case; but for the remaining Judges there is absolutely no qualification whatever prescribed. The Bill proposes to alter that by prescribing a qualification for all the Judges, and in deference to an opinion expressed, I think, in the Home Department, though I am not positive as to this, that when there was a qualification for all the Judges it was no longer necessary to keep up a separate qualification for some of them, it has been proposed to limit the necessity for being a barrister or an advocate to the Chief Judge. To that proposal objection has been taken, of a somewhat remarkable nature, namely; first of all, it was said that the advocates mentioned in the present rule might be roughly described as practising barristers. That of course is right. Then it is said, as an objection, that the Chief Judge must indeed under the Bill be a barrister or an advocate, but that that he need not be a professional man, or have ever actually practised as a barrister. Now, with all deference to those who take this point, I must say that "this is the very false gallop of" criticism. There is not one word in the Bill to alter the qualification of the Chief Judge as it stands at present. Under the existing law he must be a barrister or an advocate; that qualification would be treated as a practising barrister, not as a mere ornamental barrister. Under the new law he would be just as much and just as little required to be a practising barrister, and I cannot for one moment think that it would ever enter the head of any Local Government to appoint as Chief Judge a man who had had no practice at the Bar. So that, so far as the objection goes that the Chief Judge need not be a professional man, the law is not proposed to be altered, and the objection does not really exist. On the other point, I am bound to say that there is a large consensus of opinion, though not by any means universal, that the rule by which at least one-third of the Court should consist of men who had practised at the Bar should be maintained, and all I can say is, that, if the Select Committee desire to retain that rule, I have no objection; on the contrary, if I were forming a Court for the first time, I would require every Judge to be a man who had some forensic training, by which I mean not merely the technical position of having been "called to the Bar," but practical experience gained by actual practice. But though that might be a very reasonable rule to lay down

when creating a new Court, it is a very different thing to say that it would be desirable to apply that rule to an existing Court very differently constituted. Then it is argued that the other Judges require no qualification at all. That seems to me to be perfectly contradictory of the previous argument as regards the necessity of retaining one-third of the Court as barristers. I agree with the view expressed by the High Court of Calcutta, that it is desirable that whenever a professional man, in which I include, of course, a practising vakil, who may be just as competent as any man called to the Bar,—that whenever a professional man can be obtained, it is desirable that he should be obtained and that we should not go outside the ranks of the forensic profession for a Judge. The Bill, however, does not go so far as this, but recognizes service as a Subordinate Judge even without any forensic experience as a sufficient qualification. But at present all I am concerned to say is, that it seems to me absolutely essential that there should be some sort of professional qualification for every man who is appointed a Judge. Whether the qualifications in the Bill are the best or not is a matter which I would be willing to leave, with one exception, to the views of the Select Committee; but I am bound to say that I would rather the Bill were abandoned altogether than allowed to pass, leaving, as things stand at present, Judges who might be appointed having no professional qualification whatever.

“The only other point as regards this section upon which I wish to say anything is as regards the proposal that the Judges to be appointed shall be of five years’ standing in their qualifications. It has been objected to that the standing is not enough, and it has also been objected that the standing is too much. I think myself that five years is a very low qualification, but I am unable to propose a higher one, because by a law of the British Parliament which we cannot alter, that is the qualification imposed for Judges of the High Court, and it would be absurd in us, I think, to propose to create a Small Cause Court in India, the qualifications of the Judges of which should be higher than those imposed by the Parliament of the United Kingdom for the qualifications of the Judges of the High Court. I am, therefore, unable—though I am personally in agreement with the Government of Bombay and others who have suggested seven instead of five years—to propose that the qualification should be more than five years, because it would lead to the inconsistency which I have mentioned. It is quite true that I do not suppose that there ever was, or could be, an appointment of a gentleman of anything like so little as five years’ standing to the position of a Judge of the High Court. I am sure if such a thing were done it would produce a storm, both here and in England. I rather think there is no Judge of any High Court who was appointed on less than fifteen years’ standing, and I should say that the average was nearer twenty years. But I regret that, the qualification for the High Court being five years, I cannot propose to increase that qualification with regard to the Judges of this Court.

“The eighth section of the Act as it stands contains a provision which I propose to ask the Select Committee to alter, though it is a point upon which I feel less strongly than upon that regarding the professional qualification. As the Act stands at present, section 8 after providing for the status of the Chief Judge, runs thus—

‘The other Judges shall have rank and precedence as the Local Government may, from time to time, direct.’

“Now, there is not, so far as I know or believe, any Court in the civilised world—there certainly is not any British Court—in which the Judges other than the Chief Justice or the Chief Judge have any difference in rank or precedence other than that which follows from the dates of their appointments, and to place it in the hands of the Executive Government of any country to alter the precedence of the Judges of the Court generally, as distinguished from their right to designate the Chief Judge, would be to do the very thing which the English constitution has been labouring to avoid ever since the Revolution, that is, to keep the Judges dependent on the favour of the Executive. Even in the smaller Courts it is desirable to avoid this as far as possible, and therefore I propose in the Select Committee to alter that clause by saying that the other Judges of the Court

shall have rank and precedence according to the dates of their respective appointments; but, as I said, that is a matter upon which I do not feel the same strong opinion which I do with respect to the necessity that every Judge shall have a professional qualification, and, if the Select Committee or this Council differ from me, I shall be perfectly satisfied to acquiesce in their view.

"The third section is objected to only, I think, by the Government of Madras and by Mr. Justice Parker, who writes very strongly on the point. I must read what he says. It is due to him to do so, although I think that I can satisfy the Council that he has misunderstood the operation of the clause. He says:—

'I strongly protest against sections 3 and 6 of the new Bill. The practical effect of them is to repeal the Civil Procedure Code altogether as far as the Presidency Small Cause Court is concerned, and to turn the High Court into a Legislative body with power to enact an entirely new Code of Civil Procedure for the Presidency Small Cause Court. It may be desirable that the High Court should have power to make supplementary rules consistent with the Civil Procedure Code for the regulation of the procedure in the Small Cause Court, but such powers can be given by the extension of section 652, Code of Civil Procedure, to the Small Cause Court. But that the High Court should have power to pass rules in supersession of the law of the land seems to me a complete departure from all sound principles of legislation.'

"Now, the facts are that the provisions of the Code of Civil Procedure are not adapted in all respects to summary proceedings, and that the rules which have been made for the Small Cause Courts are, by common consent, cumbrous and dilatory; and various proposals for alterations of them were made and considered at great length not only in the Home Department of the Government of India, but also by the Local Governments, and there was a general consensus of opinion that, whilst the Code of Civil Procedure was to continue to be the basis of the procedure in all Courts in the country, the Judges of the High Court were the best persons to judge and determine when the Code of Civil Procedure might, for purposes of these summary proceedings, be set on one side, and what would be the best thing to substitute for the provisions of the Code. It is not intended, it never was intended, and there certainly is not one word in the Bill which could be construed into such an intention, to set aside the Code of Civil Procedure altogether. All that is done is, that it is proposed to leave in the hands of the Judges of the several High Courts a power which at present is exercisable by the Judges of the small Cause Courts themselves, with the consent of the Local Government; but it has not been found to work as it is, and the opinion has been generally formed, that the Judges of the High Court are likely to be better able to frame satisfactory rules, particularly as it may very well be that the rules which will fit one Small Cause Court may not be exactly the rules desirable in another Small Cause Court. The Judges of the various High Courts are likely to be the best bodies to frame practical rules, not, however, by any means suggesting that it is necessary for them to set the Code of Civil Procedure aside and to start a new Code for themselves.

"Section 4 of the Bill is a section introduced to enable a plaintiff who has a claim against several different persons, some of whom are, and some are not, within the jurisdiction of the Small Cause Court, to prosecute his claim against those whom he can reach without being obliged to prosecute it against those whom he cannot. It seems to me to be a very reasonable proposition, and it is generally approved; but there is one dissentient gentleman, a man whose opinions are entitled to considerable weight, who proposes instead to allow the plaintiff to sue absent defendants, although the Court has no jurisdiction over them. I confess that that is a strong proposition, and I should hesitate very much before I would propose it. But there are certain amendments proposed which will be brought before the Select Committee which will, I think, get rid of some of the objections raised to the clause. I propose to ask the Select Committee to put in an express provision that the plaintiff shall not only be obliged to abandon that suit, but to abandon his rights altogether, against the absent defendants, without prejudice to any right of contribution which any of the defendants sued may have against them. I do not think that a plaintiff ought to be encouraged to split up his claim and bring a case as to part against A to-day and as to another part against B to-morrow, though at the same time it would be very unfair if A having been compelled to pay the whole claim, should be

prevented from claiming his proper share from *B*, because the latter was absent. I think, however, that a very simple amendment will get over that difficulty.

"Section 5 is a section which was proposed by the late Mr. Hart, the Chief Judge of the Small Cause Court in Bombay, and it seems to me to have a very useful operation. The only objection that I have seen made to it is one which I think misapprehends the scope and operation of the section. The objection is taken by so important a body as the Judges of the High Court at Calcutta. They say that—

'With regard to section 5 of the draft under consideration, the Judges are of opinion that the provision contained in the proposed new section 19 A is calculated to lead to results of a highly inconvenient character and ought not, therefore, to form part of the Bill. It permits the refusal by the Small Cause Court to certain suits in which questions relating to the title to immoveable property may be raised as incidental to the main issues. Such questions arise collaterally in many cases which may quite properly be decided by a Small Cause Court, and the introduction of the section referred to might, in the view of the Judges, do harm in two ways. In the first place, it would tend to the rejection of a very large number of suits in which no objection, in respect of either the summary nature of the procedure or the competency of the tribunal, could be reasonably taken to the decision for collateral purposes only, of questions connected with title to immoveable property; and, secondly, it would be likely to create much dissatisfaction if parties interested in such cases, a large proportion of which are concerned with claims of small amount, were thereby compelled to have recourse to the higher tribunal which must, of course, retain exclusive jurisdiction in title suits.'

"Now, with great deference to the learned Judges, that seems to me to misapprehend altogether the scope of the section. The section provides that—

'When the right of a plaintiff and the relief claimed by him in the Small Cause Court depend upon the proof or disproof of any right to, or interest in, immoveable property or any other title which the Court cannot finally determine, the Court may at any stage of the proceedings return the plaint to be presented to a Court having jurisdiction to determine the title.'

"It does not interfere with the jurisdiction of the Court in any case in which it now has jurisdiction and in which it would be able if the law remained unaltered to decide the case; but what it does provide is this, that when a case arises such as this, and the Court cannot decide it, because a question of title has arisen which the Court is not competent to decide, instead of being obliged, as it now is, to dismiss the suit, leaving the plaintiff to begin again in a competent Civil Court, having thrown away all the costs already incurred, it enables the Small Cause Court to transfer the suit into a Court which has jurisdiction to try it, and thereby to save the throwing away of everything that has previously been done. It is exactly analogous to the provision in the English Judicature Acts, whereby when a cause is now brought in the Chancery Division which ought to be heard in the Queen's Bench Division, instead of the suit being dismissed, an order is made transferring the cause from one Division to the other. And it seems to me that, so far from its being a provision which will limit the jurisdiction of the Small Cause Court, the clause merely prevents certain costs which would otherwise have been entirely thrown away from being wasted, in cases where the question of title is one which the Court cannot determine, and the Court cannot determine the suit without having this question of title previously settled. But however the Select Committee may view the question as to whether relief ought, or ought not, to be given to the plaintiff who makes a mistake of this nature, I can only say that I am willing to acquiesce in their decision.

"Section 6 is a section with regard to which I need not trouble you. It is a simple corollary to section 3. And, if section 3, which enables the Judges to make rules, is passed, the repeal of the existing clauses is a matter of course.

"Section 7 is the section which has given rise to perhaps the largest amount of difference of opinion. As the law now stands, there is theoretically no appeal from the decision of the Small Cause Court, but any one who feels himself aggrieved may move the High Court to call for the record, and thereupon, if the High Court thinks fit, the decision may be set aside, and the plaintiff is then permitted to commence a completely new action on the Original Side of the High Court, to have the case determined: that is to say, the form which an appeal is obliged to take is one which is both cumbrous and expen-

sive, and it involves all the delay of a new action and new pleadings, everything which the Small Cause Court is designed to get rid of, but it does not prevent the case from being re-tried. I do not find anywhere in the papers any opinion in favour of the retention of this proceeding, which has been characterised by very high authority as "a hateful clause." Now, the Bill proposes to get rid altogether of that cumbrous proceeding, and to provide instead thereof that any decree in which the subject-matter is of less value than Rs 1,000 shall be concluded in the Small Cause Court without going to the High Court at all, and that any decree in which the subject-matter exceeds Rs 1,000, shall be subject to an ordinary appeal. I find that there are no less than three different views on this. I think the view of the majority is that the best course would be to restrict the jurisdiction of the Small Cause Court to suits, the subject-matter of which does not exceed Rs 1,000, and thereupon to get out of all difficulty. If that view is taken, although I do not think it is the best, I would not quarrel with it. Another view is to retain the present procedure, only enabling the defendant in any case in which a suit is brought for more than Rs 1,000, to remove it into the High Court. That is a somewhat cumbrous proceeding, and, though I myself have no objection whatever to concurrent jurisdiction in different Courts, it is contrary to the scheme and to the spirit of Indian legislation on these matters; and I doubt whether it would be as desirable as limiting the jurisdiction of the Court altogether. Still, it might possibly be found a workable *modus vivendi*, having regard to the fact that there is so much difference of opinion in different localities on the question of limit.

"The third proposal is that which is contained in the Bill. As between the first and the third again, I do not feel any great preference either way. I cannot myself understand how a cause which is worth a thousand rupees can be called a 'small cause,' but it seems to be generally accepted as such. One thing, however, I cannot accept. I cannot, unless I am driven to do so, consent to any man being obliged to leave at issue a question which may cost £150 for decision at a single hearing and before a single Judge. I should like to refer for one moment to what has been said on that subject by the Bombay Chamber of Commerce. The Chamber writes :—

'What my Committee consider is really wanted is an opportunity for the plaintiff to obtain a re-hearing in cases where a fraudulent defence has been set up at the first hearing in the Small Cause Court, which defence could not have succeeded had the procedure at the Small Cause Court enabled the plaintiff to show that the defendant's documents produced in the Small Cause Court were fraudulent, and which he would on a re-hearing be able to do in the High Court, where the whole procedure as regards inspection of documents contained in the Civil Procedure Code obtains. A mere right of appeal will not cover this point, because an appeal can only proceed on the facts and evidence before the Court of First Instance, whereas a right of re-hearing enables the suitor to meet deficiencies in the evidence caused by surprise or otherwise in the First Court. Practically, the position now is that the plaintiff does not know what case he has to meet in the Small Cause Court, and he can be, and no doubt frequently is, met with fraudulent documents and a fraudulent defence, which the Committee of the Chamber submit should not be possible in suits for so large a sum as Rs 2,000.'

"Of course, if that is done in the first instance, and if the plaintiff has an appeal, he knows by the time he goes to the Court of Appeal what case he has to meet, but it becomes to my mind even more important, in these summarily tried cases, that there should be an appeal than it would be in a case in which there were regular pleadings. In any case of importance the nature of the case to be made by the other side can be more or less gathered from the pleadings, but in a case of summary proceedings is it not possible for a man to know beforehand what the case is that he may have to meet. You do not know what your opponent's case is till you hear it argued, and it is impossible to anticipate what points may arise in such a case until it has been argued before the Court of First Instance.

"I should like, while dealing with that point, to mention what Mr. Justice Starling has said upon the subject. He says :—

'I have always thought that the present practice of applying for a re-hearing, and then having the suit re-heard on the Original Side, rather clumsy, and at the same time involving much waste of time and needless expense, and I have been, and still am, of opinion that it is only fair to suitors to allow an appeal from decrees of the Small Cause Courts when the amount at stake exceeds Rs 1,000.'

"The only objection of any substance that I have seen is this. It is said you will destroy the summary nature of the Court, because it will be necessary for the Judge to take down the evidence, and you must have a judgment. As far as taking down the evidence goes, I do not know that that is necessary, though I think any Judge, in dealing with a case of the value of Rs. 1,000 or more, would consider it his duty to take a tolerably good note of the evidence, and I cannot understand any Judge making up his mind and delivering his judgment without having given himself the advantage of having before him a note of the evidence which had been tendered. But it is certainly the duty of every Judge to deliver a judgment, that is to say, to give the public an opportunity of knowing the reasons for which he has come to his decision. It is also the duty—as I pointed out on a former occasion—it is the duty of the appellant, or the person who expects to be an appellant, to provide himself with a sufficient note of the evidence and judgment if he has any reason to suppose that the Judge will not have taken a sufficient note of the evidence; or that he will not have written his judgment. I have seen appeals over and over again in which, although no doubt a good deal of the evidence was more or less recorded, not one word of the judgment was to be found except that which was noted on the back of counsel's brief; but the Court of Appeal never hesitated to accept what counsel wrote upon the back of his brief as a fair statement of what the Judge had said. It is the duty of every appellant to make out his case, because if he does not do this, the presumption is that the Court below is right. However, as between all these conflicting views, I have stated my own view, and I am willing to a certain extent to leave the matter in the hands of the Select Committee. All I would venture to say in that respect is that, unless a professional qualification of some kind is imposed upon every Judge of the Court, and unless either the jurisdiction of the Court is limited to Rs. 1,000, or an efficient appeal of some sort is given in all cases above Rs. 1,000, I personally consider that the Bill will have been "destroyed," and if it comes back from the Select Committee in such a condition, I shall ask leave to withdraw it."

His Excellency THE PRESIDENT said :—"The Hon'ble Legal Member in making this Motion has supported it by a number of arguments of a very technical and, if I may say so without giving him offence, controversial character. I think it due to my hon'ble colleagues, and to myself, to say that the statement of the Hon'ble Legal Member must be taken as representing his own views upon the points with which he has dealt, and not as in any way committing the Government of India. The Select Committee will obviously be entirely unfettered in dealing with this important measure. I have made these observations in order to avoid possible misconception."

The Hon'ble SIR GRIFFITH EVANS said :—"After what has fallen from the Hon'ble Member in charge of the Bill, and from His Excellency the President, I do not propose to trouble the Council with observations of any length. The matter can come before the Select Committee, who will be unfettered. I only now wish to say that, had I found that it was an essential portion of this measure that a system of regular appeals should be introduced into the Calcutta Small Cause Court, I should have felt it my duty to oppose the Bill and to divide the Council on the question that it be referred to a Select Committee; but, as the matter now stands, I do not think it necessary to take this course."

The Motion was put and agreed to.

LAND ACQUISITION ACT, 1870, AMENDMENT BILL.

The Hon'ble SIR ALEXANDER MILLER also moved that the Bill to amend the Land Acquisition Act, 1870, be recommitted to a Select Committee consisting of the Hon'ble Sir Antony MacDonnell, the Hon'ble Dr. Rashbehary Ghose, the Hon'ble Mr. Stevens, the Hon'ble Mr. Lee-Warner and the Mover. He said :—

"I am substituting Mr. Lee-Warner's name for that of Sir Charles Pritchard, at Sir Charles Pritchard's request. This Bill passed through

Committee last session, and it was merely postponed, because Sir James Mackay was anxious to have time to consider it at the end of the session. Since then a somewhat important paper has come in, in the shape of an opinion by Mr. Ogilvie, who is largely connected with land acquisition in the Punjab, and I have thought it desirable that that paper should be before the Select Committee in order that, with regard to some of the more or less weighty suggestions made in it, the Committee should have an opportunity of determining whether any, and which of them, should be adopted; and therefore I think it advisable that it should be recommitted. This would only perhaps involve one single sitting."

The Motion was put and agreed to.

The Council adjourned to Thursday, the 11th January, 1894.

**Weather Review of India for the week ending at 8 a.m. on
Saturday, December 30th, 1893.**

During the greater part of the week under review the weather was of the same quiet and settled character as that which prevailed during the two or three preceding weeks, but, quite at the close, the barometer fell briskly to rapidly in North-West India and a well-defined depression entered North-West India from Baluchistan. With the appearance of this depression the weather changed; the winds became cyclonic over part of North-West India and easterly over the Gangetic plain and the central parts of the country, and south-easterly over the Peninsula, while the sky clouded over and some rain fell in Baluchistan and the Punjab. The position of the depression was somewhat more southerly than is usual at this season, but in other respects the storm was a very fair example of the class of storms which are experienced over Northern India in the cold weather. With its appearance it is probable that an unsettled period has been ushered in over North-Western India. The general temperature of India for the week exceeded the normal average by about $1\frac{1}{2}^{\circ}$.

The chart of the 24th showed fairly uniform pressures throughout the Indian region, though the barometer was slightly higher in the north and centre than in the south of India. Variable winds and calms prevailed in the north and centre and northerly to easterly winds elsewhere. The weather was fine, and the only rainfall was a light shower at Negapatam. On the 25th the barometric changes were generally small, and the distribution of pressure was very similar to that reported on the 24th. The winds were also generally unaltered. Calms were numerous and the force of the wind elsewhere was only light or moderate. There was no rain anywhere, but the sky was cloudy to overcast over a considerable part of North-West India. On the 26th pressure had generally risen over Northern India, while it had been steady in the south, hence, while the general distribution of pressure was practically unaltered, the barometric gradient between the north and south had increased. The winds were unchanged and the weather was generally fine, though at Madras and at Dehra Dun some rain had fallen. The amount of cloud over North-West India had decreased. The chart of the 27th showed that pressure had on the whole risen except in North-East India. The distribution was fairly normal, readings decreasing from a high pressure area in the north-west to a low pressure area over Southern

India. The winds showed no important alteration, and the only rainfall reported was a light shower at Sibsagar. On the morning of the 28th the barometer was generally rising in Northern India and was steady in Southern India, so that the barometric difference between the north and south was again increasing. The isobaric lines over North-West India showed considerable irregularity and that pressure was unsteady in that locality. The winds were northerly over the Bay area, south-easterly over the centre of the Peninsula, and variable with calms elsewhere. There was again a light shower at Sibsagar, but no rain elsewhere. On the 29th the barometer was falling briskly in Baluchistan and slowly in Guzerat, but was rising elsewhere. Pressure was somewhat more uniform than on the preceding day, though readings still decreased from a high pressure area in the north to a low pressure area in the south. The winds were practically unaltered, and the only really important change was the fall of the barometer in Baluchistan which seemed to promise the appearance of a depression in the north-west. There was no rain. On the 30th pressure was giving way briskly to rapidly over North-West India, and slowly in all other parts of the country except the extreme north-east. A shallow, but well-defined, depression had appeared over the western desert. It had occasioned a cyclonic circulation of the wind in the north-west, and had drawn the wind into east over Northern and Central India. The sky was cloudy to overcast over North-West India and rain had fallen at Quetta and Chaman.

Temperature.—The following table shows the variations of the mean temperature from the normal on each day of the week for the different provinces of India :—

The above shows that on each day of the week the mean temperature of India was above the normal average, the excess ranging from only 0·6 on the 24th to 2·1 on the 30th. The provincial variations show that in Burma throughout the week, in Bombay from the 24th to the 28th, and in Madras on the 24th, 29th, and 30th, the heat was less than the average, but that in all the other provinces it was excessive throughout. The greatest excess was in the north-west and was largely attributable to the high night temperatures experienced during the cloudy period at the close of the week.

Rain.—During the week under review rain has been a trifle more generally received than was the case last week, but it was still reported from only a small minority of the rainfall divisions. In the north-west of the Punjab the average actual rainfall for the week was 0·14 inch, but in Assam (Bhramaputra), Oudh (South), the Punjab (Central and West), the Konkān, the Central Provinces (Central), and the East Coast (South), which were the only other divisions which received rain, the average actual fall of each was less than one-tenth of an inch. In all the divisions which received rain, except the Konkān, the fall was less than the normal. In nearly all parts of the country the anticipated rainfall of this week is very small, so that the practical absence of rain at this time is comparatively unimportant.

There were no heavy falls of rain during the week, though one or two places in the north-west received about one inch.

With the present week the autumn rainfall period is brought to a close. The three last columns of the concluding table show that in most parts of the country the rainfall has been good. In Lower Burma, in the Punjab, and in the west of the Peninsula, there has been some deficiency, but elsewhere the total

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 6th January.*—Fair showers in the Carnatic and light rain in parts of the Circars, Deccan and Southern districts and Nilgiris. Sowings still in progress in parts. Standing crops generally good. The harvest continues to yield an average outturn. Pasture and fodder sufficient. Condition of cattle good. Prices fallen slightly in most districts but still very high generally.

Bombay.—*For week ending 10th January.*—Slight rain in eleven districts. Standing crops withering for want of moisture or damaged by insects, rats, excessive cold, rain, or blight in parts of six districts; prospects otherwise good. Sowing of late crops progressing in four, and reaping of early or late crops in six, districts. Lands being prepared for next season in three districts. Cotton-picking continues in four districts. Fodder sufficient and agricultural stock good. Prices steady except in one district.

Bengal.—*For week ending 6th January.*—There was no rain during the week with the exception of a few light showers in Puri, Palamau and Manbhum. The rice harvest is nearly finished, and a good outturn is generally reported except from districts which suffered from floods in September. The spring crops generally promise well, but a little rain now would be beneficial. Prospects of poppy and tobacco are favourable. The harvesting of sugarcane is in progress. The price of common rice was nearly stationary during the week. The supply of fodder and water is sufficient. The number of persons employed on relief works and in receipt of gratuitous relief during the week were—**FARIDPUR (MADARIPUR SUB-DIVISION)**—*Relief works*, 647 men and 29 children, total 676, against 260 in the previous week. *Gratuitous relief*, 29 men, 172 women and 106 children, total 307, against 395 in the previous week; **BACKERGUNGE (SADAR AND PIROJPUR SUB-DIVISIONS)**—*Gratuitous relief*, men 165, women 755 and children 1,005, total 1,925, against 3,742 in the previous week.

North-Western Provinces and Oudh.—*For week ending 10th January.*—Weather cold. Rain has fallen in most districts and has been beneficial to the crops. In Cawnpore a hailstorm causing slight damage to the crops in one tahsil is reported. The spring crops are doing well and prospects are good everywhere. Supplies sufficient. Prices nearly stationary.

Punjab.—*For week ending 10th January.*—Rain has fallen all over the province. Harvesting of autumn crops over. Sowings of spring crops have been finished. Standing crops are in excellent condition, and the recent rain has improved them greatly. Prospects are also reported good. The crops are said to have been injured by field rats in parts of Lahore. Condition of cattle is generally good. Fodder sufficient throughout the province. Prices falling in four districts; stationary elsewhere.

Central Provinces.—*For week ending 10th January.*—Slight showers of rain fell in three districts; no rain elsewhere. The recent cloudy weather

has affected some of the winter crops, particularly linseed, which has been attacked by insects in some districts and by rust in others. The sessamum crop is reported to have been totally destroyed in the Warora tahsil. Fodder plentiful. Prices steady.

Burma.—*For week ending 6th January.*—No rain has fallen. Reaping of the main paddy crop completed in several districts, and threshing progressing throughout Lower Burma, except in parts. The crop appears to be an average one, though in some localities the grain is believed to be threshing out a little light. Crop prospects in Upper Burma continue good. Reaping of wet-weather paddy nearly completed in most districts; reaping of sessamum and *jowar* (*Sorghum vulgare*) progressing, and planting of dry-weather crops well in hand. Fodder and water-supplies sufficient. The price of paddy in Rangoon has fallen very slightly, but in Upper Burma there is in most districts a considerable fall which is most marked in Meiktila, Yamethin, Ye-u and Mandalay.

Assam.—*For week ending 9th January.*—Weather seasonable. Reaping of late rice continues. Condition of cattle fair. Fodder and water generally sufficient.

Mysore and Coorg.—*For week ending 10th January.*—**MYSORE:** Crops and prospects good. Harvesting of *ragi* (*Eleusine coracana*) still continues in five districts. Prices fallen in two districts.

COORG: Reaping of rice and picking of coffee in progress. Fodder and water sufficient for cattle. Slight fall in prices.

Berar and Hyderabad.—*For week ending 10th January.*—**BERAR:** Rainfall moderate. Weather cool except at Akola, where it is warm and cloudy. Picking of cotton and cutting of *jowar* (*Sorghum vulgare*) still in progress. Weeding operations continue in Akola. Fodder and water sufficient. Cattle healthy. Prices stationary.

HYDERABAD: Rainfall slight during the week. Sowing of hot-weather crops continues. Spring crops in good condition. Prices steady.

Central India.—*For week ending 10th January.*—Rain fell in the Gwalior, Bundelkhand, Baghelkhand and Bhopawar Agencies during the week; more rain is wanted in parts of Gwalior. Cotton collection continues in Bhopawar. Spring operations in progress in all parts. Crops in good condition except in parts of Gwalior, where they have been injured by insects and hail. Agricultural stock generally in good condition. Prices falling in Western Malwa and Bhopawar; steady elsewhere. Opium sowing commenced in Western Malwa, crop being weeded in Bhopawar; condition generally fair.

Rajputana.—*For week ending 10th January.*—Rainfall good in parts. Agricultural operations, standing crops, and cattle, generally satisfactory. Prospects generally good. Pasturage or fodder sufficient. Prices risen in two States, falling in three, fluctuating in two, and steady elsewhere.

Kashmir.—*For week ending 9th January.*—Weather cloudy. Barley sowings again commenced. Prices falling.

Nepal.—*For week ending 6th January.*—Weather cold and occasionally cloudy. Prospects good.

Gentlemen entitled to the Private Entrée at Government House will enter by the South-West Gate, alight at the South Entrance, and proceed through Government House to the top of the Grand Staircase.

The carriages of Gentlemen (except such as have the Private Entrée) will enter the North-East Gate, set down at the Grand Staircase, and pass out by the North-West Gate.

The Gates of Government House compound will be closed at 4-55 P.M., Calcutta time, after which no carriages will be allowed to enter the compound till after the arrival of the Earl of Elgin.

By Command,
WILLIAM BERESFORD, *Colonel,*
Military Secretary to the Viceroy.

HOME DEPARTMENT.

NOTIFICATIONS.

PUBLIC.

Calcutta, the 27th December, 1893.

No. 1915.—The Right Honourable Victor-Alexander Bruce, Earl of Elgin and Kincardine, P.C., LL.D., Lord Bruce of Kinloss and Lord Bruce of Torry, in the Kingdom of Scotland, and Baron Elgin, of Elgin, in the United Kingdom, is expected to arrive at Aden on or about the 15th proximo and at Bombay on or about the 20th idem, to assume the office of Viceroy and Governor General of India.

The Resident at Aden will receive the Earl of Elgin with all the honours and distinctions which are due to the Viceroy of India.

His Excellency the Governor of Bombay will make arrangements, in communication with the Naval authorities, for the landing and reception of the Earl of Elgin at Bombay with all the honours and distinctions which are due to the Viceroy of India.

An Aide-de-Camp of the Viceroy will proceed to Bombay to attend upon the Earl of Elgin throughout his journey from Bombay to Calcutta.

At the Railway stations at which halts for one hour and upwards are made for rest and refreshment, the Earl of Elgin will be met by one Civil and (if a Military Station) one Military Officer only. There will also be a Guard of Honour upon the platform.

At stations between Bombay and Howrah, other than those mentioned in the preceding paragraph, the attendance of officers is dispensed with.

Proper police precautions will be taken at all the stations along the line at which the train stops.

Upon the Earl of Elgin's arrival at the Howrah terminus of the East Indian Railway, His Lordship will be received by the Secretaries to the Government of India and by the Military Secretary and Aides-de-Camp to the Viceroy.

The following officers will also be in attendance upon the Howrah Railway platform:—

The Commissioner of Burdwan.

One of the Secretaries to the Government of Bengal.

The Brigadier-General Commanding the Presidency District with the District Staff.

The Commissioner of Police, Calcutta.

The Chairman of the Commissioners of Calcutta.

The Sheriff of Calcutta.

The Magistrate of Howrah.

A Guard of Honour of the East Indian Railway Volunteer Corps will be drawn up on the platform of the Howrah Railway station, and a Guard of Honour of Native Infantry outside the station.

The Earl of Elgin, attended by his personal staff, by the Secretaries to the Government of India, by the Military Secretary and Aides-de-Camp of the Viceroy, will proceed to Government House in the Viceroy's carriages escorted by the Body Guard and the Calcutta Light Horse.

The line of route will be lined throughout by troops under the orders of the Brigadier-General Commanding the Presidency District.

A Royal salute will be fired from the ramparts of Fort William as the cortège appears upon the Hooghly Bridge.

A Guard of Honour of British Infantry and a Guard of Honour of the Administrative Battalion, Presidency Volunteers, will be drawn up opposite the grand entrance of Government House.

The Earl of Elgin will be received as he alights from the carriage at the foot of the grand staircase by His Honour the Lieutenant-Governor of Bengal attended by his personal staff.

All the Civil and Military Officers of Government at the Presidency will be in attendance upon the grand staircase of Government House. Consular Officers and other Representatives of Foreign Governments at Calcutta, and all nont official gentlemen, are invited to be present upon the grand staircase.

His Excellency the Viceroy and Governor General, attended by his personal staff and the Members of the Governor General's Council, will receive the Earl of Elgin at the top of the grand staircase, and will conduct His Lordship to the Throne Room.

The troops will then be withdrawn.

Full dress will be worn by Civil and Military Officers, and morning dress by all gentlemen not entitled to wear uniform.

The Earl of Elgin will arrive at Howrah on Thursday, the 25th January, 1894, at 5 P.M.

(Calcutta time). The ceremonial to be observed on his assumption of the office of Viceroy and Governor General of India will be notified hereafter.

READ—

The following orders of Her Majesty in Council, dated respectively the 14th February, 1883, and the 23rd November, 1893, regarding the measurement of the tonnage of Italian vessels :—

AT THE COURT AT WINDSOR,

The 14th day of February, 1883.

PRESENT :

The Queen's Most Excellent Majesty in Council.

WHEREAS by "The Merchant Shipping Act Amendment Act, 1862," it is enacted that whenever it is made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships for the time being in force under "The Merchant Shipping Act, 1854," therein called the principal Act, have been adopted by the Government of any foreign country, and are in force in that country it shall be lawful for Her Majesty, by Order in Council, to direct that the ships of such foreign country shall be deemed to be of the tonnage denoted in their certificates of registry or other national papers, and thereupon it shall no longer be necessary for such ships to be re-measured in any port or place in Her Majesty's dominions, but such ships shall be deemed to be of the tonnage denoted in their certificates of registry or other papers, in the same manner, to the same extent, and for the same purposes, in, to, and for which the tonnage denoted in the certificates of registry of British ships is to be deemed the tonnage of such ships :

And whereas Her Majesty, by Order in Council, dated the 30th day of September, 1873, was pleased to direct that merchant, sailing, and steam ships, belonging to the Kingdom of Italy, the measurement whereof had, after the first day of July, one thousand eight hundred and seventy-three, been ascertained and denoted in the registers and other national papers of such ships testified by the dates thereof, should be deemed to be of the tonnage denoted in their registers or other national papers, in the same manner, and to the same extent, and for the same purposes, in, to, and for which the tonnage denoted in the certificates of registry of British ships is deemed to be the tonnage of such ships ; provided, nevertheless, that if the owner or master of any Italian steamship should desire the deduction for engine-room in such ship to be estimated under the rules for engine-room measurement and deduction applicable to British ships instead of under the

Italian rule, the engine-room should be measured and the deduction calculated according to the British rules :

And whereas the Government of His Majesty the King of Italy have, by Royal Decree, dated the 30th day of July, 1882, modified the rules for engine-room measurement and deduction applicable to Italian steamships, and the said modified rules are now the same as those in force under the said principal Act, and came into operation in the said Kingdom of Italy on the 21st day of September, 1882 :

Her Majesty is hereby pleased by and with the advice of Her Privy Council, to direct that the steam ships of Italy, the certificates of Italian nationality and registry of which are dated on or after the 21st day of September, 1882, shall be deemed to be of the tonnage denoted in the said certificates of Italian nationality and registry.

C. L. PEEL.

AT THE COURT AT WINDSOR,

The 23rd day of November, 1893.

PRESENT :

The Queen's Most Excellent Majesty in Council.

WHEREAS by "The Merchant Shipping Act Amendment Act, 1862," it is enacted that whenever it is made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships for the time being in force under the Merchant Shipping Act, 1854, therein called the principal Act, have been adopted by the Government of any foreign country, and are in force in that country, it shall be lawful for Her Majesty, by Order in Council, to direct that the ships of such foreign country shall be deemed to be of the tonnage denoted in their certificates of registry or other national papers, and thereupon it shall no longer be necessary for such ships to be re-measured in any port or place in Her Majesty's dominions, but such ships shall be deemed to be of the tonnage denoted on their certificates of registry or other papers in the same manner, to the same extent, and for the same purposes, in, to, and for which the tonnage denoted in the certificates of registry of British ships is to be deemed the tonnage of such ships :

And whereas Her Majesty, by Order in Council, dated the 30th day of September, 1873, was pleased to direct that merchant, sailing, and steam ships, belonging to the Kingdom of Italy, the measurement whereof had, after the first day of July, one thousand eight hundred and seventy-three, been ascertained and denoted in the registers and other national papers of such ships testified by the dates thereof, should be deemed to be of the tonnage denoted in their registers or other national papers, in the same manner, and to the same extent, and for the same purposes, in, to, and for which the tonnage denoted in the certificates of registry of British ships is deemed to be the tonnage of such ships ; provided nevertheless, that if the owner or master of any Italian steamship should desire the deduction for engine-room in such ship to be estimated under the rules for engine-room measurement and deduction applicable to British ships instead of under the Italian rule, the engine-room should be measured and the deduction calculated according to the British rules :

And whereas Her Majesty, by Order in Council, dated the 14th day of February, 1883, was pleased to declare that (the rules for engine-room measurement and deduction applicable to the steamships of Italy, having been modified by Royal Decree of His Majesty the King of Italy, dated the 30th day of July 1882), the steamships of Italy, the certificates of Italian nationality and registry of which were dated on or after the 21st day of September 1882, should be deemed to be of the tonnage denoted in the said certificates of Italian nationality and registry.

And whereas it has been made to appear to Her Majesty that it is expedient that certain additions should be made to the provisions of the said last recited Order in Council in regard to the mode of estimating the net registered tonnage of Italian ships.

Now, therefore, Her Majesty in virtue of the powers vested in Her by the said recited Acts, and by and with the advice of Her Privy Council, is further pleased to direct as follows, *viz.*, that in the event of the net registered tonnage of Italian ships, estimated under the British rules, being denoted on their Certificates of Registry or other national papers, the same shall be deemed to be of the tonnage so denoted therein.

C. L. PEEL.

ORDER.—Ordered that the Orders in Council be published in the *Gazette of India*.

Also that copy be forwarded to the Governments of Madras, Bombay and Bengal, and to the Chief Commissioner of Burma, in continuation of the letters in the Revenue, Agriculture and Commerce Department, Nos. 279 to 282, dated the 27th July, 1877.

No. 27.—Lieutenant W. A. Stokes, R.E., is temporarily appointed to the Public Works Department as an Assistant Engineer, 3rd grade, and posted to Burma.

The 19th January, 1894.

No. 29 —The following is published for general information :—

No. 16 I.

GOVERNMENT OF INDIA.
PUBLIC WORKS DEPARTMENT.
CIVIL WORKS—Irrigation.

Calcutta, the 18th January, 1894.

Read—

Revenue Report of Irrigation Works in Rajputana for the year 1892-93, forwarded with letter No. 363 S., dated the 12th October, 1893, from the Secretary to the Agent to the Governor General and Chief Commissioner, Rajputana, Public Works Department.

OBSERVATIONS.—The rainfall in the year 1892-93 was abnormally heavy ; but the monsoon broke late, and the kharif crops were comparatively poor. After July the tanks, both in Ajmere and Merwara, filled well, and the *rabi* harvest was a particularly good one in consequence. The average rainfall in the Ajmere and Merwara Districts was 37·28 and 37·33 inches, and exceeded that of the previous year by 28·77 and 27·09 inches respectively. The average rainfall during the ten years ending 1890-91 was 21·42 inches for Ajmere and 18·76 inches for Merwara District.

2. The capital outlay during the year amounted to Rs. 3,71,786 (including indirect charges) on new tanks ; these were not finally made over to the Revenue Department for irrigation purposes before the close of the year under review. The total capital expenditure on the three groups of tanks to the end of the year amounted to Rs. 22,68,461.

3. The following statement shows the actual financial results of the year under review as given in the Revenue Accounts :—

Tanks in	Total Capital outlay to end of year, including indirect charges	GROSS REVENUE COLLECTED.			WORKING EXPENSES.			Net Revenue.	Percentage of net Revenue on capital to end of year.
		Irrigation Revenue.	Miscellaneous receipts.	Total.	Direct.	Indirect.	Total.		
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Ajmere Sub-Collector-etc.	14,15,560	38,587	890	39,477	67,474	1,614	69,088	—29,611	...
Beawar Sub-Collector-etc.	6,40,663	29,918	881	30,799	13,098	302	13,400	17,399	2·72
Todgurbh Sub-Collector-etc.	2,12,238	21,519	194	21,713	15,999	362	16,361	5,352	2·52
Total, 1892-93 .	22,68,461	90,024	1,965	91,989	96,571	2,278	98,849	—6,860	...
Total for 1891-92 .	18,96,675	83,096	1,772	84,868	1,04,538	2,165	1,06,703	—21,835	...

The irrigation revenue collected was made up as follows :—

	1892-93.	1891-92.
	Rs.	Rs.
Water-rates directly paid	4,064	6,852
Share of enhanced land revenue	85,960	76,244
TOTAL	90,024	83,096

The share of enhanced land revenue is made up of water-rates, share of well assessments, and the difference between dry and wet rates which are collected with the land revenue.

4. The revenue assessed for the year is compared in the following table with the area irrigated. The increase of Rs. 41,432 over the assessment of the

year 1891-92 is due to the tanks having received a good supply of water during the year under review :—

Sub-Collectorate.	Irrigation. Revenue assessed.	AREA.			Assessment per acre.
		Irrigated.	Protected.	Total.	
	Rs.	Acres.	Acres.	Acres.	Rs.
Ajmere	58,006	10,052	7,079	17,131	8.38
Beawar	44,457	6,772	7,108	13,875	8.20
Todgurb	25,230	3,087	2,287	5,324	4.74
Total, 1892-93	1,27,693	19,911	16,419	36,330	8.51
Total for 1891-92	86,261	7,710	4,277	11,987	7.20

The irrigation revenue assessed includes all assessments due on protected as well as on irrigated areas.

Of the irrigated area, 3,800 acres were cultivated under kharif and 16,111 acres under *rabi* crop, against 5,287 and 2,423 acres, respectively, in the preceding year. The increase of 13,688 acres under the *rabi* crop is satisfactory. Rupees 7,283 were remitted by the Local Administration during the year 1892-93, and of this amount a sum of Rs. 3,338 was on account of irrigation revenue remitted.

5. The following table shows the distribution of the working expenses :—

	1891-92.	1892-93.	Increase (+) or Decrease (—).
	Rs.	Rs.	Rs.
New Works, Maintenance and Repairs	85,188	77,192	—7,991
Establishment	19,707	20,862	+1,155
Tools and Plant	—352	—1,483	—1,131
Leave and Pension Allowances	2,165	2,278	+113
TOTAL	1,06,703	98,849	—7,854

There is a decrease in the working expenses of Rs. 7,854 as compared with the figures of the previous year, and the increase in the irrigated area has reduced the cost of working expenses per acre from Rs. 8.90 in the preceding year to Rs. 2.72.

The establishment charges were divided as follows :—

	Rs.
Direction	7,719
Executive	7,930
Civil Officers	5,213
	<u>20,862</u>

The outlay on new works and repairs was Rs. 767 and Rs. 76,425 respectively. The maintenance charges were still high owing to famine relief works remaining in progress during a portion of the year.

6. The average results of the experimental cutting of crops of different kinds referred to in paragraph 6 of the review on last year's report have not been given, as it is said, in paragraph 15 of the present report that the

returns furnished are so patently inaccurate that neither details nor average results can be usefully included in the report. Enquiries are, however, being made by the Local Administration into the subject, and rules for conducting these experiments in a more satisfactory and reliable manner have been framed and will be introduced with the approval of the Supreme Government. The value of crops raised during the year is estimated at Rs. 5,90,961, against Rs. 1,93,591 of the preceding year.

7. Some information regarding the measurement of the depth of water in wells has been furnished in paragraph 16 of the report. Of the 482 wells, of which the measurement of the spring level was taken between the 15th and 25th September 1892, and on the 10th April 1893, 270 were benefited by tanks and 212 were independent of tanks.

In Ajmere, out of 65 wells which derived benefit from the tanks in their vicinity, the spring level of only 38 wells registered in September 1892 had decreased by the following April, and of the remainder the level was practically unchanged.

In Merwara, out of 205 wells benefited by tanks, the spring level in 123 had decreased by April 1893, as compared with the level in September 1892. In the remaining wells the water had either increased or showed no substantial difference.

8. In last year's report figures of discharge and duty were not given in Statement I. E. as originally submitted, but were, as explained in paragraph 8 of the review, furnished subsequently. This year the information has been furnished in Statements I. E. attached to the report. Figures for three tanks in the Merwara District, *viz.*, the Bulad new and old tanks and the Jalia new tank, and three tanks in the Ajmere District, *viz.*, the Bhir new tank, the Rajaosi tank, and the Ladpura new tank, have been furnished. There was no irrigation from the Chitar tank in the Merwara District and from Makrera new and old tanks in the Ajmere District.

9. The Report has been correctly prepared and the sketch maps of the Ajmere and Merwara Districts furnished.

ORDER—Ordered, that a copy of this Review be forwarded to the Agent to the Governor General and Chief Commissioner, Rajputana, for information.

Also that a copy of the Review and of the Report be forwarded to the Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab, in the Public Works Department, for information.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series. The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively. In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1876:—

REVENUE DEPARTMENT.

[Revised Advertisement.]

A Dictionary of the Economic Products of India.

By Dr. GEO. WATF, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes and Volume VI, Parts I, II, III & IV of the Dictionary are now ready at the Office of the Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs 45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, Rs 6 and 8 shillings respectively will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and half of G; Volume IV, latter half of G to middle of L, and Volume V contains the latter half of L to end of O; Vol. VI (which will consist of four parts), Part I, contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year, but a tenth volume, may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a glossary of the vernacular and European names of the plants, animals, and minerals of India, and as such, will be a work of reference, which, it is hoped, may prove of considerable value.

Abstract of the Proceedings of the Council of the Governor General of India,
assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR
GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING
LAWS AND REGULATIONS UNDER THE PROVISIONS OF
THE INDIAN COUNCILS ACTS, 1861 AND 1892 (24 & 25
VICT., CAP. 67, AND 55 AND 56 VICT., CAP. 14).

The Council met at Government House on Thursday, the 11th January 1894.

P R E S E N T :

His Excellency the Viceroy and Governor General of India, G.C.M.G.,
G.M.S.I., G.M.I.E., *presiding*.
His Honour the Lieutenant-Governor of Bengal, K.C.S.I.
His Excellency the Commander-in-Chief, K.C.B., G.C.I.E., V.C.
The Hon'ble Sir A. E. Miller, K.T., Q.C.
The Hon'ble Lieutenant-General H. Brackenbury, C.B., R.A.
The Hon'ble Sir C. B. Pritchard, K.C.I.E., C.S.I.
The Hon'ble J. Westland, C.S.I.
The Hon'ble Sir A. P. MacDonnell, K.C.S.I.
The Hon'ble Dr. Rashbehary Ghose.
The Hon'ble Fazulbhai Vishram.
The Hon'ble C. C. Stevens.
The Hon'ble J. Buckingham, C.I.E.
The Hon'ble A. S. Lethbridge, M.D., C.S.I.
The Hon'ble Gangadhar Rao Madhav Chitnavis.
The Hon'ble H. F. Clogstoun, C.S.I.
The Hon'ble W. Lee-Warner, C.S.I.
The Hon'ble P. Playfair.

QUESTION AND ANSWER.

The Hon'ble MR. FAZULBHAI VISHRAM asked :—

Whether the Government have any intention of imposing any import-duty
on silver, and, if not, whether they will make a public declaration of their inten-

tions in order to relieve the mercantile community of the great anxiety now prevailing amongst them.

The Hon'ble MR. WESTLAND replied :—

"The Government of India regret that it is impossible for them to make, at present, such a declaration as that which the Hon'ble Member's question suggests. They fully understand the anxiety of the mercantile community for information as to this most important subject.

"The commercial situation created by the closing of the mints is engaging their earnest attention, as well as that of Her Majesty's Government, with whom they have been in constant communication on the subject. All that the Government of India can now add is that it is impossible for them, under present circumstances, to make any announcement which would place it out of their power to propose an import-duty on silver if, and when, they consider it desirable to do so."

PRISONERS ACT, 1871, AMENDMENT BILL.

The Hon'ble SIR ALEXANDER MILLER moved that the Bill to amend the Prisoners Act, 1871, be referred to a Select Committee consisting of the Hon'ble Sir Antony MacDonnell, the Hon'ble Dr. Rashbehary Ghose, the Hon'ble Fazulbhai Vishram, the Hon'ble Dr. Lethbridge and the Mover. He said :—

"The Bill is a very short one, and its object is merely to amend, in some small particulars, which I explained at the time of the introduction of the measure, the Prisoners Act of 1871, which was found not to work satisfactorily in respect to some minor points. I do not think, therefore, that I need trouble the Council at this stage with any further explanation of them."

His Honour THE LIEUTENANT-GOVERNOR said :—"I trust I shall not be considered out of order if I express a hope that when this Bill is laid before the Select Committee it may be redrafted in such a way as to make it somewhat more intelligible to the public and to the officers who will have to act in accordance with its provisions. It is drafted in what I may call an allusive way. In section 16 of the Act, for instance, it is said that for the words 'acting under the authority' the words 'acting, whether within or without British India, under the general or special authority' shall be substituted; and in another case that for the first sixteen words of section 19 of the Act the following words shall be substituted.

"This form of drafting a Bill by reference to the original Act makes the Bill difficult to understand, and I would venture to suggest that it would be easier for persons who have to consider the Bill and afterwards to carry out the Act if the original sections could be printed with the words which it is proposed to substitute in italics so as to show exactly the purport and bearing of the alterations to be made."

The Hon'ble SIR ALEXANDER MILLER said :—"With reference to His Honour the Lieutenant-Governor's remarks I do not think there will be any difficulty whatever in printing alongside of the Bill the sections as they will stand with the alterations which it is proposed to make. That I think will answer the purpose he desires."

His Honour THE LIEUTENANT-GOVERNOR said :—"That will sufficiently answer the purpose."

The Motion was put and agreed to.

PRISONS ACT, 1870, AMENDMENT BILL.

The Hon'ble SIR ANTONY MACDONNELL moved for leave to introduce a Bill to amend the law relating to Prisons. He said :—

"My Lord, before asking Your Lordship to put to the Council the Motion which stands against my name, I wish, with your permission, to explain as briefly

as I can the reasons which have satisfied the Government of India that legislation on this important subject is desirable. It is known to the Council that in England, and in Europe generally, the ideas regarding prison discipline, which prevailed before the end of the last, and even at the beginning of the present, century, were very different from those which are generally accepted at the present day. Even in England, where humane views on the question made more rapid progress than elsewhere, the cause of prison reform, though urged with all the zeal of a Howard and an Elizabeth Fry, made but little way until this century had well begun. It is therefore not surprising that in matters of prison management and discipline India was, to say the least, as backward fifty years ago as England had been before the century had commenced. But in this, as in other matters, the administration of Lord William Bentinck was one of great reform and of greater hope. Until his time our penal system had continued to be largely fashioned on Muhammadan usage, corporal punishment being a principal means of punishing crime. By Regulation II of 1834, which abolished corporal punishment altogether, a response—in some respects an exaggerated response, as we have since found—was made to the growing humanitarian demands of the time, and a pledge was practically given that a system of prison discipline would be introduced which would be in harmony with those ideas on the subject that were daily finding wider acceptance in England. The first step, my Lord, in redemption of this pledge was taken two years later, and consisted in the appointment of the famous Committee on Prison Discipline, which was composed of the most distinguished Anglo-Indian statesmen and jurists of the day, including one of the foremost exponents of the liberal sentiments of the time, Mr. (afterwards Lord) Macaulay. The report which two years later the Committee presented was worthy of its authors, and remains the solid foundation of all later progress. Though earlier in point of publication, it is really the complement of those other two great works—the Penal Code and the Code of Criminal Procedure—with the first of which Lord Macaulay's name is also imperishably associated.

“The Committee reported in 1838 to the Governor General, Lord Auckland, the son of that Lord Auckland under whose auspices, and those of Mr. Justice Blackstone and Mr. Howard, the first step had been taken sixty years before towards the practical improvement of prison discipline in Great Britain. If, my Lord, the experience of half a century has not in every particular confirmed the forecasts of this admirable report, it has abundantly established the wisdom, expediency and humanity of its main recommendations, which, for the first time in an Eastern country, recognized the true principles of penal administration and of the philosophy and practice of punishment.

“The recommendations of the report of 1838 turned on the congregation in central prisons or penitentiaries of all prisoners sentenced to more than one year's imprisonment; on the retention in district jails of prisoners sentenced to lesser terms of seclusion; and on the provision of intra-mural labour and discipline of a reformatory as well as of a punitive character. To the success of this scheme the construction of central prisons, of which there were, I believe, none in the interior at that time, and of district prisons, of which there were not many worthy of the name, was essential, and this meant the expenditure of money for which the Government seems to have been as badly off fifty years ago as it unhappily is today. Lord Auckland's and Lord Ellenborough's Governments, therefore, did nothing but accept and approve the recommendations of the report, and it was not until Lord Dalhousie's time that progress was made with even its minor suggestions. During the memorable administration of Lord Dalhousie, much good was done here and there on the lines of the report by earnest and zealous men, notably by Mr. Woodcock in the North-Western Provinces; but, after all, their efforts were desultory, and the substantial effect of them will be understood from the following extract which I make from a minute on the subject of jail discipline in India, recorded by the Governor General, Sir John Lawrence, on the 3rd March, 1864:—

‘A period of twenty-six years has elapsed since the Prison Committee appointed by Lord William Bentinck submitted their report, in which the ends of the then existing system of jail management were exposed and certain reforms recommended and carried

out ; but it is generally admitted that the full measure of improvement contemplated by Lord William Bentinck, to which the Government was pledged by a legislative enactment (Regulation II, 1834), has never been carried out.

‘Although much good has been effected by the appointment of Inspectors of Prisons in the different Presidencies and Provinces, and though doubtless there has been a great amelioration of the condition of prisoners of all classes in this country, especially as regards food and clothing, yet still little progress has been made either towards the improvement of prisoners or prevention of crime, while the loss of life among all classes of those confined in jails continues year after year to be very great, amounting at present to 7 per cent.’

“As a proof of the great progress which has since been made in the sanitation of jails, I may say, by the way, that the mortality for the last year was 3·59 per cent., or about one-half the rate mentioned by Sir John Lawrence.

“Sir John Lawrence’s examination of the condition of jails in India led him to appoint the second Commission of Enquiry into jail management and discipline, and one of the points especially recommended to the Commission’s notice as deserving of particular attention was, to quote again the Governor General’s words, ‘the want of some settled principles which should be observed alike in every jail throughout the country.’

“The Report of the Commission of 1864, proceeding on the lines of the report of 1838, laid down a system of prison discipline which, though with many modifications and additions, may be said to be still in operation. The hope of the Commission was that each Local Government, while accepting the system in principle, might adapt it to local circumstances, so that there might be unity of purpose amid reasonable diversity of practice. But experience has shown that diversity in practice has gone far to obscure the unity of purpose. The Indian Penal Code is the uniform law of offences and punishments throughout British India, and it is obviously necessary and proper that the punishment inflicted under that Code should be uniformly enforced, so that a sentence of imprisonment should have the same meaning and effect in every Province and in every jail of the Empire. This was the goal at which Sir John Lawrence aimed, and which the Commission he appointed sought to reach. But they failed because the centrifugal tendencies established by local legislation were too strong for the centripetal force created by their rules. Each of the three great Provinces of Madras, Bombay and Bengal, having a local Legislative Council, provided itself with a local Act regulating jails, while an Act of this Council regulates the jails in those Provinces which have no Legislatures of their own. It naturally followed that jail administration developed on divergent lines in the great divisions of the Empire, while the co-ordinating authority of the Government of India—acting executively—was ineffective to control the divergence. No one, my Lord, is a stronger supporter of provincial decentralization than I am ; no one more fully accepts the policy with which the name of your lamented predecessor Lord Mayo is so closely identified, and of which we daily see the abundant fruit. But every rule has, it is said, its exception, and provincial legislation for jails forms one of the exceptions to the competency of Provincial Governments to do most things within their jurisdiction, and to do them well. There are, as I have said, four different Acts in operation connected with jails, and these Acts differ *inter se* in various important points. They differ as to the offences against jail discipline, enumerated in them ; they differ as to the punishments which might be inflicted for these offences ; and they differ as to the authorities competent to inflict these punishments. No wonder that in the several Provinces divergent systems of jail management have grown up whereby there has been, and is, a sacrifice of that uniform enforcement of sentences which effective penal administration requires. This defect was very clearly perceived so long ago as 1877 by the third Jail Commission, which was appointed by Lord Lytton’s Government ; and the remedy they proposed was the enactment of a prison law for the Empire which should secure that uniformity of system which was necessary to give (say) a sentence of six months’ rigorous imprisonment passed by a Magistrate in Madras or Bombay the same meaning as regards the community and the same effect as regards the individual prisoner as a sentence of six months’ rigorous imprison-

ment passed by a Magistrate in Bengal, the North-Western Provinces or the Punjab.

"The Commission's recommendations were at first well received by Lord Lytton's Government and a draft Bill was actually prepared in accordance with them. But circumstances were unfavourable to legislation, the matter was postponed, and for ten years longer the Government of India earnestly strove by executive orders to reduce to uniformity the divergent local practices, especially in matters of punishment and sanitation. I do not say that a considerable measure of success has not been secured. On the contrary, as much has been done perhaps as the nature of the case allowed. But the success attained in securing uniformity was insufficient, and at last, in 1888, the fourth Jail Commission, of which our hon'ble colleague Dr. Lethbridge was a member, was appointed by Lord Dufferin's Government to enquire into facts upon the spot and furnish the Governor General in Council, not merely with opinions, in which the Commissions of 1864 and 1877 had perhaps too largely dealt, but with an exhaustive statement of concrete examples illustrative of the defects to be found in the working of the existing systems. The object and scope of this, the last Jail Commission's, mandate will be perceived by the Council from the following passage which I quote from the Resolution appointing the Commission:—

'The administration of jails with respect to economy, sanitation and discipline has for many years received the careful attention of the Governor General in Council. Three Commissions (in 1836, 1864 and 1877) have, under the orders of the Government of India, considered and reported on the general principles which ought to be observed in the management of Indian jails. There is on the part of the Governor General in Council no wish to reconsider the principles so laid down, but an examination of the statistics of jails in different Provinces, and even of prisons in the same Province, shows that great diversity of practice exists in carrying the principles into effect. The Governor General in Council is not to be understood as advocating absolute uniformity of administration in all Provinces in connection with jail administration. He admits that local circumstances must always give rise to diversities of practice. But an examination of the provincial reports for some years satisfied him that the divergencies in regard to the cost of maintaining prisoners, in regard to their sanitary condition and in regard to discipline points to the existence of defects which it is desirable to remove. There being no longer any doubt regarding principle, and the question being one of practice, it appears to His Excellency in Council that improvement can best be effected by means of a careful and thorough examination of experts on the spot into the causes which operate in certain Provinces and certain jails to produce a variation, for example, in the death-rate ranging from 11 to 72 per mille of the average strength, a variation in the cost of maintenance of prisoners per head ranging from Rs. 44-11-7 to Rs. 91-2-10, and a variation in the ratios per cent. of punishment for offences against jail discipline ranging from 33 to 328.'

"Acting under these instructions the Jail Commission of 1888 visited the various Provinces and made a most exhaustive enquiry into all matters connected with jail administration, bringing out in great detail the points in which the practice of one Province differs from that of another. Their report has satisfied the Government of India—and this was also the opinion of the Commissioners themselves—that great divergencies exist where it is essential that uniformity should prevail, and that this uniformity cannot be secured without legislation and the enactment of a single Prisons Act for the whole Empire. In this view nearly all Local Governments have now concurred, and this concurrence is, I think, in itself a strong proof of the correctness of the conclusions at which your Excellency's Government had arrived. An amended and consolidated Prisons Bill for British India has, therefore, been prepared on the basis of the Commission's report, after a special and further examination of their recommendations in regard to jail offences and punishments by a Conference of experts on jail management from all Provinces, which was convened for the purpose in 1892. The Bill was then circulated to all Local Governments for consideration, and it has since been modified and amended in accordance with their criticisms. It is this Bill so modified and corrected that I have now the honour to ask for leave to introduce, and I trust that the Council is satisfied that all the care and deliberation which its great importance requires have been bestowed upon the preparatory and initial stages of the measure.

"My Lord, I wish now to say a few words on the Bill itself, which will be, I hope, in the hands of Hon'ble Members before the end of this week. In constructing the Bill the model of the existing law has been closely followed; indeed, the Bill retains the same classification of subjects, and the

same division into twelve chapters, as the Council will find in Act XXVI of 1870. The first chapter deals with definitions, and the Council will find that the definitions of the existing law have been considerably expanded with a view to meeting difficulties and solving doubts which have arisen in actual practice; but the only point in the chapter which I wish to mention now is the distinction drawn between a 'prison' and a 'subsidiary jail.' This distinction has been drawn with the object of enabling Local Governments to exempt from some of the more strict disciplinary provisions of the Bill those houses of detention which are situated not at the head-quarters of districts but at subdivisions and out-stations in which civil and unconvicted prisoners are detained pending trial, or in which persons convicted of trivial offences, and sentenced to not more than a month's imprisonment, are secluded. The distinction has been drawn in accordance with the following recommendation of the Jail Conference of 1892 :—

'We did not consider it desirable that the power of punishment conveyed by the Act should in all cases be bestowed on the Superintendents of subsidiary jails and of those of subordinate jails (especially of the lower class) in Bombay. These jails are often under the supervision of officers on very low pay and of limited experience, and we did not think it right to invest them with the same plenary powers of punishment as an officer in charge of a central jail may possess. We therefore propose to limit the original application of the Act to central, district and (in Bengal) intermediate jails, while empowering the Local Governments by rule to invest any or all officers in charge of subsidiary or subordinate jails with any or all of the powers of punishment conferred by the Act.'

"The distinction then is dictated by humane and prudential motives, and will, I hope, meet with the approval of the Council.

"The next nine chapters follow generally the existing law with such amplifications as experience has shewn to be necessary. They do not seem to me to raise any question of new principle on which it is necessary to remark at this stage. In many instances the additions or modifications are only on points of drafting.

"The most important changes in the law are embodied in Chapter XI. It is around these provisions that I expect discussion is most likely to arise, and I shall be pardoned if I dwell upon them for a few moments. Hitherto the tendency of opinion has been to relegate the definition of jail offences and the punishment they involve to rules made by the Executive Government in accordance with the Jail Act. There is much to be said for this way of dealing with the matter, and it will not, I believe, be possible to abandon it altogether. Remember that every breach of a jail regulation is a jail offence, and that it is impossible to foresee all the regulations which have to be observed in jails, and inexpedient to make legislation necessary for the purpose of adding to or modifying such regulations, which doubtless will change with time and place. Still it has been thought better to go as far as possible in the direction of limiting local discretion to create jail offences and of including in the law itself, at all events, the more important and serious of these offences. On this point then the Bill proposes to enlarge the Act of 1870 in one direction and to restrict its operation in another. We enlarge it by increasing the number of jail offences specifically mentioned in the law; and we restrict it by providing that, before disobedience of any jail regulation becomes punishable, the regulation shall have been sanctioned by the Governor General in Council. The regulations, involving penal consequences, will thus be as uniform for all Provinces as the law itself.

"That, my Lord, is the way the Bill deals with the definition of offences against jail discipline: it remains for me to say a word on the connected question of punishments. Hitherto there have been in use in jails, besides the punishment prescribed by law, other forms of punishment, consisting in the modification, to the disadvantage of the prisoner, of matters of discipline, or treatment left to the discretion of the jail authorities, such as loss of good-conduct marks, relegation to a disagreeable form of labour, modification in diet privileges, and so forth. The Government of India think it desirable, in order to prevent the introduction of objectionable forms of punishment and to secure the due record of all punishments of whatever nature, to specify exhaustively in the law all punishments which may be employed. The effect will be

to restrict the discretion and to define the authority of prison officers in regard to punishments in all Provinces, and thereby to produce uniformity in prison discipline.

"I shall not detain the Council with an examination of the various descriptions of punishment provided in the Bill. They have been devised with the object of increasing the irksomeness of prison life for unruly prisoners, while avoiding recourse to corporal punishment or reduction of diet, which the Government of India regard as extreme measures not to be ordinarily employed. But there is one punishment recognized in the Bill—the use of irons—which I do not wish to pass by without a word of explanation. At present it is only in the Lower Provinces of Bengal that jail authorities can impose irons as a punishment for breach of prison discipline. In all other Provinces the order of a Magistrate is necessary. The Government of India is of opinion that the Bengal system on this point is the preferable one. While there are strong objections to the unnecessary use of irons for purposes of safe custody—to fettering all prisoners as a safeguard against their escaping—the use of irons seems to the Government of India to be a suitable and humane kind of punishment for a large number of jail offences. The Government of India, as I have intimated, discourage, from motives of humanity, the frequent employment of corporal punishment in jails; and the objections to the frequent use of penal diet are obvious from a sanitary point of view. If recourse to these severe forms of punishment in ordinary cases of recusance is to be effectively discountenanced, it is all the more necessary to invest jail authorities with adequate means of coercion for the control of unruly and hardened criminals. It is to be remembered that the fetters and handcuffs to be used in Indian jails are not the manacles which melo-dramatic novelists depict or over-wrought philanthropists imagine—just as the solitary cells for which the Bill renews provision are not exactly reproductions of Venetian *oubliettes* or the dungeon of Bonnivard. The fetters to be used in our jails will be as to weight and form prescribed by rule made by the Governor General in Council; and their use will be made no more irksome than is necessary to deter from misconduct, and to obviate the employment of severer forms of punishment.

"In conclusion, I may add that the Bill in its last chapter confers a power on the Government of India to make rules for the management of jails on matters which cannot conveniently be dealt with by the law itself, and that a similar power is conferred on Local Governments in matters regarding which there is no important end to be gained by insisting on uniformity of procedure in all Provinces.

"Other provisions of the Bill deal with the matter of labour and of solitary confinement, but they raise no questions of principle which need be brought to notice on this occasion, and I therefore, my Lord, beg now to move that leave be given me to introduce the Bill."

The Motion was put and agreed to.

The Hon'ble SIR ANTONY MACDONNELL also introduced the Bill.

The Hon'ble SIR ANTONY MACDONNELL also moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English, and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The Motion was put and agreed to.

REPEALING AND AMENDING BILL (BOMBAY).

The Hon'ble SIR ALEXANDER MILLER moved for leave to introduce a Bill to repeal certain obsolete enactments and to amend certain other enactments. He said:—

"The Bill is one of those which are commonly now known as a Repealing and Amending Bill, and deals only with certain obsolete matter affecting the Presidency of Bombay. It is now proposed to introduce it because the new edition of the Bombay Code is in preparation and it is thought neces-

sary to get rid of this obsolete matter before printing it. The Bill is approved by the Government of Bombay and is a purely formal one, so I do not think it necessary to trouble the Council further about it."

The Motion was put and agreed to.

The Hon'ble SIR ALEXANDER MILLER also introduced the Bill.

The Hon'ble SIR ALEXANDER MILLER also moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English and in the Bombay Government Gazette in English and in such other languages as the Local Government thinks fit.

The Motion was put and agreed to.

The Council adjourned to Thursday, the 25th January 1894.

**Weather Review of India for the week ending on Saturday,
January 6th, 1894.**

Throughout the whole week unsettled weather has prevailed over North-Western and Central India. This unsettled weather was attributable to the cyclonic storm which advanced into North-West India from trans-Indus regions on the last day of the preceding week. It occasioned a brisk fall of the barometer over a large part of India on the 31st December 1893, produced cyclonic movements in the winds and gave rain to a considerable part of the country. After the 31st December the storm gradually filled up and the barometer rose steadily over North-West India, so that by the close of the week a large area of high pressure had been developed over the region previously occupied by the storm. Rain continued to fall over the north west and centre long after the storm itself had disappeared, and, indeed, did not wholly cease until the last day of the week. During the existence of the storm and for some days after its apparent dispersal, the sky remained more or less covered with cloud and this resulted in very high night temperatures. So marked was this that the mean temperature of the whole of India was generally excessive, though in most parts of the country the day temperatures were in defect.

The chart of December 31st, 1893, showed that the barometer was falling everywhere. The fall was greatest over North-West India and the cyclonic storm which lay over the western desert had developed considerably. Pressure

was highest in North-East India. The winds over a large part of the country were affected by the storm, but over the Bay the directions remained northerly. Rain had fallen over Baluchistan, Sind, Rajputana, and the Punjab as well as at all the hill stations. The heaviest amounts were 1·56 inch at Cherat 0·94 inch at Peshawar, 0·69 inch at Dera Ismail Khan, 0·67 inch at Karachi, and 0·45 inch at Khushab. On the morning of the 1st pressure was rising everywhere. The rise was greatest in the North-West so that, though pressure was still relatively low over the western desert, the cyclonic storm had almost disappeared. Pressure was highest all along the line of the Himalayas. The winds except over the Bay area were still largely affected by the low pressures in the North-West and rain was falling over a large part of North-West India as well as at several stations in the central parts of the country and in the Peninsula. Cuddalore had received 2·80 inches, Sialkote 2·72 inches, Colombo 1·96 inch, Murree 1·82 inch, Jhansi 1·64 inch, and Rawalpindi 1·29 inch. At some of the hill stations snow had occurred. On the 2nd the barometer was falling again except in Baluchistan, Sind, Guzerat, Khandesh, etc., and a very shallow depression had appeared over the north of the Punjab. The original depression had disappeared and readings decreased very slowly from a high pressure area in the north to a low pressure area in the south. The wind was very unsteady over North-West and Central India, but elsewhere the directions were fairly normal. Rain continued to fall over North-West and Central India and at one or two places in the Peninsula. Nellore had received 1·64 inch, Pachmari 1·03 inch, Rawalpindi 0·84 inch, Simla 0·71 inch and Murree 0·60 inch. Snow had again fallen at some of the hill stations. On the 3rd pressure was increasing over the western and decreasing over the eastern half of India. A large high pressure area overlay North-Western India with its centre over Eastern Rajputana while readings were lowest over Malabar and the south of the Bay. The winds were very variable. Rain continued to fall over the Punjab and the North-Western Provinces, and a few scattered showers were reported from the central parts of the country and the Peninsula. Umballa reported 0·88 inch, Khushab and Ludhiana 0·61 inch, and Chakrata 0·55 inch. The chart of the 4th showed that the distribution of pressure had become about normal though readings were lower than usual all over the country. Readings decreased from a high pressure area in the extreme north-west to a low pressure area over the south of the Bay. The winds were about normal, and the weather had cleared very considerably, though showers had occurred over the Punjab and Rajputana and at a few places in the Peninsula. On the 5th the barometer was rising almost everywhere. A large high pressure area overlay North-West India whence readings decreased and reached their minimum over the south of the Bay. Gradients were steeper than usual and the winds were fresh to strong in several places. Light showers had again been received at a few stations. The chart of the 5th showed that pressure was still rising almost everywhere and that the general distribution was unaltered. The wind directions were fairly normal. The weather had cleared completely from the disturbance at the beginning of the week and the sky was clear almost everywhere. One or two light showers had, however, been received during the preceding 24 hours.

Temperature.—The following table shows the variations of the mean temperature from the normal on each day of the week for the different provinces of India :—

From the 31st December 1893 to the 3rd of January 1894 the mean temperature of the whole of India on each day was above the normal average. This excess was attributable to the exceptionally high night temperatures which resulted from the cloudy state of the sky due to the disturbed weather. By the 4th the disturbed weather was passing away, the nights became less warm and the mean temperature of India was exactly normal. On the 5th and 6th when the cloudy skies and disturbed weather had wholly disappeared temperature fell quickly and the mean on these two days was below the average.

Rain.—The information in the rainfall table at the close of the Summary shows, that the rainfall over India, due to the disturbed weather inaugurated by the storm which entered the North-West on December 30th, 1893, had been much more extensive and more heavy than for some weeks past. Burma, Bengal, Assam, and the west of the Peninsula had absolutely or practically no rainfall, but in all other parts of the country rain fell, though in many divisions the fall was only light. Thus the table shows that in seventeen of the rainfall divisions the average actual rainfall for the week was absolutely *nil*, in fifteen more it was less than one-tenth of an inch, in fifteen more it was over one-tenth of an inch but less than one inch, and in five it exceeded one inch. The heaviest rainfall occurred in the Punjab, the average actual fall for the week in the Punjab (north-west) having been 3 inches, in the Hill Districts 2·12 inches, in the South 1·76 inch, in the Submontane District 1·64 inch and in the centre 1·12 inch. In nearly all the divisions which received rain the fall was greater than usual, an excess being reported from no less than twenty-four out of the thirty-five divisions. The greatest excess was in the Punjab where in most divisions it exceeded one inch and in the case of the north-west division was as much as 2·79 inches.

As the present is the first week of a new rainfall period, the information given in the three concluding columns of the table is the same, only expressed in a different form, as that given in the first three columns.

The following are the heaviest totals received during the week, the amounts in some cases being remarkable :—

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 13th January.*—Rainfall fair in Tanjore, light in South Arcot and Madras, and scattered showers in Vizagapatam, North Arcot, Trichinopoly, and the Nilgiris. Sowings still continue in parts. Standing crops generally good. The harvests of the early crop continue with fair to average outturn. Pasture and fodder sufficient. Condition of cattle good. Prices continue falling slightly in most districts.

Bombay.—*For week ending 17th January.*—Slight rain in Karachi. Standing crops withering for want of moisture or damaged by insects, rats, excessive cold, or blight in parts of four districts; prospects otherwise good. Sowing of late crops progressing in three, and reaping of early or late crops in five, districts. Lands being prepared for next season in four districts. Cotton-picking continues in five districts. Fodder sufficient except in one district, and agricultural stock good. Prices steady except in three districts.

Bengal.—*For week ending 13th January.*—Fine dry weather prevailed throughout the week. The winter rice harvest is almost over, and the outturn is satisfactory on the whole. The spring crops are doing well, but require rain in parts. Oilseeds, pulses and potatoes are being harvested in some districts. Sugarcane-pressing is in progress. Poppy prospects are good. In Monghyr caterpillars are doing some damage to the plants. Tobacco is a promising crop, as also *ganja* in the Rajshahi district. No important change in the price of common rice is reported. Cattle are in good condition, and the supply of fodder and water is sufficient. The following figures show the number of persons on relief works and in receipt of gratuitous relief during the week. FARIDPUR (MADARIPUR SUB-DIVISION). *Relief-works*, 1,250 men, against 676 men and children in the preceding week. *Gratuitous relief*, 12 men, 80 women and 53 children, total 145, against 307 in the previous week. BACKERGUNGE (SADAR AND PIROJPUR SUB-DIVISIONS): *Gratuitous relief*, 103 men, 436 women and 663 children, total 1,202, against 1,925 in the previous week.

North-Western Provinces and Oudh.—*For week ending 17th January.*—Weather seasonable. Spring crops flourishing. Poppy healthy. Irrigation and sugarcane-pressing continue. Prospects favourable. Supplies abundant. Prices almost stationary.

Punjab.—*For week ending 17th January.*—Rain has fallen in six districts. Harvesting of autumn crops and sowings of spring crops over. Standing crops are generally in good condition, also the poppy crop in Lahore. The crops are reported to have been injured by field rats in parts of Lahore. Condition of cattle good, and fodder is sufficient all over the province. The prospects of the harvest for the province at present are good. Prices falling in three districts, rising in one, stationary elsewhere.

Central Provinces.—*For week ending 17th January.*—Weather generally clear and cold. Wheat and linseed being injured by blight and by insects in parts of several districts; otherwise prospects continue generally fair. Fodder and water-supply sufficient. Prices of wheat and gram have risen in one district; stationary elsewhere.

Burma.—*For week ending 13th January.*—No rain has fallen. Reaping and threshing in progress in Lower Burma. No change in crop prospects. In Upper Burma reaping of wet-weather paddy completed in four districts and progressing in others. Ploughing for dry-weather paddy continues and planting of other crops in progress. Water sufficient. The price of paddy is steady in ten districts, but there is a considerable fall in Bassein and Amherst, and a large rise in Sandoway. In Upper Burma prices are steady in thirteen districts, and have fallen in three others.

Assam.—*For week ending 16th January.*—Weather seasonable. Reaping of late rice nearly finished. Prospects good. Fodder and water sufficient. Condition of cattle good.

Mysore and Coorg.—*For week ending 17th January.*—**MYSORE:** Standing crops in good condition. Prospects good. Prices fallen in three districts.

COORG: Picking of coffee and reaping of rice in progress. Fodder and water sufficient for cattle. Slight fall in prices.

Berar and Hyderabad.—*For week ending 17th January.*—**BERAR:** Weather clear and cool. Picking of cotton finished in the Wun district. Harvesting of *jowar* (*Sorghum vulgare*) in progress. Spring crops in Balapur not in good condition. Wheat damaged in Melghat by recent rainfall. Fodder and water sufficient. Prices stationary.

HYDERABAD: No rain during the week. Sowing of hot-weather crops continues. Spring crops in good condition. Prices stationary.

Central India.—*For week ending 17th January.*—No rain fell during the week. Spring operations in progress in all parts. Crops being irrigated in Bundelkhand. Condition of standing crops, agricultural stock, and pasturage generally in good condition. Prices of food-grains falling in Western Malwa; steady in other parts. Condition of opium crop generally good.

Rajputana.—*For week ending 17th January.*—Slight rain in Harowti and Bikaner. Agricultural operations and standing crops satisfactory. Prospects generally good. Pasturage or fodder sufficient. Prices fallen in three States, risen in two, and steady elsewhere.

Kashmir.—*For week ending 16th January.*—Rain fell in the Muzaffarabad district during the week. Prices stationary.

Nepal.—*For week ending 13th January.*—Weather fine. Prospects normal.

ANNUAL REPORT ON THE OPERATIONS OF THE SAVINGS BANKS IN INDIA DURING
THE YEAR 1892-93.

No. 267A., dated Calcutta, the 16th January, 1894.

ORDER—By the Government of India, Finance and Commerce Department.

READ—

Report by the Comptroller and Auditor General on the Operations of the Savings Banks in India for the year 1892-93.

No. 31, dated Calcutta, the 29th December, 1893.

From—The Comptroller and Auditor General,

To—The Secretary to the Government of India, Finance and Commerce Department.

I have the honour to forward, for submission to Government, my Annual Report on the operations of the Savings Banks in India during the year 1892-93.

2. The Report relates not only to Government Savings Banks proper which are open to the public, such as the Presidency and Post Office Banks, but also to those banks which are open only to non-commissioned officers and privates of British Regiments and to certain "Service Institutions," somewhat of the nature of Savings Banks which have been established for the benefit of non-pensionable servants of State Railways, and Officers of the Public Works and Telegraph Departments.

3. I enclose the usual Statements, marked I to VII, containing the accounts and statistics for the year.

4. The principal features of the returns are shown in the following table which also compares them with those of the previous year:—

5. On the 31st March 1893 there were 6,594 Government Savings Banks in India, containing 5,88,477 accounts which earned interest from Government to the amount of ₹33,90,751 and held balances aggregating ₹9,77,48,198 exclusive of Government Securities held on behalf of the depositors to the nominal value of ₹4,55,500.

6. These banks are mainly Post Office Banks, the working of which has already been reported upon by the Director General of the Post Office, and it is necessary here to mention only such details in respect of the other banks as may seem worthy of notice.

7. The Presidency Savings Banks have been practically stationary for some years past, Bombay showing a slight tendency to expansion, and Calcutta and Madras to decline. This feature recurs in the returns of the present year. During the past five years the depositors in these banks as a whole have increased by only about 1 per cent. and their balances have decreased by nearly 5 per cent., while in the same period in the case of the Post Office Banks the depositors have been about doubled and the balances have increased by 55 per cent.

8. The Military Banks which have also declined during the past few years show an increase this year in depositors and in the closing balance. But the variations are not considerable.

9. The balances of the Service Institutions proper are from the nature of the case gradually increasing from year to year. Their balances now aggregate over 73 lakhs.

10. Excluding these last, the Savings Bank balances which are held practically at call amount to about nine crores, and they are yearly increasing by very considerable amounts.

11. My ledgers relating to the Civil Engineers' Provident Fund have been agreed with the accounts kept by the Examiner of Accounts, Military Works, but the Finance and Revenue Accounts are not finally closed and the figures for the year 1892-93 are subject to revision.

No. 5.—The following Statute is published for general information:—

THE EAST INDIA LOAN ACT, 1893.

[56 & 57 VICT., c. 70.]

An Act to enable the Secretary of State in Council of India to raise Money in the United Kingdom for the Service of the Government of India, and for other purposes relating thereto.

21st December, 1893.

Be it enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

1. This Act may be cited as the East India Loan Act, 1893.
2. In this Act the expression "Secretary of State" means the Secretary of State in Council of India, unless the context otherwise requires.
3. It shall be lawful for the Secretary of State, at any time or times, to raise in the United Kingdom, for the service of the Government of India, any sum or sums of money not exceeding in the whole ten millions of pounds sterling; such sum or sums to be raised by the creation and issue of bonds, debentures, bills, or capital stock bearing interest, or partly by one of such modes, and partly by another or others.
4. All bonds issued under the authority of this Act may be issued under the hands of two Members of the Council of India, and countersigned by the Secretary of State for India, or one of his Under Secretaries, or his Assistant Under Secretary, and shall be for such respective amounts, payable after such notice, and at such rate or rates of interest, as the said Secretary of State may think fit.
5. All debentures and bills to be issued by the Secretary of State under the authority of this or any previous Act of Parliament, instead of being signed by two Members of the Council

of India and countersigned, shall bear the name of one of the Under Secretaries of State for India for the time being, and that name may be impressed or affixed by machinery or otherwise in such manner as the Secretary of State may from time to time direct.

6. All debentures issued under the authority of this Act may be issued for such respective amounts, and at such rate or rates of interest, as the Secretary of State may think fit, and shall be issued at or for such prices, and on such terms, as may be determined by the Secretary of State.

7. All debentures issued under the authority of this Act shall be paid off at par at a time or times to be mentioned in such debentures respectively; and the interest on all such debentures shall be paid on such days as shall be mentioned therein; and the principal moneys and interest secured by such debentures shall be payable either at the treasury of the Secretary of State in London or at the Bank of England.

8. The debentures issued under the authority of this Act, and all right to and in respect of the principal and interest moneys secured thereby, shall be transferable by the delivery of such debentures or, at the discretion of the Secretary of State, by deed; provided that the coupons for interest annexed to any debenture issued under the authority of this Act shall pass by delivery.

9. All bills issued under the authority of this Act may be issued for such respective amounts as the Secretary of State may think fit, and shall be issued at or for such prices, and on such terms, as may be determined by the Secretary of State.

10. A bill issued under the authority of this Act shall be a bill for the payment of the principal sum named therein at the date therein mentioned, so that the date be not more than twelve months from the date of the bill; and the principal sum secured by such bill shall be payable either at the treasury of the Secretary of State in London or at the Bank of England. Interest shall be payable in respect of such bill at such rate and in such manner as the Secretary of State may determine.

11. Any capital stock created under the authority of this Act shall bear such rate of interest as the Secretary of State may think fit; and such capital stock may be issued on such terms as may be determined by the Secretary

of State; and any such capital stock may bear interest during such period, and be paid off at par at such time, as the Secretary of State may prescribe previously to the issue of such capital stock.

12. In case of the creation and issue of any such capital stock there shall be kept, either at the office of the Secretary of State in London, or at the Bank of England, books wherein entries shall be made of the said capital stock, and wherein all assignments or transfers of the same, or any part thereof, shall be entered and registered, and shall be signed by the parties making such assignments or transfers, or, if such parties be absent, by his, her, or their attorney or attorneys thereunto lawfully authorised by writing under his, her, or their hands and seals, to be attested by two or more credible witnesses; and the person or persons to whom such transfer or transfers shall be made may respectively underwrite his, her, or their acceptance thereof, and no other mode of assigning or transferring the said capital stock or any part thereof, or any interest therein, shall be good and available in law, and no stamp duties whatsoever shall be charged on the said transfers or any of them.

13. The whole amount of the principal moneys to be charged on the revenues of India under this Act shall not exceed ten millions of pounds sterling.

14. Upon or for the repayment of any principal moneys secured under the authority of this Act, the Secretary of State may at any time borrow or raise, by all or any of the modes aforesaid, all or any part of the amount of principal money repaid or to be repaid, and so from time to time as all or any part of any principal moneys under this Act may require to be repaid, but the amount so to be charged on the revenues of India shall not in any case exceed the principal moneys required to be repaid.

15. All bonds, debentures, and bills issued under this Act, and the principal moneys and interest thereby secured, and all capital stock issued under this Act, and the interest thereon, shall be charged on and payable out of the revenues of India, in like manner as other liabilities incurred on account of the Government of India.

16. The provisions contained in section four of the Act fifth and sixth William the Fourth, chapter sixty-four, with respect to the composition and agreement for the payment by the East India Company of an annual sum in lieu of stamp duties on their bonds, and the exemption of their bonds from stamp duties, shall be applicable with respect to the bonds, debentures, and bills to be issued by the Secretary of State under the authority of this or any previous Act, as if such provisions were here and there repeated and re-enacted with reference thereto.

17. All provisions now in force in anywise relating to the offence of forging or altering, or offering, uttering, disposing of, or putting off knowing the same to be forged or altered, any East India bond, with intent to defraud, shall extend and be applicable to and in respect of any bond, debenture, or bill issued under the authority of this Act.

18. This Act shall not prejudice or affect any power of raising or borrowing money vest-

ed in the said Secretary of State at the time of passing thereof.

19. Any capital stock created under this Act shall be deemed to be India stock within the Act of the twenty-sixth and twenty-seventh Victoria, chapter seventy-three, anything in the said Act to the contrary notwithstanding.

20. Notwithstanding anything to the contrary in the Acts thirty-sixth Victoria, chapter thirty-two, fortieth and forty-first Victoria, chapter fifty-one, and forty-second and forty-third Victoria, chapter sixty, the whole or any part of the moneys which by those Acts respectively the Secretary of State is authorised to borrow, may be raised by the creation of capital stock bearing interest, as well as by any of the other means therein respectively mentioned.

21. The expression public stocks and funds in section seven of the Married Women's Property Act, 1882, shall, as from the commencement of that Act, be deemed to have included and shall include any capital stock issued by the Secretary of State under the authority of Act of Parliament and charged on the revenues of India.

War Office, January 2, 1894.

The Queen has been graciously pleased to signify Her intention to confer the decoration of the Victoria Cross upon the undermentioned officer of Her Majesty's Army, whose claim has been submitted for Her Majesty's approval, for his conspicuous bravery during the attack on the Sima Post by Kachins, on the 6th January last, as recorded against his name :—

Department.	Name.	Act of courage for which recommended.
Army Medical Staff	Surgeon-Major Owen Edward Pennefather Lloyd	During the attack on the Sima Post by Kachins, on the 6th January last, Surgeon-Major Lloyd on hearing that the commanding officer, Captain Morton (who had left the fort to visit a picket about 80 yards distant) was wounded, at once ran out to his assistance under a close and heavy fire, accompanied by Subadar Matab Singh. On reaching the wounded officer, Surgeon-Major Lloyd sent Subadar Matab Singh back for further assistance, and remained with Captain Morton till the Subadar returned with five men of the Magwe Battalion of Military Police, when he assisted in carrying Captain Morton back to the fort, where that officer died a few minutes afterwards. The enemy were within ten or fifteen paces keeping up a heavy fire which killed three men of the picket, and also Bugler Purna Singh. This man accompanied Captain Morton from the fort, showed great gallantry in supporting him in his arms when wounded, and was shot while helping to carry him back to the fort. (The native officer and five sepoy's above alluded to have been awarded the Order of Merit.)

Her Majesty has* also been pleased to approve of the following promotions being conferred upon the undermentioned officers in recognition of their services during the operations against the Kachins, 1892-93:—

RAILWAY TRAFFIC.

Calcutta, the 20th January 1894.

General Rules for working railways open for traffic.

Read—

Sections 8 and 47 of the Indian Railways Acts of 1879 and 1890, respectively.

Public Works Department notification No. 299, dated the 13th September 1880, publishing the General Rules for all railways in India, and the Government of India circular No. 17 Railway, dated the 21st August 1880, promulgating those General Rules.

Government of India resolution No. 467 R. T., dated the 15th August 1890, published in the *Gazette of India*, dated the 28th August 1890, under Public Works Department notification No. 361, dated the 28th August 1890.

Letter from the Government of Madras, No. 13 C., dated the 6th January 1894, forwarding letter from the Agent of the South Indian Railway Company, No. 1470, dated the 26th December 1893.

OBSERVATIONS.—The Agent of the South Indian Railway Company has applied that the General Rules for working open lines of railway in India, which were published under Public Works Department notification No. 299, dated the 13th September 1880, (*vide the Gazette of India* of the 15th September 1880), as modified by the Government of India resolution No. 467 R. T., dated the 15th August 1890 (which was published in the *Gazette of India* of the 28th August 1890, under Public Works Department notification No. 361, dated the 28th August 1890) may be made applicable to the Mayavaram-Mutupet railway, to the same extent as those rules now apply to the South Indian railway, from the date on which the said railway may be opened for the public carriage of passengers, animals, or goods.

RESOLUTION.—The Governor General in Council is pleased to sanction the application of the General Rules for Indian railways, with the modifications cited in the foregoing observations, to the Mayavaram-Mutupet railway to the same extent as those rules now apply to the South Indian railway.

ORDER.—Ordered, that the General Rules, which have already been published in the *Gazette of India*, dated the 18th September 1880, be further notified to the railway servants and to the public by a copy thereof, as modified by the resolution of the 15th August 1890, being kept open to inspection, free of any charge, in the office of the station master of every station on the said railway.

Ordered, also, that this resolution be communicated to the Government of Madras, for information and guidance, and that it be published under a notification in Part I of the *Gazette of India*.

No. 34 — Mr. C. A. Bull, Superintending Engineer, 2nd class, sub. *pro tem.*, Engineer-in-Chief of the Burma State Railway, is appointed to officiate as Manager of that line, in addition to his own duties, during the absence on privilege leave of Mr. G. F. Mathew, or until further orders.

The 25th January, 1894.

No. 35 — Mr. W. A. Crisp, Examiner of Accounts, 14th class, 3rd grade, temporary rank, attached to the Office of the Examiner of Public Works Accounts, Madras, reverted to Deputy Examiner of Accounts, 1st grade, with effect from the 28th December 1893.

PUBLIC WORKS DEPARTMENT.

CIVIL WORKS—Irrigation.

Calcutta, the 22nd January, 1894.

Read—

Administration Report of Irrigation Works in the Madras Presidency for 1892-93.

OBSERVATIONS.—The number of Major Works in the Madras Presidency dealt with in the Report is ten, as in the previous year. Work on the Kalingaroyen channel, which is a sanctioned project, has not yet been begun. Of the ten works, eight are in full operation, and the construction estimates of five of these have been closed. Of the remaining two, one, the Periyar, is still under construction; and for the other, the Rushikulya, which is classed as a Protective Work, a Revenue Account was opened during 1892-93.

The number of Minor Works for which Capital and Revenue Accounts are kept remains at 23, of which 19 are irrigation systems, and 4 are tidal canals.

2. The Capital outlay incurred on these Major and Minor Works during and up to the end of the year under review was as follows :—

	Number of works.	DURING THE YEAR 1892-93.							Total direct and indirect to end of 1892-93.

* Excluding Védaráuniyam canal, for which complete Capital account to end of 1892-93 has not yet been prepared.

3. Under Major Works the Capital outlay was almost entirely confined to the Kistna, Periyar and Rushikulya projects, on which it amounted respectively to Rs. 3,27,812, Rs. 13,48,377 and Rs. 5,08,065, inclusive of indirect charges.

The outlay on the Kistna project was principally on the eastern section for miscellaneous works. The widening of the Bantumilli canal in that section was completed. On the western section the widening of the Main canal was in progress.

On the Periyar project, work in No. I or reservoir division was much impeded by rain and heavy floods during the first half of the year, and progress on the main dam was comparatively slow, though greater than in 1891-92. The height of the dam was raised by about 20 feet during the year. The total amount of material put into the dam during the working season amounted to 903,118 cubic feet, and it is estimated that 3,739,460 cubic feet remained to be done at the close of the year. If the above rate of progress

were maintained, the work would be completed in four years; but it is stated that the outturn in future seasons will probably be lower, and the date of completion proportionately postponed. Work on the watershed-tunnel was retarded by the breaching of the reservoir which supplies the turbine at the north end, and subsequently the supply to the turbine failed early owing to short rainfall. Out of a total length of 5,704 feet, 3,658 feet had been bored by the close of the year, the work done during the year being 1,250 feet. In the No. II, or plains, division good progress was made with the distribution works.

On the Mahanadi section of the Rushikulya project, good progress was made with the Gulleri head-works and the Russelkonda reservoir, and the Goomsur head-works were completed. On the Rushikulya section, the main canal was nearly completed and progress made with the Surada reservoir. Water was let down this canal in June 1892, and down the Mahanadi canal in September.

The principal Capital outlay under the head Minor Works was on the Buckingham canal, and amounted to Rs. 1,90,968. A new lock was constructed and some improvements and diversions carried out.

4. The length of completed main canal on the major works amounted to 2,036 miles, and of distributary 5,590 miles. On both Major and Minor Works the length of navigable channel was 1,284 miles.

5. The revenue receipts and working expenses of each work for which Capital and Revenue Accounts are kept are shown in the following statement:—

* These include the amounts of indirect revenue for 1891-92 which were intimated to the Madras Government by the Board of Revenue after the accounts for that year were

6. The gross revenue derived from the Major Works shows a satisfactory increase of Rs. 3,97,126 over the previous year. The working expenses were higher by Rs. 85,077, but the net revenue was more by Rs. 3,12,049. There was an increase in net revenue under all the Major systems, except the Srivaikuntham anicut and the Karnúl canal. The former is accounted for by large remissions having been granted owing to the season in the Tinnevely district being unfavourable. On the Karnúl canal there was a much smaller demand for water for dry crops, the season having been good. A most marked recovery occurred on the Pennór and Sangam systems, the net revenue of Rs. 72,241 and Rs. 86,275 in 1891-92 rising to Rs. 2,26,239 and Rs. 2,29,940.

7. The figures for the Minor Irrigation Works for which Capital and Revenue Accounts are kept, given in para. 5, require some explanation. The total net revenue from these works in 1892-93 is shown as amounting to Rs. 20,71,315 against Rs. 2,19,450 in the previous year. But the figures for 1892-93 include a sum of Rs. 7,80,467 from the systems Nos. 5, 6, 7, 11, 13, 14, 15 and 16, which was the revenue derived in 1891-92, but for which the figures were not communicated by the Board of Revenue in time to be included in the report for 1891-92. The correct figures for the net revenue from this class of works in the two years thus become:—

	Rs.
1891-92 . . .	9,99,917
1892-93 . . .	12,90,848

The increase may be considered satisfactory.

Under Navigation Minor Works, the Buckingham canal shows much better results than usual, with a deficit of only Rs. 18,590 as compared with Rs. 74,599 in 1891-92. The improvement is attributed to the persistent efforts made to keep down working expenses, which were less than in 1891-92 by Rs. 54,521.

8. From Statement I. C. attached to the Report, it appears that the total Irrigation Receipts from the Major Works amounted to Rs. 83,64,231, and that this sum was divided into Rs. 78,56,986, which is the share of the land revenue on account of the water supplied, or in other words the water-rate, and Rs. 5,07,245 representing the irrigation share of the enhanced land revenue.

9. In the following statement the irrigation receipts are compared with the areas under first and second crops charged as irrigated:—

System.	Revenue derived from irrigated lands.		Area charged as irrigated.		Rate per acre.

The area under Major Works charged as irrigated, was less in 1892-93 than in 1891-92 by 21,254 acres, but the revenue derived was more, as the large remissions of the previous year were not found necessary. The area under Minor Works was greater by 71,683 acres than in 1891-92.

10. Details of the average water-rate for wet crops and irrigated dry crops are now given on page 7 of the Report. The figures are summarised in paragraph 7 of the review by the Madras Government on the report. For the Major Works they are as follows :—

	FIRST CROP.						SECOND CROP.
	GOVERNMENT LANDS.		ZAMINDARI LANDS.		INAM LANDS.		
	Wet crop.	Dry crop.	Wet crop.	Dry crop.	Wet crop.	Dry crop.

Srivaikuntham anicut	6.35	2.37	3.86	3.61	3.95	1.75	3.24

The rates for wet crop (rice) appear low as compared with the rates obtaining in other parts of India for the same crop.

11. The area charged as irrigated under first crop by the Major Works amounted to 2,152,718 acres, and under second crop to 191,008 acres, or a total of 2,213,726 acres. The difference between this total and that given in column 4 of the table in paragraph 9 is due to the inclusion in the latter of the extent of "waste charged." The proportion of flow to lift irrigation was about 27 to 1.

12. The following statement shows the details of the working expenses, including the old maintenance charges, for each of the Major systems, and for the Minor systems in the aggregate :—

System.	1892-93.					1891-92.
	New Works and Repairs.	Establishment.	Tools and Plant.	Indir. et charges.	Total.	Total.

GRAND TOTAL	11,55,010	10,93,308	86,463	1,23,082	24,57,863	24,78,409

The cost of maintaining the Major Works was about 28 per cent. of the gross, and 30 per cent. of the net revenue derived therefrom.

18. The charge for establishment in column 3 of the last statement is made up thus :—

	Major Works.	Minor Works and Navigation.	TOTAL.
	Rs.	Rs.	Rs.
Revenue management { Direction and Executive .	4,90,244	11,967	5,02,211

Maintenance of works	1,77,772	72,894	2,50,666
GRAND TOTAL .	9,41,378	1,51,930	10,93,308

The cost of revenue management of Major Works was about 9 per cent. of the gross revenue.

14. Of the irrigated crops, rice constituted 95 per cent. The estimated total value of all the crops irrigated by the Major and the principal Minor Works was 777 lakhs, which is more than the total capital cost of these systems.

15. The following figures give details regarding navigation on the principal canals :—

Corresponding figures of previous year . . .	1,233	2,27,943	3,29,565	6,29,43,102	39,652,011

The figures for 1892-93 show a considerable improvement over those for 1891-92.

16. Besides the Major and Minor Works for which Capital and Revenue Accounts are kept, dealt with above, there are a very large number of tanks and channels for which neither Capital nor Revenue accounts are kept, and the indirect receipts from which are not credited in the books of the Public Works Department. The more important of these works are maintained by the Public Works Department, the smaller ones by the Revenue Department. The systematic repair of some of these works has now been in progress for some years, under the title of the "Tank Restoration Scheme." The following

are the principal figures relating to these works, class I being those under the Public Works Department for which a continuous record of expenditure is maintained; class II other works under the Public Works Department; class III works under the Revenue Department:—

Class.	Area, 1st and 2nd crop.	Irrigation revenue.	Rate per acre.	Outlay, direct and indirect, and collection charges.	Rate per acre.
1	2	3	4	5	6
I . .	226,812	7,76,969

Total, 1891-92 .	2,720,872	62,11,070	2.32

The figures for 1892-93 show a substantial improvement over those for the previous year owing to the better rainfall.

17. The outlay on Agricultural Works, principally river embankments and conservancy, was as follows:—

	Rs.	Rs.
Original works	88,734	
Repairs	2,27,727	
		3,16,461
Establishment		71,492
Tools and plant		4,450

18. Six investigating parties were at work on the Tank Restoration Scheme, the expenditure, which is included in that given in paragraph 16, being as follows:—

	EXPENDITURE DURING 1892-93.					Expenditure to end of 1892-93.
	Works.	Repairs.	Establishment.	Tools and plant.	Total.	
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

TOTAL .	1,45,598	1,83,512	1,18,680	6,623	4,54,413	43,77,401

Up to the end of the year 26,874 square miles had been investigated, estimates for 3,545 works had been prepared, and projects for a sum aggregating 87½ lakhs had been sanctioned.

19. The following figures relate to the discharge of some of the principal canals :—

20. The report was received by the Government of India on 27th November 1893. It was the first of the Revenue Reports to be received, and its early receipt is an extremely satisfactory feature. It has been correctly prepared, and furnishes a record of a year of very successful working which the Governor General in Council is happy to acknowledge.

Order.—Ordered, that copies of this Review and of the Report be forwarded to the Revenue and Agricultural Department for information.

Ordered also, that copies of this Review be forwarded to the Government of Madras for information and guidance, and to the Local Governments and Administrations in the Public Works Department noted on the margin for information.

The Governments of Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab, in the Public Works Department.
The Chief Commissioners of the Central Provinces and Burma.
The Agents to the Governor-General in Rajputana and Baluchistan.

Ordered further, that this Review be published in the *Gazette of India*, and that copies of the Review and of the Report be forwarded to Her Majesty's Secretary of State for India.

N.B.—1. For English and Vernacular Offices, where there are no arrears of work, the last Saturday in every month.

2. The last day of every month will be observed as a holiday in the Treasury Office, Ajmere, instead of last Saturday.
3. Mohamedan holidays depend on the moon being visible and fall on the day following such event.
4. Holidays are granted to Hindus on account of eclipses of the sun and of the moon, those for the former are granted for the day on which the eclipse occurs, and those for the latter for the day following the eclipse. This year there will be an eclipse of the moon on the 21st March and solar eclipses on the 6th April and the 20th September. The resulting holidays will be observed on the 22nd March, the 6th April and the 29th September, respectively.
5. Local holidays may be granted for great festivals or fairs at the discretion of the Commissioner, when there are no arrears of work.
6. The Civil Court vacation commences on the 1st of August and ends on the 30th September, 1893. No fresh suits shall, during that time, be instituted unless they be of an urgent character, but the Courts will be open for the purposes of clearing up cases instituted before 15th July and for disposal of any urgent work.

THE RESIDENT IN MYSORE.

NOTIFICATION.

Bangalore, the 16th January, 1894.

No. 125—14-88.—The following Rules framed by the Resident in Mysore under section 2, Act XVI of 1863, as extended to the Civil and Military Station of Bangalore by the Government of India, Foreign Department, Notification No. 4424-I., dated 23rd December, 1886, for the methylation, storage, fixing the value, and sale of spirits rendered effectually and permanently unfit for human consumption, are hereby promulgated for general information:—

A register in the form appended shall be maintained at distilleries and warehouses whence methylated spirits are issued under Act XVI of 1863, and the following instructions shall be observed in this behalf:—

- (i) Spirit methylated for use exclusively in arts, manufactures or chemistry, and which has been rendered effectually and permanently unfit for human consumption, is subject only to an *ad valorem* duty of 5 per cent. on the value of the spirits alone, and not on that of the mixture.
- (ii) Whenever spirit is to be rendered effectually and permanently unfit for human consumption, the ingredient to be used for admixture with the spirit shall be caoutchoucine, and it shall be mixed with the spirit in the proportion of one part by volume of the caoutchoucine to 99 parts by volume of the spirit, which shall not be of less strength than 30° over proof.
- (iii) But when it can be proved to the satisfaction of the Collector of Civil and Military Station that the presence of caoutchoucine will render the spirit unsuitable for the purpose for which it is required, special sanction may be obtained from that officer for the use of woodnaphtha (Methylic Alcohol) instead of caoutchoucine. In this case, one part by volume of crude woodnaphtha shall be mixed with nine parts by volume of spirits having a strength not less than 30° over proof.
- (iv) The caoutchoucine or the woodnaphtha before its admixture with the spirit must be tested by the Chemical Examiner to Government, who must certify to the Collector of Civil and Military Station that it is of the proper strength and fitted, if used in the above-mentioned proportions, to effectually and permanently render unpalatable and unfit for human consumption the spirit with which it is mixed.
 - (a) Should it be found impracticable to obtain caoutchoucine or crude woodnaphtha of the required quality to mix in the aforesaid proportions, the Chemical Examiner shall direct the said proportions to be so raised as to render spirits mixed therewith effectually and permanently unfit for human consumption ere issued.
- (v) The caoutchoucine or woodnaphtha so tested and certified by the Chemical Examiner shall be kept under the lock and key of the Distillery Officer in whose presence only methylation shall be allowed.
- (vi) No methylated spirits shall be allowed to pass out of a distillery or warehouse unless covered by a pass issued by the officer in charge thereof.
- (vii) For the purpose of fixing the amount of duty to be levied on such spirits, their market-value shall be determined by the Collector of Civil and Military Station, subject to approval of the Resident in Mysore.
- (viii) Materials intended for use in the methylation of spirits must be delivered by the distiller of the Government Central Distillery at Bangalore into the charge of the officer who will take a sample from each separate cask or parcel thereof and forward the same to the Collector of Civil and Military Station for transmission to the Chemical Examiner, and will secure the bulk under a lock in a separate secure room or godown to be provided by the distiller. No portion of such bulk shall be used for the purpose of methylation or be transferred to the warehouse until the receipt of the

Chemical Examiner's report. On the receipt thereof, if it be to the effect that the materials are not suitable for use in methylation, the officer shall deliver the same to the distiller who shall be bound forthwith to remove the same from the premises and not to bring them back again. If, however, the Chemical Examiner's report is to the effect that the materials are suitable for use in methylation, the officer will cause them to be removed into and to be secured in the distillery warehouse, and will at the same time enter them in the register appended to these rules.

(ix) The officer must personally attend during the whole process of the methylation of spirits.

By Order,
C. W. RAVENSHAW,
First Assistant Resident.

CEMETERY NOTICE.

To all concerned.

At the last half-yearly inspection of the Cemetery, 8th January, 1894, the undermentioned tombs and head-stones, in the Cemetery of Ahmednagar Cantonment, were found in a ruinous condition: some are very unsightly and require re-setting, others want repainting. If the repairs are not effected within six months from the date hereof by the relatives or friends, the tombs will be made level with the ground in accordance with Rule XIX, Appendix M of the Public Works Code.

For information the approximate cost of repairs is added, and if the amount is sent to the Chaplain, the Executive Engineer of the Station will be asked to carry out the work.

REVENUE DEPARTMENT.

[Revised Advertisement.]

A Dictionary of the Economic Products of India.

By DR. GEO. WATF, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes and Volume VI, Parts I, II, III & IV of the Dictionary are now ready at the Office of the Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs 45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, Rs 6 and 8 shillings respectively will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and half of G; Volume IV, latter half of G to middle of L, and Volume V contains the latter half of L to end of O; Vol. VI (which will consist of four parts), Part I, contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year, but a tenth volume, may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary

The Index will practically be a glossary of the vernacular and European names of the plants, animals, and minerals of India, and as such, will be a work of reference, which, it is hoped, may prove of considerable value.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to amend the Land Acquisition Act, 1870, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 25th January 1894 :—

We, the undersigned, Members of the Select Committee to which the Bill to amend the Land Acquisition Act, 1870, has been committed, have considered the Bill as amended by the former Select Committee and appended to their Report dated 22nd March 1893, together with the papers noted in the margin, and have now the honour to submit this our Report.

From Chief Secretary to Government, Madras, No. 2147, dated 14th October 1893, and enclosure [Papers No. 1 to Bill No. III].
From Officiating Revenue Secretary to Government, Punjab, No. 1162, dated 26th October 1893, and enclosure [Papers No. 2 to Bill No. III].
From Secretary, Bengal Chamber of Commerce, No. 67—94, dated 15th January 1894 and enclosure [Papers No. 3 to Bill No. III].

2. We have only a few changes to recommend in the amended Bill. They will be found printed in italics in the copy of that Bill which we attach to this Report.

3. We propose that the Bill should not come into force until the 1st March 1894, so as to allow of an interval between the date of its passing and its coming into force during which the officers concerned may become acquainted with its provisions.

4. In order to prevent any doubt as to the right to compensation of persons who own easements affecting lands taken up under the Bill, we have added an explanation to the definition of "person interested" making the definition expressly cover such persons.

5. We have amended section 5 so as to restrict references of disputes as to the amount to be paid for damage under that section to the chief revenue-officers of districts, as we are of opinion that such references should be decided by these officers only.

6. The object of the amendment we have suggested in the proviso to section 6 is to enable land to be acquired under the Bill for the purposes of colleges, hospitals and other public institutions which are in some cases only partly supported out of public revenues or the funds of local authorities.

7. The words we have added to section 9 (2) will enable the Collector to require persons to put their statements in writing in all cases in which he may consider this course necessary or desirable. Since the Collector is bound to make an award under section 11, it will prevent misunderstanding to give him this power.

8. A question having been raised as to the competency of the Collector to summon the parties interested as witnesses under section 14, we have thought it well to remove all doubt by inserting a specific reference to such parties in the section.

9. We have proposed the addition to section 17 (2) of the words printed in italics, as the language of the sub-section as settled by the former Select Committee did not appear to us to be sufficiently wide to provide for all the cases in which it may be desirable that a Railway Administration should acquire the immediate possession of land. Such acquisition is sometimes necessary for the maintenance of the traffic of a line when no river-side station is involved.

10. The object of the slight addition made by us to section 18 (r) is to make the provisions of that section as to disputes concerning apportionment the same as those of section 30 on that subject.

11. The new sub-section we have added to section 19 will insure the submission by the Collector of an accurate and complete descriptive list of all the relevant papers which may be required by the Court.

12. We are of opinion that only such land should be deemed to be part of a house, manufactory or building which it is proposed to take, under the Act, as can be held to be reasonably required for the full and unimpaired use of such house, manufactory or building. We have, therefore, added a clause to section 49 (r) directing the Court to have regard to this question when deciding any reference which may be made to it under the section.

13. In accordance with a suggestion made by the Bengal Chamber of Commerce we have required rules under section 55 to be made after previous publication, so as to give the public an opportunity of criticizing them before they are finally adopted.

14. We do not think that the amendments now proposed are of sufficient importance to require re-publication, and we recommend that the Bill appended to this Report be passed into law.

*The Land Acquisition Bill.**(Part I.—Preliminary.—Sections 1-3.)***No. IV.**

A Bill to amend the law for the acquisition of land for public purposes and for Companies.

WHEREAS it is expedient to amend the law for the acquisition of land needed for public purposes and for Companies and for determining the amount of compensation to be made on account of such acquisition; It is hereby enacted as follows:—

PART I.**PRELIMINARY.**

1. (1) This Act may be called the Land Acquisition Act, 1894.
Short title, extent and commencement.

(2) It extends to the whole of British India; and

(3) It shall come into force on the first day of March 1894.

2. (1) The Land Acquisition Act, 1870, and section 74 of the Punjab Courts Act, 1884, are hereby repealed.

Repeal.

(2) But all proceedings commenced, officers appointed or authorised, agreements published and rules made under the said Land Acquisition Act shall, as far as may be, be deemed to have been respectively commenced, appointed or authorized, published and made under this Act.

(3) Any enactment or document referring to the said Land Acquisition Act or to any enactment thereby repealed shall, so far as may be, be construed to refer to this Act or to the corresponding portion thereof.

3. In this Act, unless there is something repugnant in the subject or context,—
Definitions.

(a) the expression "land" includes benefits to arise out of land, and things attached to the earth or permanently fastened to anything attached to the earth;

(b) the expression "person interested" includes all persons claiming an interest in compensation to be made on account of the acquisition of land under this Act; and a person shall be deemed to be interested in land if he is interested in an easement affecting the land;

(c) the expression "Collector" means the Collector of a district, and includes a Deputy Commissioner and any officer specially appointed by the Local Government to perform the functions of a Collector under this Act;

(d) the expression "Court" means a principal Civil Court of original jurisdiction, unless the Local Government

has appointed (as it is hereby empowered to do) a special judicial officer within any specified local limits to perform the functions of the Court under this Act;

(e) the expression "Company" means a Company registered under the Indian Companies Act, 1882, or under the (English) Companies Acts, 1862 to 1890, or incorporated by an Act of Parliament or of the Governor General in Council, or by Royal Charter or Letters Patent;

VI of 18

(f) the expression "public purpose" includes the provision of village-sites in districts in which the Local Government shall have declared by notification in the official Gazette that it is customary for the Government to make such provision: and

(g) the following persons shall be deemed persons "entitled to act" as and to the extent hereinafter provided (that is to say)—

trustees for other persons beneficially interested shall be deemed the persons entitled to act with reference to any such case, and that to the same extent as the persons beneficially interested could have acted if free from disability;

a married woman, in cases to which the English law is applicable, shall be deemed the person so entitled to act, and, whether of full age or not, to the same extent as if she were unmarried and of full age; and

the guardians of minors and the committees or managers of lunatics or idiots shall be deemed respectively the persons so entitled to act, to the same extent as the minors, lunatics or idiots themselves, if free from disability, could have acted;

Provided that—

(i) no person shall be deemed "entitled to act" whose interest in the subject-matter shall be shown to the satisfaction of the Collector or Court to be adverse to the interest of the person interested for whom he would otherwise be entitled to act;

(ii) in every such case the person interested may appear by a next friend, or, in default of his appearance by a next friend, the Collector or Court, as the case may be, shall appoint a guardian for the case to act on his behalf in the conduct thereof;

X of 1870.

XVIII of 1884.

*The Land Acquisition Bill.**(Part II.—Acquisition.—Sections 4-9.)*

XIV of 1882.

(iii) the provisions of Chapter XXXI of the Code of Civil Procedure shall, *mutatis mutandis*, apply in the case of persons interested appearing before a Collector or Court by a next friend, or by a guardian for the case, in proceedings under this Act; and

(iv) no person "entitled to act" shall be competent to receive the compensation-money payable to the person for whom he is entitled to act, unless he would have been competent to alienate the land and receive and give a good discharge for the purchase money on a voluntary sale.

PART II.

ACQUISITION.

Preliminary Investigation.

4. (1) Whenever it appears to the Local Government that land in any locality is likely to be needed for any public purpose, a notification to that effect shall be published in the official Gazette, and the Collector shall cause public notice of the substance of such notification to be given at convenient places in the said locality.

(2) Thereupon it shall be lawful for any officer, either generally or specially authorized by such Government in this behalf, and for his servants and workmen,—

to enter upon and survey and take levels of any land in such locality;

to dig or bore into the subsoil;

to do all other acts necessary to ascertain whether the land is adapted for such purpose;

to set out the boundaries of the land proposed to be taken and the intended line of the work (if any) proposed to be made thereon;

to mark such levels, boundaries and line by placing marks and cutting trenches;

and, where otherwise the survey cannot be completed and the levels taken and the boundaries and line marked, to cut down and clear away any part of any standing crop, fence or jungle:

Provided that no person shall enter into any building or upon any enclosed court or garden attached to a dwelling-house (unless with the consent of the occupier thereof) without previously giving such occupier at least seven days' notice in writing of his intention to do so.

5. The officer so authorized shall at the time of such entry pay or tender payment for all necessary damage to be done as aforesaid, and, in case of

dispute as to the sufficiency of the amount so paid or tendered, he shall at once refer the dispute to the decision of the Collector or other chief revenue-officer of the district, and such decision shall be final.

Declaration of intended Acquisition.

6. (1) Subject to the provisions of Part VII of this Act, whenever it appears to the Local Government that any particular land is needed for a public purpose, or for a Company, a declaration shall be made to that effect under the signature of a Secretary to such Government or of some officer duly authorized to certify its orders:

Provided that no such declaration shall be made unless the compensation to be awarded for such property is to be paid by a Company, or wholly or partly out of public revenues or out of some fund controlled or managed by a local authority.

(2) The declaration shall be published in the official Gazette, and shall state the district or other territorial division in which the land is situate, the purpose for which it is needed, its approximate area, and, where a plan shall have been made of the land, the place where such plan may be inspected.

(3) The said declaration shall be conclusive evidence that the land is needed for a public purpose or for a Company, as the case may be; and, after making such declaration, the Local Government may acquire the land in manner hereinafter appearing.

7. Whenever any land shall have been so declared to be needed for a public purpose, or for a Company, the Local Government, or some officer authorized by the Local Government in this behalf, shall direct the Collector to take order for the acquisition of the land.

8. The Collector shall thereupon cause the land (unless it has been already marked out under section 4) to be marked out. He shall also cause it to be measured, and (if no plan has been made thereof) a plan to be made of the same.

9. (1) The Collector shall then cause public notice to be given at convenient places on or near the land to be taken, stating that the Government intends to take possession of the land, and that claims to compensation for all interests in such land may be made to him.

(2) Such notice shall state the particulars of the land so needed, and shall require all persons interested in the land to appear personally or by agent before the Collector at a time and place therein mentioned (such time not being

*The Land Acquisition Bill.**(Part II.—Acquisition.—Sections 10-17.)*

earlier than fifteen days after the date of publication of the notice), and to state the nature of their respective interests in the land and the amount and particulars of their claims to compensation for such interests, and their objections (if any) to the measurements made under section 8. *The Collector may in any case require such statement to be made in writing and signed by the party or his agent.*

(3) The Collector shall also serve notice to the same effect on the occupier (if any) of such land and on all such persons known or believed to be interested therein, or to be entitled to act for persons so interested, as reside, or have agents authorized to receive service on their behalf, within the revenue district in which the land is situate.

(4) In case any person so interested resides elsewhere; and has no such agent, the notice shall be sent to him by post in a letter addressed to him and registered under Part III of the Indian Post Office Act, 1866.

XIV of 1866.

10. (1) The Collector may also require any such person to make or deliver to him, at a time and place mentioned (such time not being earlier than fifteen days after the date of the requisition), a statement containing, so far as may be practicable, the name of every other person possessing any interest in the land or any part thereof as co-proprietor, sub-proprietor, mortgagee, tenant or otherwise, and of the nature of such interest, and of the rents and profits (if any) received or receivable on account thereof for the year next preceding the date of the statement.

(2) Every person required to make or deliver a statement under this section or section 9 shall be deemed to be legally bound to do so within the meaning of sections 175 and 176 of the Indian Penal Code.

XLV of 1860.

Enquiry into Measurements, Value and Claims, and Award by the Collector

11. On the day so fixed, or on any other day to which the enquiry has been adjourned, the Collector shall proceed to enquire into the objections (if any) which any person interested has stated pursuant to a notice given under section 9 to the measurements made under section 8, and into the value of the land, and into the respective interests of the persons claiming the compensation, and shall make an award under his hand of—

- (i) the true area of the land;
- (ii) the compensation which in his opinion should be allowed for the land; and
- (iii) the apportionment of the said compensation among all the persons known or believed to be interested in the land, of whom, or of whose claims,

he has information, whether or not they have respectively appeared before him.

12. (1) Such award shall be filed in the Collector's office and shall, except as hereinafter provided, be final and conclusive evidence, as between the Collector and the persons interested, whether they have respectively appeared before the Collector or not, of the true area and value of the land, and the apportionment of the compensation among the persons interested.

(2) The Collector shall give immediate notice of his award to such of the persons interested as are not present personally or by their representatives when the award is made.

13. The Collector may, for any cause he thinks fit, from time to time adjourn the enquiry to a day to be fixed by him.

14. For the purpose of enquiries under this Act, the Collector shall have power to summon and enforce the attendance of witnesses, including the parties interested or any of them, and to compel the production of documents by the same means, and (so far as may be) in the same manner, as is provided in the case of a Civil Court under the Code of Civil Procedure.

15. In determining the amount of compensation, the Collector shall be guided by the provisions contained in sections 23 and 24.

Taking Possession.

16. When the Collector has made an award under section 11, he may take possession of the land, which shall thereupon vest absolutely in the Government, free from all encumbrances.

17. (1) In cases of urgency, whenever the Local Government so directs, the Collector, though no such award has been made, may, on the expiration of fifteen days from the publication of the notice mentioned in section 9, sub-section (1), take possession of any waste or arable land needed for public purposes or for a Company. Such land shall thereupon vest absolutely in the Government, free from all encumbrances.

(2) Whenever, owing to any sudden change in the channel of any navigable river or other unforeseen emergency, it becomes necessary for any Railway Administration to acquire the immediate possession of any land for the maintenance of their traffic or for the purpose of making thereon a river-side or ghat station, or of providing convenient connection with or access to any such station, the Collector may, immediately after the publication of the notice

*The Land Acquisition Bill.**(Part III.—Reference to Court and Procedure thereon.—Sections 18-23.)*

mentioned in sub-section (1) and with the previous sanction of the Local Government, enter upon and take possession of such land, which shall thereupon vest absolutely in the Government free from all incumbrances :

Provided that the Collector shall not take possession of any building or part of a building under this sub-section without giving to the occupier thereof at least forty-eight hours' notice of his intention so to do or such longer notice as may be reasonably sufficient to enable such occupier to remove his moveable property from such building without unnecessary inconvenience.

(3) In every case under either of the preceding sub-sections the Collector shall at the time of taking possession offer to the persons interested compensation for the standing crops and trees (if any) on such land and for any other damage sustained by them caused by such sudden dispossession and not excepted in section 24 ; and, in case such offer is not accepted, the value of such crops and trees and the amount of such other damage shall be allowed for in awarding compensation for the land under the provisions herein contained.

PART III.**REFERENCE TO COURT AND PROCEDURE THEREON.**

18. (1) Any person interested who has not accepted the award may, by written application to the Collector, require that the matter be referred by the Collector for the determination of the Court, whether his objection be to the measurement of the land, the amount of the compensation, or the apportionment of the compensation among the persons interested.

(2) The application shall state the grounds on which objection to the award is taken :

Provided that every such application shall be made,—

(a) if the person making it was present or represented before the Collector at the time when he made his award, within six weeks from the date of the Collector's award ;

(b) in other cases, within six weeks of the receipt of the notice from the Collector under section 12, sub-section (2), or within six months from the date of the Collector's award, whichever period shall first expire.

19. (1) In making the reference, the Collector shall state, for the information of the Court, in writing under his hand,—

(a) the situation and extent of the land, with particulars of any trees, buildings or standing crops thereon ;

(b) the names of the persons whom he has reason to think interested in such land ;

(c) the amount awarded for damages and paid or tendered under sections 5 and 17, or either of them, and the amount of compensation awarded under section 11 ; and

(d) if the objection be to the amount of the compensation, the grounds on which the amount of compensation was determined.

(2) To the said statement shall be attached a schedule giving the particulars of the notices served upon, and of the statements in writing made or delivered by, the parties interested respectively.

20. The Court shall thereupon cause a notice, specifying the day on which the Court will proceed to determine the objection, and directing their appearance before the Court on that day, to be served on the following persons, namely :—

(a) the applicant ;

(b) all persons interested in the objection, except such (if any) of them as have consented without protest to receive payment of the compensation awarded ; and,

(c) if the objection is in regard to the area of the land or to the amount of the compensation, the Collector.

21. The scope of the inquiry in every such proceeding shall be restricted to a consideration of the interests of the persons affected by the objection.

22. Every such proceeding shall take place in open Court, and all persons entitled to practise in any Civil Court in the province shall be entitled to appear, plead and act (as the case may be) in such proceeding.

23. (1) In determining the amount of compensation to be awarded for land acquired under this Act, the Court shall take into consideration—

first, the market-value of the land at the date of the publication of the declaration relating thereto under section 6 ;

secondly, the damage sustained by the person interested, by reason of the taking of any standing crops or trees which may be on the land at the time of the Collector's taking possession thereof ;

thirdly, the damage (if any) sustained by the person interested, at the time of the Collector's taking possession of the land, by reason of severing such land from his other land ;

fourthly, the damage (if any) sustained by the person interested, at the time of the Collector's taking possession of the land, by reason of the acquisition injuriously

The Land Acquisition Bill.

(Part III.—Reference to Court and Procedure thereon.—Sections 24-28. Part IV.—Apportionment of Compensation.—Sections 29-30. Part V.—Payment.—Section 31.)

affecting his other property, moveable or immoveable, in any other manner, or his earnings ;

fifthly, if, in consequence of the acquisition of the land by the Collector, the person interested is compelled to change his residence or place of business, the reasonable expenses (if any) incidental to such change ; and

sixthly, the damage (if any) *bond fide* resulting from diminution of the profits of the land between the time of the publication of the declaration under section 5 and the time of the Collector's taking possession of the land.

(2) In addition to the market-value of the land, as above provided, the Court shall in every case award a sum of fifteen per centum on such market-value, in consideration of the compulsory nature of the acquisition.

Matters to be neglected in determining compensation. 24. But the Court shall not take into consideration,—

first, the degree of urgency which has led to the acquisition ;

secondly, any disinclination of the person interested to part with the land acquired ;

thirdly, any damage sustained by him which, if caused by a private person, would not render such person liable to a suit ;

fourthly, any damage which is likely to be caused to the land acquired, after the date of the publication of the declaration under section 6, by or in consequence of the use to which it will be put ;

fifthly, any increase to the value of the land acquired likely to accrue from the use to which it will be put when acquired ;

sixthly, any increase to the value of the other land of the person interested likely to accrue from the use to which the land acquired will be put ; or,

seventhly, any outlay or improvements on the land acquired, commenced, made or effected after the date of the publication of the declaration under section 6.

25. (1) When the applicant has made a claim to compensation, pursuant to any notice given under section 9, the amount awarded to him by the Court shall not exceed the amount so claimed or be less than the amount awarded by the Collector under section 11.

(2) When the applicant has refused to make such claim, or has omitted without sufficient reason (to be allowed by the Judge) to make such claim, the amount awarded by the Court shall in no case exceed the amount awarded by the Collector.

(3) When the applicant has omitted for a sufficient reason (to be allowed by the Judge) to

make such claim, the amount awarded to him by the Court shall not be less than, and may exceed, the amount awarded by the Collector.

26. Every award under this Part shall be in writing signed by the Judge, and shall specify the amount awarded under clause *first*, of sub-section (1) of section 23, and also the amounts (if any) respectively awarded under each of the other clauses of the same sub-section, together with the grounds of awarding each of the said amounts.

27. (1) Every such award shall also state the amount of costs incurred in the proceedings under this Part, and by what persons and in what proportions they are to be paid.

(2) When the award of the Collector is not upheld, the costs shall ordinarily be paid by the Collector, unless the Court shall be of opinion that the claim of the applicant was so extravagant or that he was so negligent in putting his case before the Collector that some deduction from his costs should be made or that he should pay a part of the Collector's costs.

28. If the sum which, in the opinion of the Court, the Collector ought to have awarded as compensation is in excess of the sum which the Collector did award as compensation, the award of the Court may direct that the Collector shall pay interest on such excess at the rate of six per centum per annum from the date on which he took possession of the land to the date of payment of such excess into Court.

PART IV.

APPORTIONMENT OF COMPENSATION.

29. Where there are several persons interested, if such persons agree in the apportionment of the compensation, the particulars of such apportionment shall be specified in the award, and as between such persons the award shall be conclusive evidence of the correctness of the apportionment.

30. When the amount of compensation has been settled under section 11, if any dispute arises as to the apportionment of the same or any part thereof, or as to the persons to whom the same or any part thereof is payable, the Collector may refer such dispute to the decision of the Court.

PART V.

PAYMENT.

31. (1) On making an award under section 11, the Collector shall tender payment of the compensation awarded by him to

Payment of compensation or deposit of same in Court.

The Land Acquisition Bill.

(Part V.—Payment.—Sections 32-34. Part VI.—Temporary Occupation of Land.—
Section 35.)

the persons interested entitled thereto according to the award, and shall pay it to them if they shall consent to receive it.

(a) If they shall not consent to receive it, or if there be no person competent to alienate the land, or if there be any dispute as to the title to receive the compensation or as to the apportionment of it, the Collector shall deposit the amount of the compensation in the Court to which a reference under section 18 would be submitted :

Provided that any person interested may receive such payment under protest as to the sufficiency of the amount :

Provided also that no person who has received the amount otherwise than under protest shall be entitled to make any application under section 18 :

Provided also that nothing herein contained shall affect the liability of any person, who may receive the whole or any part of any compensation awarded under this Act, to pay the same to the person lawfully entitled thereto.

(3) Notwithstanding anything in this section, the Collector may, with the sanction of the Local Government, instead of awarding a money compensation in respect of any land, make any arrangement with a person having a limited interest in such land either by the grant of other lands in exchange, the remission of land-revenue on other lands held under the same title or in such other way as may be equitable having regard to the interests of the parties concerned.

(4) Nothing in the last foregoing sub-section shall be construed to interfere with or limit the power of the Collector to enter into any arrangement with any person interested in the land and competent to contract in respect thereof.

32. (1) If any money shall be deposited in Court under sub-section (2) of the last preceding section and it appears that the land in respect whereof the same was awarded belonged to any person who had no power to alienate the same, the Court shall—

(a) order the money to be invested in the purchase of other lands to be held under the like title and conditions of ownership as the land in respect of which such money shall have been deposited was held, or

(b) if such purchase cannot be effected forthwith, then in such Government or other approved securities as the Court shall think fit ;

and shall direct the payment of the interest or other proceeds arising from such investment to the person or persons who would for

the time being have been entitled to the possession of the said land, and such moneys shall remain so deposited and invested until the same be applied— [L. C. C. Act, s. 69.]

(i) in the purchase of such other lands as aforesaid ; or

(ii) in payment to any person or persons becoming absolutely entitled thereto.

(2) In all cases of moneys deposited to which this section applies the Court shall order the costs of the following matters, including therein all reasonable charges and expenses incident thereto, to be paid by the Collector, namely :— [L. C. Act s. 80.]

(a) the costs of such investments as aforesaid ;

(b) the costs of the orders for the payment of the interest or other proceeds of the securities upon which such moneys are for the time being invested, and for the payment out of Court of the principal of such moneys, and of all proceedings relating thereto, except such as may be occasioned by litigation between adverse claimants.

33. When any money shall have been deposited in Court under this section, the Court may, on the application of any party interested or claiming an interest in such money, order the same to be invested in such Government or other approved securities as it may think proper, and may direct the interest or other proceeds of any such investment to be accumulated and paid in such manner as it may consider will give the parties interested therein the same benefit therefrom as they might have had from the land in respect whereof such money shall have been deposited or as near thereto as may be. [L. C. C. Act, s. 74.]

34. When the amount of such compensation is not paid or deposited on or before taking possession of the land, the Collector shall pay the amount awarded with interest thereon at the rate of six per centum per annum from the time of so taking possession until it shall have been so paid or deposited.

PART VI.

TEMPORARY OCCUPATION OF LAND.

35. (1) Subject to the provisions of Part VII of this Act, whenever it appears to the Local Government that the temporary occupation and use of any waste or arable land are needed for any public purpose, or for a Company, the Local Government may direct the Collector to procure the occupation and use of the

same for such term as it shall think fit, not exceeding three years from the commencement of such occupation.

(2) The Collector shall thereupon give notice in writing to the persons interested in such land of the purpose for which the same is needed, and shall, for the occupation and use thereof for such term as aforesaid, and for the materials (if any) to be taken therefrom, pay to them such compensation, either in a gross sum of money, or by monthly or other periodical payments, as shall be agreed upon in writing between him and such persons respectively.

(3) In case the Collector and the persons interested differ as to the sufficiency of the compensation or apportionment thereof, the Collector shall refer such difference to the decision of the Court.

Power to enter and take possession, and compensation on restoration.

36. (1) On payment of such compensation, or on executing such agreement, or on making a reference under section 35.

the Collector may enter upon and take possession of the land, and use or permit the use thereof in accordance with the terms of the said notice.

(2) On the expiration of the term, the Collector shall make or tender to the persons interested compensation for the damage (if any) done to the land and not provided for by the agreement, and shall restore the land to the persons interested therein :

Provided that, if the land has become permanently unfit to be used for the purpose for which it was used immediately before the commencement of such term, and if the persons interested shall so require, the Local Government shall proceed under this Act to acquire the land as if it was needed permanently for a public purpose or for a Company.

37. In case the Collector and persons interested differ, as to the condition of the land at the expiration of the term, or as to any matter connected with the said agreement, the Collector shall refer such difference to the decision of the Court.

PART VII.

ACQUISITION OF LAND FOR COMPANIES.

38. (1) Subject to such rules as the Governor General of India in Council may from time to time prescribe in this behalf, the Local Government may authorize any officer of any Company desiring to acquire land for its purposes to exercise the powers conferred by section 4.

Company may be authorized to enter and survey.

(2) In every such case section 4 shall be construed as if for the words "for such purpose" the words "for the purposes of the Company" were substituted; and section 5 shall be construed as if after the words "the officer" the words "of the Company" were inserted.

39. The provisions of sections 6 to 37 (both inclusive) shall not be put in force in order to acquire land for any Company, unless with the previous consent of the Local Government, nor unless the Company shall have executed the agreement hereinafter mentioned.

40. (1) Such consent shall not be given unless the Local Government be satisfied, by an enquiry held as hereinafter provided,—

(a) that such acquisition is needed for the construction of some work, and

(b) that such work is likely to prove useful to the public.

(2) Such enquiry shall be held by such officer and at such time and place as the Local Government shall appoint.

(3) Such officer may summon and enforce the attendance of witnesses and compel the production of documents by the same means and, as far as possible, in the same manner as is provided by the Code of Civil Procedure in the IV of 1882. case of a Civil Court.

41. Such officer shall report to the Local Government the result of the enquiry, and, if the Local Government is satisfied that the proposed acquisition is needed for the construction of a work, and that such work is likely to prove useful to the public, it shall, subject to such rules as the Governor General of India in Council may from time to time prescribe in this behalf, require the Company to enter into an agreement with the Secretary of State for India in Council, providing to the satisfaction of the Local Government for the following matters, namely :—

(1) the payment to Government of the cost of the acquisition;

(2) the transfer, on such payment, of the land to the Company;

(3) the terms on which the land shall be held by the Company;

(4) the time within which, and the conditions on which, the work shall be executed and maintained; and

(5) the terms on which the public shall be entitled to use the work.

42. Every such agreement shall, as soon as may be after its execution, be published in the Gazette of India, and also in the

Publication of agreement.

local official Gazette, and shall thereupon (so far as regards the terms on which the public shall be entitled to use the work) have the same effect as if it had formed part of this Act.

43. The provisions of sections 39 to 42, both inclusive, shall not apply, and the corresponding sections of the Land Acquisition Act, 1870, shall be deemed never to have applied, to the acquisition of land for any Railway or other Company, for the purposes of which, under any agreement between such Company and the Secretary of State for India in Council, the Government is, or was, bound to provide land.

44. In the case of the acquisition of land for the purposes of a Railway Company, the existence of such an agreement as is mentioned in section 43 may be proved by the production of a printed copy thereof purporting to be printed by order of Government.

PART VIII.

MISCELLANEOUS.

45. (1) Service of any notice under this Act shall be made by delivering or tendering a copy thereof signed, in the case of a notice under section 4, by the officer therein mentioned, and, in the case of any other notice, by or by order of the Collector or the Judge.

(2) Whenever it may be practicable, the service of the notice shall be made on the person therein named.

(3) When such person cannot be found, the service may be made on any adult male member of his family residing with him; and, if no such adult male member can be found, the notice may be served by fixing the copy on the outer door of the house in which the person therein named ordinarily dwells or carries on business, or by fixing a copy thereof in some conspicuous place in the office of the officer aforesaid or of the Collector or in the court-house, and also in some conspicuous part of the land to be acquired:

Provided that, if the Collector or Judge shall so direct, a notice may be sent by post, in a letter addressed to the person named therein and registered under Part III of the Indian Post Office Act, 1866, and service of it may be proved by the production of the addressee's receipt.

46. Whoever wilfully obstructs any person in doing any of the acts authorized by section 4 or section 8, or wilfully fills up, destroys, damages or displaces any trench or mark made under section 4, shall, on conviction before a Magistrate, be liable to imprisonment for any term not exceeding one month, or to fine not exceeding fifty rupees, or to both.

47. If the Collector is opposed or impeded in taking possession under this Act of any land, he shall, if a Magistrate, enforce the surrender of the land to himself, and, if not a Magistrate, he shall apply to a Magistrate or (within the towns of Calcutta, Madras and Bombay) to the Commissioner of Police, and such Magistrate or Commissioner (as the case may be) shall enforce the surrender of the land to the Collector.

48. (1) Except in the case provided for in section 36, the Government shall be at liberty to withdraw from the acquisition of any land of which possession has not been taken.

(2) Whenever the Government withdraws from any such acquisition, the Collector shall determine the amount of compensation due for the damage suffered by the owner in consequence of the notice or of any proceedings thereunder, and shall pay such amount to the person interested, together with all costs reasonably incurred by him in the prosecution of the proceedings under this Act relating to the said land.

(3) The provisions of Part III of this Act shall apply, so far as may be, to the determination of the compensation payable under this section.

49. (1) The provisions of this Act shall not be put in force for the purpose of acquiring a part only of any house, manufactory or other building, if the owner desire that the whole of such house, manufactory or building shall be so acquired:

Provided that the owner may, at any time before the Collector has made his award under section 11, by notice in writing, withdraw or modify his expressed desire that the whole of such house, manufactory or building shall be so acquired:

Provided also that, if any question shall arise as to whether any land proposed to be taken under this Act does or not form part of a house, manufactory or building within the meaning of this section, the Collector shall refer the determination of such question to the Court and shall not take possession of such land until after the question has been determined.

In deciding on such a reference the Court shall have regard to the question whether the land proposed to be taken is reasonably required for the full and unimpaired use of the house, manufactory or building.

(2) If, in the case of any claim under section 23, sub-section (1), thirdly, by a person interested, on account of the severing of the land to be acquired from his other land, the Local Government is of opinion that the claim is unreasonable or excessive, it may, at any time before the Collector has made his

award, order the acquisition of the whole of the land of which the land first sought to be acquired forms a part.

(3) In the case last hereinbefore provided for, no fresh declaration or other proceedings under sections 6 to 10, both inclusive, shall be necessary; but the Collector shall without delay furnish a copy of the order of the Local Government to the person interested, and shall thereafter proceed to make his award under section 11.

50. (1) Where the provisions of this Act are put in force for the purpose of acquiring land at cost of a local authority or Company, the cost of any fund controlled or managed by a local authority or of any Company, the charges of and incidental to such acquisition shall be defrayed from or by such fund or Company.

(2) In any proceeding held before a Collector or Court in such cases the local authority or Company concerned may appear and adduce evidence for the purpose of determining the amount of compensation:

Provided that no such local authority or Company shall be entitled to demand a reference under section 18.

51. No award or agreement made under this Act shall be chargeable with stamp-duty, and no person claiming under any such award or agreement shall be liable to pay any fee for a copy of the same.

52. No suit or other proceeding shall be commenced or prosecuted against any person for anything done in pursuance of Act.

of this Act, without giving to such person a month's previous notice in writing of the intended proceeding, and of the cause thereof, nor after tender of sufficient amends.

53. Save in so far as they may be inconsistent with anything contained in this Act, the provisions of the Code of Civil Procedure, the Code of Civil Procedure XIV of 1882, shall apply to all proceedings before the Court under this Act.

54. Subject to the provisions of the Code of Civil Procedure applicable to appeals from original decrees, an appeal shall lie to the High Court from the award or from any part of the award of the Court in any proceedings under this Act.

55. (1) The Local Government shall have power to make rules consistent with this Act for the guidance of officers in all matters connected with its enforcement, and may from time to time alter and add to the rules so made.

(2) The power to make, alter and add to rules under sub-section (1) shall be subject to the condition of the rules being made, altered or added to after previous publication.

(3) All such rules, alterations and additions shall, when sanctioned by the Governor General in Council, be published in the official Gazette, and shall thereupon have the force of law.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Weather Review of India for the week ending at 8 a.m. on
Saturday, January 13th, 1894.**

For the first three days of the week under review the weather was fine and settled throughout the whole Indian region, but on the morning of January 10th a large shallow depression entered North-West India from the westward and conditions became unsettled over the Punjab. Showers fell at several stations on and near the Hills, but the storm was at no time serious and the unsettled weather was confined to a small part of the country. Except in North-West India the general weather was fine, but quite at the close of the week, slightly disturbed weather appeared over the south-west of the Bay and rain fell along the South Carnatic Coast. The mean temperature was generally below the normal, but the departures from the average on each day were small.

The chart of the 7th showed that pressure was decreasing briskly along the foot of the North-West Himalayas, but that elsewhere the changes were small. Pressure was highest over North-West India and thence decreased south-eastward, and was lowest over the south of the Bay. The winds blew from the normal directions and the weather was fine, except at Wellington and Rajahmundry where light showers had fallen. On the 8th the barometer was falling in most parts of the country, but the general distribution was not much changed and remained fairly normal. The winds also continued to blow from the usual directions and there was no rain in any part of the country. On the 9th the barometric changes were generally unimportant, and the general dis-

tribution was little changed, but at Chaman and in Sind the barometric fall had been brisk, and the high pressure area which previously occupied North-West India had commenced an easterly advance towards the Central Provinces. The winds were becoming variable over North-West India, but otherwise the directions were unchanged. There was again no rain reported. On the 10th a large shallow depression entered Sind, and the barometer fell over Sind and the Punjab with very cloudy weather and irregularly cyclonic winds. Rain was falling at Quetta, Chaman and Cherat. In other parts of India the weather was fair with a rising barometer and fairly normal winds. The chart of the 11th showed that the depression had advanced eastward to Western Rajputana and had become even shallower than on the preceding day. The influence of the depression was, however, more widely felt, and rain was reported from Srinagar, Murree, Simla, Rawalpindi, Sialkote, Montgomery and Lahore. At Rawalpindi the fall exceeded 2 inches. As on the previous day, the winds, weather, etc., in other parts of India were fairly normal and quiet. On the morning of Friday the 12th, pressure was giving way almost everywhere. The depression over the western desert though still traceable had become exceedingly slight and exercised practically no influence on the weather. Snow showers were reported from the stations on the North-West Himalayas and rain showers from the foot of the Hills and from one or two places in the Carnatic. On the 13th the distribution of pressure was very similar to that existing at the commencement of the week, pressure being highest over the Punjab and lowest over the south of the Bay. Over a large part of Northern and Central India readings were very uniform. The winds were about normal. Unsettled conditions and showers of rain were reported from the Carnatic and Ceylon and from the east of the Punjab. Negapatam had received over 3 and Cuddalore over 1 inch. In North-West India the amounts were very small.

Temperature.—The following table shows the variations of the mean temperature from the normal on each day of the week for the different Provinces of India :—

PROVINCE.	JANUARY, 1894.							Mean variation of week.

	0	0	0	0	0	0	0	0
MEAN FOR WHOLE OF INDIA	—1·8	—1·9	—0·9	—0·4	0	+0·1	0	—0·7

From the above it will be seen that during the first four days of the week the mean temperature of the whole country was low, while on the remaining three days it was about normal. The provincial variations show that over the

Central Provinces the temperature throughout was considerably below the normal average, but that in all other places the variations from the normal were small.

Rain.—Unlike last week the period under discussion has been one of light and restricted rainfall. No depression has entered India at all comparable with the disturbance which affected the weather during the preceding week. The storm which crossed the Indus Valley in the middle of the week was shallow and its influence was confined to North-West India, so that while Sind and the Punjab had fairly general light rain, the weather in other parts of the North-West India was fair to cloudy. Outside North-West India any rain which fell was light and scattered and due to local causes. Rain of this character was reported from parts of the Central Provinces and of the Peninsula, but in north-east India even this light scattered rainfall was wanting, and over the whole of Burma, of Assam, of Bengal and of the North-Western Provinces no rain whatever was received. The rainfall table at the close of the summary shows that of the fifty-two rainfall divisions only eleven had any rain, and of these eleven divisions only four had an average actual fall per division of more than one-tenth of an inch of rain. The heaviest average actual rainfall for the week was reported from the East Coast (south) which division had a fall of 0·45". This was followed by 0·32" in the Hill districts of the Punjab and by 0·30" in the north-west of the Punjab. In the remaining divisions the falls were unimportant. In South-Central Madras there was a trifling excess of the actual over the normal rainfall of the week, but in all other divisions there was a deficiency. The anticipated rainfall for the present week, except in North-West India where it is moderate, is small, and the practical or absolute absence of rain is hence generally unimportant.

The total rainfall from the beginning of the year up to the present time is in considerable excess of the normal over North-West India and over the east of the Peninsula, but is in defect elsewhere.

The only heavy total recorded during the week was 3·57 inches at Negapatam.

W. L. DALLAS,

Assistant Meteorological Reporter to the
Government of India.

Simla, the 18th January, 1894.

E. C. BUCK,

Secretary to the Government of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 20th January.*—Rainfall light in Tanjore, scattered showers in South Arcot, Coimbatore, Nilgiris and Malabar. Sowings continue in places. Standing crops generally good. Harvests continue with fair to average outturn. Pasture and fodder sufficient. Agricultural stock generally in good condition. Prices have generally fallen slightly.

Bombay.—*For week ending 24th January.*—Slight rain throughout Sind. Standing crops suffering from want of rain or damaged by winds, blight or rats in parts of three districts; prospects otherwise good. Sowing of late crops progressing in two, and reaping of early or late crops in six, districts. Lands being prepared for next season in three districts. Cotton-picking continues in four districts. Agricultural stock good, and fodder sufficient except in one district. Prices steady except in two districts.

Bengal.—*For week ending 20th January.*—There was no rain during the week, with the exception of a few light showers in Gaya and Shahabad on the 20th instant. The winter rice harvest is practically over. Reports of the outturn are, as before, satisfactory. Spring crops are doing well, but a little rain would be beneficial. Prospects of poppy continue favourable. In Monghyr some damage to the spring crops and poppy has been done by insects. The harvesting of sugarcane, potatoes and the earlier spring crops is in progress. The price of common rice was almost stationary during the week. Cattle are generally reported to be in good condition, and fodder and water-supplies are sufficient. The numbers on relief works and in receipt of gratuitous relief during the week were—**FARIDPUR (MADARIPUR SUB-DIVISION)**—*Relief works*, 432 men, against 1,250 men in the previous week. *Gratuitous relief*, 28 men, 187 women and 119 children, total 334, against 145 in the previous week; **BACKERGUNGE (SADAR AND PIROJPUR SUB-DIVISIONS)**—*Gratuitous relief*, 103 men, 554 women and 821 children, total 1,478, against 1,202 in the previous week.

North-Western Provinces and Oudh.—*For week ending 24th January.*—Weather cold and cloudy. Rain has fallen in nearly every district and has been beneficial to the crops. Poppy doing well. Irrigation and sugarcane-pressing continue. Spring crops are flourishing in all districts, except in Jhansi where they are beginning to suffer from rust. Prospects favourable. Supplies and fodder sufficient. Prices stationary.

Punjab.—*For week ending 24th January.*—Rain has fallen all over the province. Harvesting of autumn crops over. Standing crops have much benefited by rain and are flourishing. Prospects are said to be excellent. The crops are reported to have been injured by field rats in parts of Lahore. Cattle are generally in good condition, and fodder is sufficient throughout the province.

Poppy crops in good condition. Prices rising in one district, falling in another; stationary elsewhere.

Central Provinces.—*For week ending 24th January.*—Weather generally cloudy and cool. Rain wanted for the winter crops in Bilaspur; the damage caused to the winter crops by rust is extending. Harvesting of the linseed crop has commenced in one district. Prices steady.

Burma.—*For week ending 20th January.*—No rain has fallen. Reaping and threshing still continue in Lower Burma. Crop prospects unchanged. In Upper Burma reaping and threshing of wet-weather paddy is progressing. Ploughing and sowing of dry-weather crop also in progress. Sesamum and *jowar* (*Sorghum vulgare*) being reaped in Lower Chindwin and Myingyan. Except for slight damage caused by insects in Yamethin and Myingyan the standing crops are in good condition, and prospects generally good. Fodder and water sufficient. In Lower Burma the price of rice has fallen considerably in Amherst and slightly in Pegu and Prome, while it has risen slightly in Thongwa; elsewhere prices are stationary. In Upper Burma the price has fallen in two districts; elsewhere variations are slight.

Assam.—*For week ending 23rd January.*—Weather seasonable. Crop prospects good. Condition of cattle normal. Fodder scarce in places. Water sufficient.

Mysore and Coorg.—*For week ending 24th January.*—**MYSORE:** Standing crops in good condition and prospects favourable. Harvesting continues. Rice sown in parts of three districts. Prices stationary.

COORG: Reaping of rice nearly completed. Picking of coffee continues. Water and fodder sufficient for cattle. Slight fall in prices.

Berar and Hyderabad.—*For week ending 24th January.*—**BERAR:** Weather warm and cloudy in Akola, but cool elsewhere. Cotton-picking and threshing of *jowar* (*Sorghum vulgare*) not yet over. Preparation of land for the ensuing crop has commenced in Basim. Weeding operations still progressing in Akola. Supply of water ample. Fodder reported insufficient in Akola. Cattle generally healthy. Prices almost steady.

HYDERABAD: No rain during the week. Sowing of hot-weather crops continues. Spring crops in good condition. Prices stationary.

Central India.—*For week ending 24th January.*—Rain fell during the week in Gwalior, Bhopal, Bundelkhand and Baghelkhand. The fall seems to have been injurious to the crops in Bhopal. More rain is needed in Gwalior. Agricultural operations at a standstill in Bhopal, but in progress elsewhere. The wheat crop in Bhopal is slightly damaged by blight. Crops in Baghelkhand and Goona slightly damaged by rain and insects. The condition of agricultural stock in parts of Gwalior is indifferent, but is fairly good in other parts of Central India. Opium generally in good condition. Prices of food-grains low in Bhopal, falling in Western Malwa, rising in Goona and steady in other parts.

Rajputana.—*For week ending 24th January.*—Rainfall moderate in parts. Agricultural operations, standing crops, and cattle, satisfactory. Prospects generally good. Pasturage or fodder sufficient, except in one tehsil of Kotah where fodder is insufficient. Prices falling in three States, risen in two, and steady elsewhere.

Kashmir.—*For week ending 23rd January.*—Snow and rain during the week. Prices favourable.

Nepal.—*For week ending 20th January.*—Weather slightly cloudy. Prospects good.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1890, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1870:—

REVENUE DEPARTMENT.

[Revised Advertisement.]

A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes and Volume VI, Parts I, II, III & IV of the Dictionary are now ready at the Office of the Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs-45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, Rs-6 and 8 shillings respectively will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and half of G; Volume IV, latter half of G to middle of L, and Volume V contains the latter half of L to end of O; Vol. VI (which will consist of four parts), Part I, contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year, but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a glossary of the vernacular and European names of the plants, animals, and minerals of India, and as such, will be a work of reference, which, it is hoped, may prove of considerable value.

(2) But all proceedings commenced, officers appointed or authorised, agreements published and rules made under the said Land Acquisition Act shall, as far as may be, be deemed to have been respectively commenced, appointed or authorized, published and made under this Act.

(3) Any enactment or document referring to the said Land Acquisition Act or to any enactment thereby repealed shall, so far as may be, be construed to refer to this Act or to the corresponding portion thereof.

3. In this Act, unless there is something repugnant in the subject or context,—

Definitions.

(a) the expression "land" includes benefits to arise out of land, and things attached to the earth or permanently fastened to anything attached to the earth:

(b) the expression "person interested" includes all persons claiming an interest in compensation to be made on account of the acquisition of land under this Act; and a person shall be deemed to be interested in land if he is interested in an easement affecting the land:

(c) the expression "Collector" means the Collector of a district, and includes a Deputy Commissioner and any officer specially appointed by the Local Government to perform the functions of a Collector under this Act:

(d) the expression "Court" means a principal Civil Court of original jurisdiction, unless the Local Government has appointed (as it is hereby empowered to do) a special judicial officer within any specified local limits to perform the functions of the Court under this Act:

(e) the expression "Company" means a Company registered under the Indian Companies Act, 1882, or under the (English) Companies Acts, 1862 to 1890, or incorporated by an Act of Parliament or of the Governor General in Council, or by Royal Charter or Letters Patent: VI of 1882.

(f) the expression "public purpose" includes the provision of village-sites in districts in which the Local Government shall have declared by notification in the official Gazette that it is customary for the Government to make such provision: and

(g) the following persons shall be deemed persons "entitled to act" as and to the extent hereinafter provided (that is to say)—

trustees for other persons beneficially interested shall be deemed the persons entitled to act with reference to any such case, and that to the same extent as the persons beneficially interested could have acted if free from disability:

a married woman, in cases to which the English law is applicable, shall be deemed the person so entitled to act, and, whether of full age or not, to the same extent as if she were unmarried and of full age; and

the guardians of minors and the committees or managers of lunatics or idiots shall be deemed respectively the persons so entitled to act, to the same extent as the minors, lunatics or idiots themselves, if free from disability, could have acted:

Provided that—

(i) no person shall be deemed "entitled to act" whose interest in the subject-matter shall be shown to the satisfaction of the Collector or Court to be adverse to the interest of the person interested for whom he would otherwise be entitled to act;

*The Land Acquisition Act, 1894.**(Part III.—Reference to Court and Procedure thereon.—Sections 18-21.)*

been made, may, on the expiration of fifteen days from the publication of the notice mentioned in section 9, sub-section (1), take possession of any waste or arable land needed for public purposes or for a Company. Such land shall thereupon vest absolutely in the Government, free from all encumbrances.

(2) Whenever, owing to any sudden change in the channel of any navigable river or other unforeseen emergency, it becomes necessary for any Railway Administration to acquire the immediate possession of any land for the maintenance of their traffic or for the purpose of making thereon a river-side or ghat station, or of providing convenient connection with or access to any such station, the Collector may, immediately after the publication of the notice mentioned in sub-section (1) and with the previous sanction of the Local Government, enter upon and take possession of such land, which shall thereupon vest absolutely in the Government free from all encumbrances ;

Provided that the Collector shall not take possession of any building or part of a building under this sub-section without giving to the occupier thereof at least forty-eight hours' notice of his intention so to do or such longer notice as may be reasonably sufficient to enable such occupier to remove his moveable property from such building without unnecessary inconvenience.

(3) In every case under either of the preceding sub-sections the Collector shall at the time of taking possession offer to the persons interested compensation for the standing crops and trees (if any) on such land and for any other damage sustained by them caused by such sudden dispossession and not excepted in section 24 ; and, in case such offer is not accepted, the value of such crops and trees and the amount of such other damage shall be allowed for in awarding compensation for the land under the provisions herein contained.

PART III.**REFERENCE TO COURT AND PROCEDURE THEREON.**

18. (1) Any person interested who has not accepted the award may, by written application to the Collector, require that the matter be referred by the Collector for the determination of the Court, whether his objection be to the measurement of the land, the amount of the compensation, the persons to whom it is payable, or the apportionment of the compensation among the persons interested.

(2) The application shall state the grounds on which objection to the award is taken :

Provided that every such application shall be made,—

- (a) if the person making it was present or represented before the Collector at the time when he made his award, within six weeks from the date of the Collector's award ;
- (b) in other cases, within six weeks of the receipt of the notice from the Collector under section 12, sub-section (2), or within six months from the date of the Collector's award, whichever period shall first expire.

19. (1) In making the reference, the Collector shall state, for the information of the Court, in writing under his hand,—

- (a) the situation and extent of the land, with particulars of any trees, buildings or standing crops thereon ;
- (b) the names of the persons whom he has reason to think interested in such land ;
- (c) the amount awarded for damages and paid or tendered under sections 5 and 17, or either of them, and the amount of compensation awarded under section 11 ; and,
- (d) if the objection be to the amount of the compensation, the grounds on which the amount of compensation was determined.

(2) To the said statement shall be attached a schedule giving the particulars of the notices served upon, and of the statements in writing made or delivered by, the parties interested respectively.

20. The Court shall thereupon cause a notice, specifying the day on which the Court will proceed to determine the objection, and directing their appearance before the Court on that day, to be served on the following persons, namely :—

- (a) the applicant ;
- (b) all persons interested in the objection, except such (if any) of them as have consented without protest to receive payment of the compensation awarded ; and,
- (c) if the objection is in regard to the area of the land or to the amount of the compensation, the Collector.

21. The scope of the inquiry in every such proceeding shall be restricted to a consideration of the interests of the persons affected by the objection.

*The Land Acquisition Act, 1894.**(Part III.—Reference to Court and Procedure thereon.—Sections 22-28.)*

22. Every such proceeding shall take place in open Court, and all persons entitled to practise in any Civil Court in the province shall be entitled to appear, plead and act (as the case may be) in such proceeding.

23. (1) In determining the amount of compensation to be awarded for land acquired under this Act, the Court shall take into consideration—

first, the market-value of the land at the date of the publication of the declaration relating thereto under section 6;

secondly, the damage sustained by the person interested, by reason of the taking of any standing crops or trees which may be on the land at the time of the Collector's taking possession thereof;

thirdly, the damage (if any) sustained by the person interested, at the time of the Collector's taking possession of the land, by reason of severing such land from his other land;

fourthly, the damage (if any) sustained by the person interested, at the time of the Collector's taking possession of the land, by reason of the acquisition injuriously affecting his other property, moveable or immoveable, in any other manner, or his earnings;

fifthly, if, in consequence of the acquisition of the land by the Collector, the person interested is compelled to change his residence or place of business, the reasonable expenses (if any) incidental to such change; and

sixthly, the damage (if any) *bond fide* resulting from diminution of the profits of the land between the time of the publication of the declaration under section 6 and the time of the Collector's taking possession of the land.

(2) In addition to the market-value of the land, as above provided, the Court shall in every case award a sum of fifteen per centum on such market-value, in consideration of the compulsory nature of the acquisition.

24. But the Court shall not take into consideration—

first, the degree of urgency which has led to the acquisition;

secondly, any disinclination of the person interested to part with the land acquired;

thirdly, any damage sustained by him which, if caused by a private person, would not render such person liable to a suit;

fourthly, any damage which is likely to be caused to the land acquired, after the date

of the publication of the declaration under section 6, by or in consequence of the use to which it will be put;

fifthly, any increase to the value of the land acquired likely to accrue from the use to which it will be put when acquired;

sixthly, any increase to the value of the other land of the person interested likely to accrue from the use to which the land acquired will be put; or,

seventhly, any outlay or improvements on, or disposal of, the land acquired, commenced, made or effected without the sanction of the Collector after the date of the publication of the declaration under section 6.

25. (1) When the applicant has made a claim Rules as to amount to compensation, pursuant to any notice given under section 9, the amount awarded to him by the Court shall not exceed the amount so claimed or be less than the amount awarded by the Collector under section 11.

(2) When the applicant has refused to make such claim, or has omitted without sufficient reason (to be allowed by the Judge) to make such claim, the amount awarded by the Court shall in no case exceed the amount awarded by the Collector.

(3) When the applicant has omitted for a sufficient reason (to be allowed by the Judge) to make such claim, the amount awarded to him by the Court shall not be less than, and may exceed, the amount awarded by the Collector.

26. Every award under this Part shall be in writing signed by the Judge, and shall specify the amount awarded under clause *first* of sub-section (1) of section 23, and also the amounts (if any) respectively awarded under each of the other clauses of the same sub-section, together with the grounds of awarding each of the said amounts.

27. (1) Every such award shall also state the amount of costs incurred in the proceedings under this Part, and by what persons and in what proportions they are to be paid.

(2) When the award of the Collector is not upheld, the costs shall ordinarily be paid by the Collector, unless the Court shall be of opinion that the claim of the applicant was so extravagant or that he was so negligent in putting his case before the Collector that some deduction from his costs should be made or that he should pay a part of the Collector's costs.

28. If the sum which, in the opinion of the Court, the Collector ought to have awarded as compensation is in excess of the sum which the Collector did award as compensation, the award of the Court may direct

The Land Acquisition Act, 1894.

(Part I.V—Apportionment of Compensation.—Sections 29-30. Part V.—Payment.—Sections 31-32.)

that the Collector shall pay interest on such excess at the rate of six per centum per annum from the date on which he took possession of the land to the date of payment of such excess into Court.

PART IV.**APPORTIONMENT OF COMPENSATION.**

29. Where there are several persons interested, if such persons agree in the apportionment of the compensation, the particulars of such apportionment shall be specified in the award, and as between such persons the award shall be conclusive evidence of the correctness of the apportionment.

30. When the amount of compensation has been settled under section 11, if any dispute arises as to the apportionment of the same or any part thereof, or as to the persons to whom the same or any part thereof is payable, the Collector may refer such dispute to the decision of the Court.

PART V.**PAYMENT.**

31. (1) On making an award under section 11, the Collector shall tender payment of the compensation awarded by him to the persons interested entitled thereto according to the award, and shall pay it to them unless prevented by some one or more of the contingencies mentioned in the next sub-section.

(2) If they shall not consent to receive it, or if there be no person competent to alienate the land, or if there be any dispute as to the title to receive the compensation or as to the apportionment of it, the Collector shall deposit the amount of the compensation in the Court to which a reference under section 18 would be submitted:

Provided that any person admitted to be interested may receive such payment under protest as to the sufficiency of the amount:

Provided also that no person who has received the amount otherwise than under protest shall be entitled to make any application under section 18:

Provided also that nothing herein contained shall affect the liability of any person, who may receive the whole or any part of any compensation awarded under this Act, to pay the same to the person lawfully entitled thereto.

(3) Notwithstanding anything in this section, the Collector may, with the sanction of the Local Government, instead of awarding a money compensation in respect of any land,

make any arrangement with a person having a limited interest in such land, either by the grant of other lands in exchange, the remission of land-revenue on other lands held under the same title, or in such other way as may be equitable having regard to the interests of the parties concerned.

(4) Nothing in the last foregoing sub-section shall be construed to interfere with or limit the power of the Collector to enter into any arrangement with any person interested in the land and competent to contract in respect thereof.

32. (1) If any money shall be deposited in Court under sub-section (2) of the last preceding section and it appears that the land in respect whereof the same was awarded belonged to any person who had no power to alienate the same, the Court shall—

(a) order the money to be invested in the purchase of other lands to be held under the like title and conditions of ownership as the land in respect of which such money shall have been deposited was held, or

(b) if such purchase cannot be effected forthwith, then in such Government or other approved securities as the Court shall think fit;

and shall direct the payment of the interest or other proceeds arising from such investment to the person or persons who would for the time being have been entitled to the possession of the said land, and such moneys shall remain so deposited and invested until the same be applied—

(i) in the purchase of such other lands as aforesaid; or

(ii) in payment to any person or persons becoming absolutely entitled thereto.

(2) In all cases of moneys deposited to which this section applies the Court shall order the costs of the following matters, including therein all reasonable charges and expenses incident thereto, to be paid by the Collector, namely:—

(a) the costs of such investments as aforesaid;

(b) the costs of the orders for the payment of the interest or other proceeds of the securities upon which such moneys are for the time being invested, and for the payment out of Court of the principal of such moneys, and of all proceedings relating thereto, except such as may be occasioned by litigation between adverse claimants.

The Land Acquisition Act, 1894.

(Part V.—Payment.—Sections 33-34. Part VI.—Temporary Occupation of Land.—Sections 35-37. Part VII.—Acquisition of Land for Companies.—Sections 38-40.)

33. When any money shall have been deposited in Court under this Act for any cause other than that mentioned in the last preceding section, the Court may, on the application of any party interested or claiming an interest in such money, order the same to be invested in such Government or other approved securities as it may think proper, and may direct the interest or other proceeds of any such investment to be accumulated and paid in such manner as it may consider will give the parties interested therein the same benefit therefrom as they might have had from the land in respect whereof such money shall have been deposited or as near thereto as may be.

34. When the amount of such compensation is not paid or deposited on or before taking possession of the land, the Collector shall pay the amount awarded with interest thereon at the rate of six per centum per annum from the time of so taking possession until it shall have been so paid or deposited.

PART VI.

TEMPORARY OCCUPATION OF LAND.

* 35. (1) Subject to the provisions of Part VII of this Act, whenever it appears to the Local Government that the temporary occupation and use of any waste or arable land are needed for any public purpose, or for a Company, the Local Government may direct the Collector to procure the occupation and use of the same for such term as it shall think fit, not exceeding three years from the commencement of such occupation.

(2) The Collector shall thereupon give notice in writing to the persons interested in such land of the purpose for which the same is needed, and shall, for the occupation and use thereof for such term as aforesaid, and for the materials (if any) to be taken therefrom, pay to them such compensation, either in a gross sum of money, or by monthly or other periodical payments, as shall be agreed upon in writing between him and such persons respectively.

(3) In case the Collector and the persons interested differ as to the sufficiency of the compensation or apportionment thereof, the Collector shall refer such difference to the decision of the Court.

36. (1) On payment of such compensation, or on executing such agreement, or on making a reference under section 35,

the Collector may enter upon and take possession of the land, and use or permit the use thereof in accordance with the terms of the said notice.

(2) On the expiration of the term, the Collector shall make or tender to the persons interested compensation for the damage (if any) done to the land and not provided for by the agreement, and shall restore the land to the persons interested therein :

Provided that, if the land has become permanently unfit to be used for the purpose for which it was used immediately before the commencement of such term, and if the persons interested shall so require, the Local Government shall proceed under this Act to acquire the land as if it was needed permanently for a public purpose or for a Company.

37. In case the Collector and persons interested differ as to the condition of the land at the expiration of the term, or as to any matter connected with the said agreement, the Collector shall refer such difference to the decision of the Court.

PART VII.

ACQUISITION OF LAND FOR COMPANIES.

38. (1) Subject to such rules as the Governor General of India in Council may from time to time prescribe in this behalf, the Local Government may authorize any officer of any Company desiring to acquire land for its purposes to exercise the powers conferred by section 4.

(2) In every such case section 4 shall be construed as if for the words "for such purpose" the words "for the purposes of the Company" were substituted; and section 5 shall be construed as if after the words "the officer" the words "of the Company" were inserted.

39. The provisions of sections 6 to 37 (both inclusive) shall not be put in force in order to acquire land for any Company, unless with the previous consent of the Local Government, nor unless the Company shall have executed the agreement hereinafter mentioned.

40. (1) Such consent shall not be given unless the Local Government be satisfied, by an enquiry held as hereinafter provided,—

(a) that such acquisition is needed for the construction of some work, and

(b) that such work is likely to prove useful to the public.

The Land Acquisition Act 1894.

(Part VII.—Acquisition of Land for Companies.—Sections 41-44. Part VIII.—Miscellaneous.—Sections 45-48.)

(2) Such enquiry shall be held by such officer and at such time and place as the Local Government shall appoint.

(3) Such officer may summon and enforce the attendance of witnesses and compel the production of documents by the same means and, as far as possible, in the same manner as is provided by the Code of Civil Procedure in the case of a Civil Court.

41. Such officer shall report to the Local Government the result of the enquiry, and, if the Local Government is satisfied that the proposed acquisition is needed for the construction of a work, and that such work is likely to prove useful to the public, it shall, subject to such rules as the Governor General of India in Council may from time to time prescribe in this behalf, require the Company to enter into an agreement with the Secretary of State for India in Council, providing to the satisfaction of the Local Government for the following matters, namely:—

- (1) the payment to Government of the cost of the acquisition;
- (2) the transfer, on such payment, of the land to the Company;
- (3) the terms on which the land shall be held by the Company;
- (4) the time within which, and the conditions on which, the work shall be executed and maintained; and
- (5) the terms on which the public shall be entitled to use the work.

42. Every such agreement shall, as soon as may be after its execution, be published in the Gazette of India, and also in the local official Gazette, and shall thereupon (so far as regards the terms on which the public shall be entitled to use the work) have the same effect as if it had formed part of this Act.

43. The provisions of sections 39 to 42, both inclusive, shall not apply, and the corresponding sections of the Land Acquisition Act, 1870, shall be deemed never to have applied, to the acquisition of land for any Railway or other Company, for the purposes of which, under any agreement between such Company and the Secretary of State for India in Council, the Government is, or was, bound to provide land.

44. In the case of the acquisition of land for the purposes of a Railway Company, the existence of such an agreement as is mentioned in section 43 may be proved by the production of a printed copy thereof purporting to be printed by order of Government.

PART VIII.

MISCELLANEOUS.

45. (1) Service of any notice under this Act shall be made by delivering or tendering a copy thereof signed, in the case of a notice under section 4, by the officer therein mentioned, and, in the case of any other notice, by or by order of the Collector or the Judge.

(2) Whenever it may be practicable, the service of the notice shall be made on the person therein named.

(3) When such person cannot be found, the service may be made on any adult male member of his family residing with him; and, if no such adult male member can be found, the notice may be served by fixing the copy on the outer door of the house in which the person therein named ordinarily dwells or carries on business, or by fixing a copy thereof in some conspicuous place in the office of the officer aforesaid or of the Collector or in the court-house, and also in some conspicuous part of the land to be acquired:

Provided that, if the Collector or Judge shall so direct, a notice may be sent by post, in a letter addressed to the person named therein at his last known residence, address or place of business and registered under Part III of the Indian Post Office Act, 1866, and service of it may be proved by the production of the addressee's receipt.

46. Whoever wilfully obstructs any person in doing any of the acts authorized by section 4 or section 8, or wilfully fills up, destroys, damages or displaces any trench or mark made under section 4, shall, on conviction before a Magistrate, be liable to imprisonment for any term not exceeding one month, or to fine not exceeding fifty rupees, or to both.

47. If the Collector is opposed or impeded in taking possession under this Act of any land, he shall, if a Magistrate, enforce the surrender of the land to himself, and, if not a Magistrate, he shall apply to a Magistrate or (within the towns of Calcutta, Madras and Bombay) to the Commissioner of Police, and such Magistrate or Commissioner (as the case may be) shall enforce the surrender of the land to the Collector.

48. (1) Except in the case provided for in section 36, the Government shall be at liberty to withdraw from the acquisition of any land of which possession has not been taken.

(2) Whenever the Government withdraws from any such acquisition, the Collector shall

*The Land Acquisition Act, 1894.**(Part VIII.—Miscellaneous.—Sections 49—55.)*

determine the amount of compensation due for the damage suffered by the owner in consequence of the notice or of any proceedings thereunder, and shall pay such amount to the person interested, together with all costs reasonably incurred by him in the prosecution of the proceedings under this Act relating to the said land.

(3) The provisions of Part III of this Act shall apply, so far as may be, to the determination of the compensation payable under this section.

49. (1) The provisions of this Act shall not be put in force for the purpose of acquiring a part only of any house, manufactory or other building, if the owner desire that the whole of such house, manufactory or building shall be so acquired :

Provided that the owner may, at any time before the Collector has made his award under section 11, by notice in writing, withdraw or modify his expressed desire that the whole of such house, manufactory or building shall be so acquired :

Provided also that, if any question shall arise as to whether any land proposed to be taken under this Act does or not form part of a house, manufactory or building within the meaning of this section, the Collector shall refer the determination of such question to the Court and shall not take possession of such land until after the question has been determined.

In deciding on such a reference the Court shall have regard to the question whether the land proposed to be taken is reasonably required for the full and unimpaired use of the house, manufactory or building.

(2) If, in the case of any claim under section 23, sub-section (1), *thirdly*, by a person interested, on account of the severing of the land to be acquired from his other land, the Local Government is of opinion that the claim is unreasonable or excessive, it may, at any time before the Collector has made his award, order the acquisition of the whole of the land of which the land first sought to be acquired forms a part.

(3) In the case last hereinbefore provided for, no fresh declaration or other proceedings under sections 6 to 10, both inclusive, shall be necessary ; but the Collector shall without delay furnish a copy of the order of the Local Government to the person interested, and shall thereafter proceed to make his award under section 11.

50. (1) Where the provisions of this Act are put in force for the purpose of acquiring land at cost of a local authority or Company, the cost of any fund controlled or managed by a local authority or of any Company, the charges of and incidental to such acquisition shall be defrayed from or by such fund or Company.

(2) In any proceeding held before a Collector or Court in such cases the local authority or Company concerned may appear and adduce evidence for the purpose of determining the amount of compensation :

Provided that no such local authority or Company shall be entitled to demand a reference under section 18.

51. No award or agreement made under this Act shall be chargeable with stamp-duty, and no person claiming under any such award or agreement shall be liable to pay any fee for a copy of the same.

52. No suit or other proceeding shall be commenced or prosecuted for anything done in pursuance of Act, against any person for anything done in pursuance of this Act, without giving to such person a month's previous notice in writing of the intended proceeding, and of the cause thereof, nor after tender of sufficient amends.

53. Save in so far as they may be inconsistent with anything contained in this Act, the provisions of the Code of Civil Procedure shall apply to all proceedings before the Court under this Act. XIV of 1882.

54. Subject to the provisions of the Code of Civil Procedure applicable to appeals from original decrees, an appeal shall lie to the High Court from the award or from any part of the award of the Court in any proceedings under this Act. XIV of 1882.

55. (1) The Local Government shall have power to make rules consistent with this Act for the guidance of officers in all matters connected with its enforcement, and may from time to time alter and add to the rules so made.

(2) The power to make, alter and add to rules under sub-section (1) shall be subject to the condition of the rules being made, altered or added to after previous publication.

(3) All such rules, alterations and additions shall, when sanctioned by the Governor General in Council, be published in the official Gazette, and shall thereupon have the force of law.

The Hon'ble C. C. Stevens.
The Hon'ble J. Buckingham, C.I.E.
The Hon'ble A. S. Lethbridge, M.D., C.S.I.
The Hon'ble Gangadhar Rao Madhav Chitnavis.
The Hon'ble H. F. Clogstoun, C.S.I.
The Hon'ble W. Lee-Warner, C.S.I.
The Hon'ble P. Playfair.
The Hon'ble Mahārājā Partab Narayan Singh of Ajudhiā.

NEW MEMBER.

The Hon'ble MAHARAJA PARTAB NARAYAN SINGH of Ajudhiā took his
seat as an Additional Member of Council.

QUESTIONS AND ANSWERS.

The Hon'ble MR. BUCKINGHAM asked :—

Whether the Government of India will give some inducement to officers of the Covenanted Civil Service to remain permanently in Assam, either by giving an Assam allowance or else by equalising their pay with that of officers of equal standing in Bengal.

The Hon'ble SIR ANTONY MACDONNELL replied :—

"The best method of recruiting the Assam Commission has on several occasions come under the consideration of the Government of India. They will again consider it in communication with the Chief Commissioner. But they are not at present prepared to admit that either of the expedients suggested in the question, or any other of a similar character, is called for by the circumstances of the case."

The Hon'ble DR. RASHBEHARY GHOSE asked :—

(a) Whether the attention of the Government of India has been drawn to the case of *Empress v. Sagal Semba Sajow, Chowba Singh Duffadar, Nasipa Ningthamba, Madan Hijapa, Chanbangbang Sajow, Amu Filem and Sarba Singh* (known as the Balladhan Murder Case), which came before the High Court of Calcutta on appeal and also on reference, and in which all the prisoners were acquitted by Prinsep and Amir Ali, J.J.

(b) Whether, as suggested by the Hon'ble Judges, any inquiry has been made into the charges of misconduct preferred in the course of the trial against Khedam Singh and one Gossain, who were apparently employed by the Inspector, Bhoirub Chunder Dutt, during the police investigation, and one of whom, namely, Khedam Singh, was also employed as an interpreter to the Magistrates, Mr. Howell and Mr. Lees.

(c) Whether, as suggested by the Hon'ble Judges, any notice has been taken by the Local Government of the facts mentioned in their judgment, relative to the proceedings in the case of the police, the several Magistrates concerned, and the Sessions Judge, which have called forth a strong expression of opinion from the Hon'ble Judges.

(d) Whether, having regard to the numerous and serious irregularities in the course of the proceedings before and during the trial of the case, the Government of India do not deem it expedient, in the interests of justice and good Government, to take measures for preventing a recurrence of such irregularities, and, as a step in that direction, to see that inexperienced officers may not be appointed to positions and invested with powers involving grave responsibilities.

(e) Whether a money reward was offered for the detection of the offenders in the case; whether any police officer or officers have been allowed to participate in it; and, if any police officer or officers have been so allowed, whether Government do not regard such participation on the part of the police as extremely undesirable.

The Hon'ble SIR ANTONY MACDONNELL replied :—

"In answer to clause (a) of the Hon'ble Member's question I have to state that the Government of India have noticed the report of the case in the newspapers, and have perused the judgment of the Hon'ble Judges as published therein, but their attention has not been officially drawn to the case. The remarks of the Court, made in the course of the judgment, on the conduct of the officers concerned, were intended for the information of the Chief Commissioner of Assam, from whom the Hon'ble Judges thought they would no doubt receive proper notice.

"Clauses (b) and (c) were referred to the Chief Commissioner of Assam, who reports that some time ago he called upon the District Magistrate of

Cachar, who committed the accused, to submit any explanation ~~he~~ might have to offer on the subject of the irregularities committed by the police and himself in the course of the police investigation into the case, and also in the course of the proceedings before himself after the police had sent up the case for trial and prior to committal.

"In regard to the trial proceedings before the Sessions Judge, the Chief Commissioner has sent for the trial record, and also called upon the Officiating Sessions Judge who tried the case to submit any explanation he may desire to offer on the remarks of the High Court so far as they referred to the proceedings at the sessions trial. On receipt of the explanations of the District Magistrate and Officiating Sessions Judge the Chief Commissioner will pass such orders as he considers to be called for.

"When the Chief Commissioner has seen the trial record, which he has not yet received, he will determine what action should be taken on the suggestion of the Hon'ble Judges that certain serious charges brought against the persons named Khedam Singh and Gossain in the course of the sessions trial should be enquired into. At present the Chief Commissioner has no information as to the nature of those charges.

"In answer to clause (d), I have to say that the officer who committed the case to the sessions was of ten years' service, and not inexperienced. The Judge who tried the case had less experience, being of seven years' service; and his temporary employment during the absence on three months' privilege leave of the experienced permanent Judge was in part due to the fact that the European element in the Civil Service of Lower Bengal has for some years past been kept at a minimum.

"The Government of India will consider, in communication with the Chief Commissioner, in what manner it is possible to obviate the employment of junior and inexperienced officers in positions of difficulty and responsibility.

"In answer to clause (e), the Chief Commissioner reports that no police officer has participated in the rewards offered in connection with this case."

LAND ACQUISITION ACT, 1870, AMENDMENT BILL.

The Hon'ble SIR ALEXANDER MILLER presented the Report of the Select Committee on the Bill to amend the Land Acquisition Act, 1870. He said:—"It may be convenient to Hon'ble Members that I should state that I propose to ask the Council to take the Report into consideration this day week."

INDIAN PORTS ACT, 1889, AMENDMENT BILL.

The Hon'ble MR. WESTLAND moved that the Bill to amend the Indian Ports Act, 1889, be referred to a Select Committee consisting of the Hon'ble Sir Alexander Miller, the Hon'ble Mr. Stevens, the Hon'ble Mr. Clogstoun, the Hon'ble Mr. Playfair and the Mover. He said:—

"I trust that Your Excellency will permit me to make a short statement of the facts in connection with this Bill, because it is one that concerns in a small degree the trade of Calcutta; and it was introduced during the Simla session, in order that it might go through the preliminary formal stages before the Council met at Calcutta. The Bill, although it has a formidable title, really affects only the Balasore ports. There are several ports on the coast of Orissa, and they are, for the purpose of the application of the Indian Ports Act, divided into two groups—one being the ports of Cuttack, and the other those of Balasore of which the best known is Chandbali. These Balasore ports have been maintained for some time at a considerable loss to Government. It was in 1889 that the Government of India, perceiving from

one of its periodical returns that a considerable loss accrued to Government in the management of these ports, which had to be met by a grant from general revenues, called the attention of the Government of Bengal to the circumstance, and asked them to consider whether it might be possible to increase the revenues from the ports so as to cover the expenditure upon them. The Government of Bengal, looking probably at the nascent condition of the trade of the ports, was not very urgent in the matter, and preferred for a time to continue its grants. The matter did not come up again till the end of 1890, when the Government of Bengal reported that the only means of making the Balasore ports capable of meeting their expenditure would be to levy a toll of two annas upon each passenger passing through the ports. The Government of India, agreeing with the Government of Bengal, decided that such a measure would be a great encumbrance to the traffic, but they considered it desirable to adopt two measures to increase the existing rate of port-dues. The first was to raise the rate of dues up to the maximum which the Act permitted; they had formerly been taken at two annas in some of the ports and in others at three annas; it was now proposed to levy them at the full rate of four annas. This measure was covered by the old Act, and it was brought into effect from May 1st, 1893. The other measure required an amendment of the Act. It was to enable these dues to be levied upon steamers visiting the port, not once in sixty days, but once in thirty days. This is the amendment which is now before the Council.

"It may be convenient to the Council if I explain, by a short reference to the figures, what the actual deficit of the finances of these ports consists of. It is a deficit which I may say will not be nearly covered by the proposition to amend the law now made before the Council. Before the measure was adopted of which I have just spoken, the revenues of the ports of Balasore were only Rs. 2,500. From the 1st of May last the raising of the duties to four annas will bring in an additional Rs. 800; so that, without this amendment of the law, the revenues of the ports would be Rs. 3,300. Now, I shall set against this the necessary expenditure on the ports. In the first place, we have a Port-officer, who at present draws a salary of Rs. 4,200 a year. That salary may be adequate, but I do not think it can be called extravagant for the duties imposed by law upon the Port-officer; so that, in the first place, it is obvious that the Port-officer's pay alone takes much more than the whole revenue of the ports. Then we have to provide him with a boat, which costs Rs. 1,300 a year. There is then in addition to this a flagstaff, with signals, including lights at night, at Chandipur, which costs Rs. 300. Then there is a lighthouse on Short's Island, which is maintained chiefly for these ports, for which the annual establishment amounts to Rs. 3,400. These figures alone mount up to Rs. 9,200. Besides this, there is the maintenance of buildings, dockyard services, and petty expenses, and, taking all these together, I do not think it is possible to carry on the management of the ports under a cost of Rs. 10,000. I ought also to mention that the Short's Island lighthouse was built a short time ago at a cost of a lakh of rupees, and in respect to that capital expenditure not a single rupee is charged against the port funds. We have therefore at the very least a compulsory expenditure of Rs. 10,000 to meet which we have a revenue which amounts only to Rs. 3,300.

"The proposal which is now being made to amend the Act will enable us to levy further dues to the extent of Rs. 1,600, so that we will get in all Rs. 4,900, or less than half this compulsory expenditure.

"The proposals which were made in the Bill were referred to the Government of Bengal and through that Government to the commercial bodies in Calcutta, and we have received two letters which will be laid before the Select Committee. The first of these came from the Chamber of Commerce. The Chamber of Commerce offered the suggestion that in order to cover the deficit of the Balasore ports it might be desirable to combine with them the Cuttack ports. Unfortunately this proposal offers no solution of the difficulty, for, although in the Cuttack ports we have at present an excess revenue of Rs. 3,000, it is obvious that even with this excess it will not be possible to meet the deficit in the Balasore ports. It is possible under the existing law for the Lieutenant-

Governor to combine the ports of Cuttack and Balasore into one group so as to apply the excess revenue of the one set to meet the excess expenditure of the other; but whether it is expedient to do so will depend upon several considerations. If the trades of the two sets of ports are practically independent, it would not be right to tax one trade in order to support the other. The suggestion, however, is one that can be considered independently by the Government of Bengal, but, even if carried into effect, the present difficulty will not be met.

"The other criticism came from the managing agents of the two navigation companies which administer the steamers trading with the Balasore ports. They strongly protested against the measure, and urged that the deficiency should be met by reducing the port establishment. But I think that the figures I have given will shew that a reduction of the establishment within the limits of the revenue is an impossibility. The agents, I may mention, are under a misapprehension in one point, for they appear to think that sailing craft pay nothing towards the port. As a matter of fact, of the present port-dues one-third comes from sailing vessels and two-thirds from steamers. I admit that the present proposal to amend the law practically applies to steamers only, because it is this class of vessel alone which makes periodical passages to these ports. But, even if the amendment comes into operation, the steamers visiting the ports will be able to make four or five visits on the payment of one fee; and, as I have pointed out, the ports are in such an extreme state of deficit that it is only reasonable to call upon the trade to pay a larger proportion of dues, in order to meet the expenditure, and, even at the best, about half the expenditure will, until the trade of the ports greatly improves, have to be met by grants from general revenues.

"The details of the figures will be laid before the Select Committee and submitted to their judgment, and the matter will, I hope, come again before the Council for final disposal in a very short period."

The Motion was put and agreed to.

CODE OF CRIMINAL PROCEDURE, 1882, AND INDIAN PENAL CODE AMENDMENT BILL.

The Hon'ble DR. LETHBRIDGE moved that the Bill to amend the Code of Criminal Procedure, 1882, and the Indian Penal Code be referred to a Select Committee consisting of the Hon'ble Sir Alexander Miller, the Hon'ble Sir Charles Pritchard, the Hon'ble Sir Antony MacDonnell, the Hon'ble Dr. Rashbehary Ghose, the Hon'ble Sir Griffith Evans, the Hon'ble Fazulbhai Vishram, the Hon'ble Gangadhar Rao Madhav Chitnavis and the Mover.

The Motion was put and agreed to.

PRISONS BILL.

The Hon'ble SIR ANTONY MACDONNELL moved that the Bill to amend the law relating to Prisons be referred to a Select Committee consisting of the Hon'ble Sir Alexander Miller, the Hon'ble Dr. Rashbehary Ghose, the Hon'ble Fazulbhai Vishram, the Hon'ble Dr. Lethbridge, the Hon'ble Gangadhar Rao Madhav Chitnavis, the Hon'ble Mr. Clogstoun, the Hon'ble Mr. Lee-Warner and the Mover, with instructions to report after one month.

The Motion was put and agreed to.

His Excellency THE PRESIDENT said :—

"It is proposed that the Council should meet again this day week. When that time comes, I shall no longer have the right of presiding over your deliberations. This chair will be filled by my successor, sitting face to face with the portrait of his illustrious father, the inheritor of a distinguished name, to which there is every reason to believe that he will add yet further distinction. I can-

not allow the Hon'ble Members of this Council to separate to-day without expressing to them my thanks for the personal consideration with which they have always treated me both in and out of this room; and I say this, not only with reference to those who are here to-day, some of whom are taking part in our proceedings for the first time, but with reference to all those gentlemen who, during the last five years, have had a seat in the Legislative Council.

"I part from the Council with feelings of great regret, and of sincere respect and regard for its members. I earnestly trust that this Council, strengthened as it has lately been by the extension of its functions, and by the addition to its ranks of a larger number of representative members, some of whom will owe their presence to the recommendation of their fellow-citizens, will enjoy an ever-increasing share of public confidence, that it will conduct its deliberations with wisdom, dignity and moderation, and that it will prove to be a new source of stability and usefulness to the institutions of this country. I feel sure that Lord Elgin will receive from the Members of this Council the same assistance and the same courtesy which the Council has never failed to extend to me.

"Gentlemen, I bid you farewell."

The Council adjourned to Thursday, the 1st February, 1894.

**Weather Review of India for the week ending on Saturday,
January 20th, 1894.**

During the first four days of the week under review fairly normal conditions were reported over the Indian region, but on Wednesday, 17th January, rain commenced in Baluchistan and subsequently extended to North-West India. From this date onward till the close of the week the weather was unsettled over almost the whole of North-West India with rain on the plains and snow on the Hills. The observations did not give at any time indications of a definite storm at the earth's surface, but general slightly disturbed weather gradually advanced from the westward and spread over North-Western India. The mean temperature of the whole country for the whole week was normal.

The chart of Sunday, 14th, showed that pressure was highest over North-West India, relatively high over North-East India and lowest over the south of the Bay. Gradients were somewhat steeper than usual. The winds were fairly normal and the weather was fine except on the North-West Himalayas and in the south-east of the Peninsula where the sky was cloudy and some showers had fallen. On the 15th the barometer was falling everywhere. The fall was greater in the north-west than elsewhere, so that though the general distribution was practically unaltered, gradients had become slighter and pressure was everywhere below the normal. The winds were little changed. The sky was cloudy to overcast over a considerable part of North-West

India, and light showers had again fallen on the North-West Himalayas. At Calicut a heavyish local shower was reported. On the morning of the 16th the barometer was rising in the north-west and falling elsewhere. Hence gradients were increasing again, but the only important change was the appearance of a small shallow depression over Guzerat. The winds over Guzerat and the Peninsula were influenced to a considerable extent by this depression, but elsewhere the directions were fairly normal. Light rain had fallen at Khandwa, Akola and Murree. The chart of the 17th showed that the barometer was falling almost everywhere. The fall has been brisk in the north-west where, however, pressure was still higher than in other parts of the country. The winds were rather variable. Snow had commenced in Baluchistan, at Gnatong and at Murree, and rain was falling at Multan, Sibsagar, Saugor and Negapatam. The amounts were small. On the 18th the barometer was falling over Eastern Rajputana and generally rising elsewhere, the change being brisk in parts of North-West and of North-East India. Pressure decreased from high pressure areas in the north-west and north-east to a low pressure area in the south of the Bay. The winds were irregular except over the Bay area and the Peninsula. Snow and rain were falling over the North-West Himalayas and Baluchistan and rain at Multan, Sibsagar, Karachi and Jacobabad. The amounts continued small. The chart of the 19th showed small and unimportant changes of pressure except in parts of North-West India where there had been a brisk fall. Pressure was very uniform over the central parts of the country and the Peninsula. The winds were generally unchanged. Light rain had fallen over the Punjab plains, the west of the North-Western Provinces, Bundelkhand and the east of Rajputana and heavyish rain at Karachi. Snow and hail had fallen on the North-West Himalayas. On the 20th the only considerable change in pressure was a brisk increase over North-East India. The general distribution was little altered. The wind was generally easterly except over the Bay. Rain had extended considerably and was reported from the Punjab, a large part of the North-Western Provinces and Sind. The heaviest amounts were reported from Meerut and Karachi. Snow had fallen on the North-West Himalayas in moderately heavy amounts.

Temperature.—The following table shows the variations of the mean temperature from the normal on each day of the week for the different provinces of India :—

PROVINCE.	JANUARY 1894.							Mean variation of week.
	14th.	15th.	16th.	17th.	18th.	19th.	20th.	
Burma	−0·3	−0·2	+0·2	−0·4	−1·0	−1·4	+0·1	−0·4
Bengal and Assam . . .	−0·6	−0·5	+0·2	+1·2	+1·0	−0·1	+0·7	+0·3
North-Western Provinces and Oudh	+3·6	+1·6	+1·3	+0·4	+1·2	+3·4	+1·6	+1·9
Punjab	−1·6	−1·7	−4·1	−1·3	−1·8	−2·6	−0·6	−2·0
Bombay	+0·8	+1·5	+1·2	+0·2	+0·6	−0·4	+0·3	+0·6
Central Provinces and Berar	−1·5	−1·3	+1·2	+0·8	+2·3	+2·5	+2·9	+1·0
Central India and Guzerat	+1·2	−0·4	−0·3	+0·4	+1·6	+2·8	+2·2	+1·1
Sind and Rajputana	−1·6	−3·7	−1·4	−0·7	+1·7	−0·2	−0·7	−0·9
Madras	−0·7	−0·6	−0·9	−1·6	−1·0	−2·0	−1·9	−1·2
MEAN FOR WHOLE OF INDIA	−0·1	−0·6	−0·3	−0·1	+0·5	+0·2	+0·5	0

On the first four days the mean temperature of the whole of India was below the normal by very small amounts, while on the three concluding days there was a trifling excess. The net result for the whole week was that the actual and normal temperatures of the whole country were equal. The provincial variations showed that the mean temperature was in defect of the normal in Burma, the Punjab, Sind, Rajputana and Madras, and in excess of the normal in the other provinces. In the Punjab the deficiency was as much as $2^{\circ}0'0''$.

Rain.—The rainfall table at the close of the Summary shows that though the rainfall received during the week under review has been less general and less heavy than was the case during the preceding week, yet that there has been fairly general rain over the Punjab and North-Western Provinces and a good deal of light scattered rainfall in other parts of India. Of the fifty-two rainfall divisions no less than twenty-eight received absolutely no rain during the week, twelve more received an average actual rainfall of less than one-tenth of an inch, while the remaining twelve received an average actual fall of over one-tenth of an inch. The heaviest average reported was 1·30 inch in the Hill Districts of the Punjab, which was followed by 0·67 inch in the sub-montane district of the Punjab and by 0·34 inch in the Punjab, South and North-West. In North-Eastern, Central and Southern India the rainfall was absolutely or practically *nil*. The third column of the table shows that in the North-Western Provinces (Central Division), in all the Punjab divisions, except the West, in Sind, and in the East Coast (South Division) the average actual rainfall has exceeded the normal average rainfall, but except in the case of Sind this excess has been small and comparatively unimportant.

The columns giving the average actual and normal rainfall from the commencement of the year up to January 20th show that for that period there has been a considerable excess of rain over North-West India, a moderate excess in parts of the Peninsula and a deficiency elsewhere. Over a large part of North-East India there has been no rain.

The heaviest totals received during the week at the different rainfall stations are as follow :—Rurki (Saharanpur) 1·90 inch; Jullunder 2·02 inches; Buggah (Amritsar) 2·62 inches; Palanpur (Kangra) 2·21 inches; Zafarwal (Sialkote) 1·59 inch; Miani (Shahpur) 1·00 inch; Calicut 1·48 inch; and Larkana (Shikarpur) 1·55 inch.

W. L. DALLAS,

Assistant Meteorological Reporter to the
Government of India.

Simla, the 25th January 1894.

E. C. BUCK,

Secretary to the Government of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 27th January.*—No rain except some scattered showers in parts of Tinnevely. Sowings continue in places. Standing crops generally good. Harvests continue with fair to average outturn. Pasture and fodder generally sufficient. Condition of cattle generally good. Prices continue falling.

Bombay.—*For week ending 31st January.*—Slight rain throughout Sind. Standing crops suffering from want of rain or damaged by rain, cloudy weather, blight or rats in parts of four districts; prospects otherwise good. Sowing of late crops progressing in two, and reaping of early or late crops in nine, districts. Lands being prepared for next season in three districts. Cotton-picking continues in five districts. Prices steady except in two districts. Fodder sufficient except in one district, and agricultural stock good.

Bengal.—*For week ending 27th January.*—Slight rain fell in Shahabad in the beginning of the week, but no rain has been reported elsewhere. The winter rice is now all harvested with on the whole a good outturn. The standing spring crops are promising, but rain is required in parts. Reports of the poppy crop continue to be good except from Monghyr, where rain is much needed and the strong cold west winds are drying up the plants. Mustard and tobacco are being harvested, and the pressing of sugarcane is in progress. Cultivation of spring rice is going on. The price of common rice was nearly stationary during the week. Cattle are generally reported to be in good condition, and the supply of fodder and water is plentiful. The numbers on relief works and in receipt of gratuitous relief during the week were:—**FARIDPUR (MADARIPUR SUB-DIVISION).** *Relief works*, 588 men against 432 men in the previous week. *Gratuitous relief*, 15 men, 63 women and 29 children, total 107 against 334 in the previous week. In Backergunge the distribution of gratuitous relief ceased on the 27th instant.

North-Western Provinces and Oudh.—*For week ending 31st January.*—Weather cold and cloudy in the Central, Western, and Submontane districts in some of which rain has fallen; elsewhere the weather is cold and clear. Spring crops flourishing. Slight damage caused to crops in Cawnpore by insects, and in Jhansi by rust. Poppy doing well. Irrigation and sugarcane-pressing continue. Prospects good. Supplies and fodder abundant. Prices almost stationary.

Punjab.—*For week ending 31st January.*—Good rain has fallen all over the province. Harvesting of autumn crops almost over; irrigation of spring crops

in progress. Standing spring crops have much benefited by the recent rain and are flourishing. Prospects said to be excellent. Crops injured by field rats in parts of Lahore. Cattle are generally in good condition, and fodder is sufficient in all districts, except in Dera Ismail Khan where it is tending to scarcity. The poppy crop is reported to be in good condition. Prices falling in four districts; stationary elsewhere.

Central Provinces.—*For week ending 31st January.*—Weather generally clear and warm. Prospects of winter crops unchanged. Harvesting of linseed commenced in places, and of other minor crops progressing. No change in prices.

Burma.—*For week ending 27th January.*—In Lower Burma reaping completed in all but three districts; threshing continues. Crop prospects unchanged. In Upper Burma reaping of wet-weather paddy completed in nine districts; progress of other operations favourable. In Lower Burma the price of paddy has fallen slightly in Pegu, risen slightly in Thongwa and Henzada and is unsettled in Amherst; steady elsewhere. In Upper Burma the price of paddy has risen slightly in Shwebo and considerably in the Southern Shan States; elsewhere the price is steady. Fodder and water sufficient.

Assam.—*For week ending 30th January.*—Weather seasonable. Reaping of late rice completed. Sugarcane pressing commenced. Condition of cattle good. Fodder scarce in places. Water sufficient.

Mysore and Coorg.—*For week ending 31st January.*—**MYSORE:** Crops and prospects good. Rice sown in three districts, and harvested in two others. Prices fallen in three districts.

COORG: Reaping of rice and picking of coffee nearly completed. Fodder and water for cattle sufficient. Slight fall in prices.

Berar and Hyderabad.—*For week ending 31st January.*—**BERAR:** Weather unchanged. Picking of cotton completed in Ellichpur. Spring crops in Akola and Akot also in parts of the Wun taluka reported unsatisfactory. Weeding operations in Akola not yet completed. Insufficiency of fodder in Akot still prevails. Cattle in good condition. No material change in prices.

HYDERABAD: No rain during the week. Harvesting of irrigated crops commenced. Spring crops in good condition. Prices stationary.

Central India.—*For week ending 31st January.*—No rain. Agricultural operations in progress in all parts, except in Bhopal. Crops in fairly good condition. Probable outturn good in most parts but indifferent in parts of Gwalior. Agricultural stock and pasturage indifferent in parts of Gwalior; fairly good in other parts of Central India. Prices of food-grains steady. Condition of opium crop good in Gwalior, Western Malwa, and Goona; fair in Bhopal and Neemuch.

Rajputana.—*For week ending 31st January.*—Rainfall good in Ulwar, and slight in Bhurtpore and Bikaner. Agricultural operations, standing crops, and cattle, generally satisfactory. Prospects good. Pasturage or fodder suffi-

cient. Prices falling in two States, rising in two, fluctuating in one, and steady elsewhere.

Kashmir.—*For week ending 30th January.*—Weather rainy. Heavy snow fell on the 28th. Prices favourable.

Nepal.—*For week ending 27th January.*—Weather cloudy. Prospects good.

No. 217-G. — Lieutenant S. A. Cooke, Indian Staff Corps, Officiating Squadron Officer, 2nd

No. 302-E.—The following is published for general information :—

Regulations regarding Trade, Communication, and Pasturage to be appended to the Sikkim-Tibet Convention of 1890.

I.—A trade-mart shall be established at Yatung on the Tibetan side of the frontier, and shall be open to all British subjects for purposes of trade from the first day of May 1894. The Government of India shall be free to send officers to reside at Yatung to watch the conditions of British trade at that mart.

II.—British subjects trading at Yatung shall be at liberty to travel freely to and fro between the frontier and Yatung, to reside at Yatung, and to rent houses and godowns for their own accommodation and the storage of their goods. The Chinese Government undertake that suitable buildings for the above purposes shall be provided for British subjects, and also that a special and fitting residence shall be provided for the officer or officers appointed by the Government of India under Regulation I to reside at Yatung. British subjects shall be at liberty to sell their goods to whomsoever they please, to purchase native commodities in kind or in money, to hire transport of any kind, and in general to conduct their business transactions in conformity with local usage, and without any vexatious restrictions. Such British subjects shall receive efficient protection for their persons and property. At Lang-jo and Ta-chun, between the frontier and Yatung, where rest-houses have been built by the Tibetan authorities, British subjects can break their journey in consideration of a daily rent.

Regiment, Central India Horse, is granted leave to Bombay and Poona, for two months, to study the Native languages, with effect from the 1st February, 1894, or date of departure:

No. 223-G.—Lieutenant-Colonel D. Robertson, Indian Staff Corps, Political Agent of the 1st (Additional 1st) class, and Political Agent in Baghelkhand and Superintendent of the Rewa State, is appointed to be a Resident of the 2nd class and Resident at Gwalior, with effect from the date of assuming charge, *vice* Colonel E. S. Reynolds, Indian Staff Corps, whose services are replaced at the disposal of the Military Department.

The 9th February, 1894.

No. 226-G.—Surgeon-Lieutenant-Colonel A. F. Dobson, M.B., Indian Medical Service (Madras), Residency Surgeon, Bangalore, is granted privilege leave, for three months, with effect from the 5th March, 1894, or the subsequent date on which he may avail himself of the leave.

III.—Import and export trade in the following articles—

arms, ammunition, military stores, salt, liquors, and intoxicating or narcotic drugs, may at the option of either Government be entirely prohibited, or permitted only on such conditions as either Government on their own side may think fit to impose.

IV.—Goods, other than goods of the descriptions enumerated in Regulation III, entering Tibet from British India, across the Sikkim-Tibet frontier, or *vice versa*, whatever their origin, shall be exempt from duty for a period of five years commencing from the date of the opening of Yatung to trade; but after the expiration of this term, if found desirable, a tariff may be mutually agreed upon and enforced.

Indian tea may be imported into Tibet at a rate of duty not exceeding that at which Chinese tea is imported into England, but trade in Indian tea shall not be engaged in during the five years for which other commodities are exempt.

V.—All goods on arrival at Yatung, whether from British India or from Tibet, must be reported at the Customs Station there for examination, and the report must give full particulars of the description, quantity, and value of the goods.

VI.—In the event of trade disputes arising between British and Chinese or Tibetan subjects in Tibet, they shall be enquired into and settled in personal conference by the Political Officer for Sikkim and the Chinese Frontier Officer. The object of personal conference being to ascertain facts and do justice; where there is a divergence of views the law of the country to which the defendant belongs shall guide.

VII.—Despatches from the Government of India to the Chinese Imperial Resident in Tibet shall be handed over by the Political Officer for Sikkim to the Chinese Frontier Officer, who will forward them by special courier.

Despatches from the Chinese Imperial Resident in Tibet to the Government of India will be handed over by the Chinese Frontier Officer to the Political Officer for Sikkim, who will forward them as quickly as possible.

VIII.—Despatches between the Chinese and Indian officials must be treated with due respect, and couriers will be assisted in passing to and fro by the officers of each Government.

IX.—After the expiration of one year from the date of the opening of Yatung, such Tibetans as continue to graze their cattle in Sikkim will be subject to such Regulations as the British Government may from time to time enact for the general conduct of grazing in Sikkim. Due notice will be given of such Regulations.

GENERAL ARTICLES.

I.—In the event of disagreement between the Political Officer for Sikkim and the Chinese Frontier Officer, each official shall report the matter to his immediate superior, who, in turn, if a settlement is not arrived at between them, shall refer such matter to their respective Governments for disposal.

II.—After the lapse of five years from the date on which these Regulations shall come into force, and on six months' notice given by either party, these Regulations shall be subject to revision by Commissioners appointed on both sides for this purpose who shall be empowered to decide on and adopt such amendments and extensions as experience shall prove to be desirable.

III.—It having been stipulated that Joint Commissioners should be appointed by the British and Chinese Governments under the seven article of the Sikkim-Tibet Convention to meet and discuss, with a view to the final settlement of the questions reserved under articles 4, 5 and 6 of the said Convention; and the Commissioners thus appointed having met and discussed the questions referred to, namely, Trade Communication and Pasturage, have been further appointed to sign the agreement in nine Regulations and three general articles now arrived at, and to declare that the said nine Regulations and the three general articles form part of the Convention itself.

In witness whereof the respective Commissioners have hereto subscribed their names.

Done in quadruplicate at Darjeeling this 5th day of December, in the year one thousand eight hundred and ninety-three, corresponding with the Chinese date the 28th day of the 10th moon of the 19th year of Kuang Hsü.

RESOLUTION.

Calcutta, the 6th February 1894.

Read—

Resolution in this Department, No. 3624 A., dated 18th August 1893, regarding the grant of exchange compensation allowance to European and Eurasian officers of Government not domiciled in India.

RESOLUTION.—The Resolution of the 18th August 1893 applies only to officers whose salary is chargeable to General Revenues. Exchange compensa-

tion allowance is therefore not admissible under that Resolution to Government officers in foreign service.

As regards Government officers in foreign service, the Government of India, so far as they are concerned, agree to the grant of exchange compensation allowance under the restrictions and rules of the Resolution last quoted. But as the allowances will not be payable by the Government of India but by the Foreign employer, the claim in each case must, subject to any conditions imposed by statute, or by trust provisions, be decided, in the case of foreign service of the first kind, by the orders of the employer to whom the officer's services have been lent, and in the case of service of the second and third kinds, with the consent of the controlling authority of the funds to which the allowance will be chargeable.

In cases in which exchange compensation allowance is granted to an officer in foreign service of the first kind, as defined in Article 802 of the Civil Service Regulations, the allowance should be calculated on "assumed pay" as defined in Article 808 of those Regulations. In other cases, it should be calculated on the actual sanctioned salary of the officer.

ORDER.—Ordered, that this Resolution be communicated to the several Departments of the Government of India, to all Local Governments and Administrations, to all Heads of Departments subordinate to the Finance Department; to the Comptroller and Auditor General; and to all Accountants General and Comptrollers.

Ordered also, that the Resolution be published in the *Gazette of India*.

† Includes Capital outlay on Madhopur workshops.

2. The total outlay during the year was Rs. 27,77,396 being less by Rs. 19,09,998 than the total outlay during 1891-92, the difference being caused principally by the decreased expenditure on the Chenab Canal.

On the Chenab Canal, the Capital outlay was Rs. 15,57,983. The principal outlay against the original estimate was on strengthening the Protection

Works on the right flank of the Weir at Khanki and on completing distributary systems. On the Chenab Canal Extension Project, for which sanction was received in August 1892, good progress was made in widening the Main Line and on the construction of the Jhang and Bhawani Branches and works in connection therewith.

On the Bari Doab Canal, the Capital outlay during the year was Rs. 2,1,324, principally on constructing and remodelling distributaries.

On the Sirhind Canal, there was a Capital outlay from Imperial Funds of Rs. 1,60,246, principally on works which were in progress at the time of closing the construction estimate. Under contributions there was a Capital outlay on works of Rs. 3,697, but there were credits under Tools and Plant, Suspense, and Receipts on Capital Account amounting to Rs. 24,877, so that the net result was a reduction of Capital outlay by Rs. 21,180.

On the Western Jumna Canal, excluding the Sirsa Branch, there was a Capital outlay of Rs. 1,01,926, incurred principally on Drainage Works and Distributaries. The Drainage Works, as noted in paragraph 21 of Chief Engineer's report, have had an excellent effect and are practically completed.

On the Sirsa Branch of the Western Jumna Canal, Rs. 6,36,372 from Imperial Funds and Rs. 2,49,083 contributed by the Patiala State were expended on the Capital Account. Two out of the three sections into which the project is divided have been practically completed, and the whole of the construction work is expected to be finished before the end of 1894-95.

3. The following statement shows the mileage of main canal and distributaries in operation at the close of the year under review : —

Of which only Revenue Accounts are kept	829	453
TOTAL	3,986	6,219

The length of navigable channel was 386 miles.

In addition to the above, there are in the Native States 223 miles of completed canal, of which 46 are navigable, and 1,940 miles of completed distributaries.

During the year the length of canal has been increased by 83 miles, and of distributaries by 252 miles, all in British territory.

4. The financial results of the canals in operation are exhibited in the following statement :—

* Refunds deducted from Revenue.

† These percentages of net Revenue on Capital outlay do not include Muzaffargarh Canal.

5. The net Revenue for the whole Province is higher by Rs. 5,55,587 than it was in 1891-92, and the percentage on Capital outlay has risen from 6.17 to 6.79.

The Major Works show an increase in net revenue of Rs. 5,69,466, while the Minor Works show a decrease of Rs. 4,364, which, together with a decrease of net Revenue on the Muzaffargarh Canal of Rs. 8,515, accounts for the net increase over the whole Province.

Under Major Works, the Bari Doab and Sirhind Canals show a large increase in net Revenue, while there is a large decrease on the Western Jumna Canal owing to the areas irrigated in the Rabi of 1891-92 and the Kharif of 1892-93 having been smaller than usual.

This year the Swat River Canal gives a return of 5.20 per cent. of net Revenue on Capital outlay, but from paragraph 12 of the Chief Engineer's report there appear to be grounds for apprehension that the country irrigated by this canal may soon become waterlogged if the increase of area irrigated be not checked, and a detailed statement of his views is awaited by the Local Government.

The only Major Works which failed to meet their working expenses were the Chenab and the Lower Sohag and Para Canals. The Chenab Canal cannot yet be expected to pay its way, and the Chief Engineer in paragraph 139 of his report states that there is every reason to hope that the Lower Sohag and Para Canal will give large returns in the near future.

Under Minor Works, the Upper Sutlej and the Shahpur Canals show a satisfactory increase of net Revenue over last year, and the Indus Canal returns, though lower than those of last year, which were abnormally high owing to the recovery of arrears of collections, show an improvement on the figures of former years.

The net Revenue of the Lower Sultej and Chenab Canals is about the average of ordinary years, while that of the Muzaffargarh Canals is slightly below it.

6. The net Revenue of the Major Works in operation exceeded the interest charges by Rs. 17,91,956, and at the close of the year the balance of net Revenue over interest charges for the whole Province amounted to 241 $\frac{3}{4}$ lakhs, of rupees.

7. The area irrigated during the year and the irrigation revenue assessed thereon are shown in the following statement :—

8. The total area irrigated, though less by 218,005 acres than last year, is the second largest area on record.

The rainfall during the winter was abnormally great, and in most parts of the Province enabled crops to be brought to maturity without the aid of canal water.

The rate per acre for the whole Province has again fallen below that of the previous year; it is higher on most of the Minor Works, while on four of the Major Works it is higher, and lower on the remainder.

9. The areas of kharif and rabi crops were as follows :—

	Kharif. Acres.	Rabi. Acres.
Perennial Canals	651,124	817,781
Inundation „	637,694	712,732
TOTAL	1,318,818	1,530,513

Compared with last year the kharif irrigated area has increased and is the largest for the past five years. The rabi irrigation on the other hand has decreased largely on the perennial canals and slightly on the inundation canals. The cause of the decrease on the perennial canals is the abnormal winter rainfall.

10. The following table shows the irrigated areas of the principal crops for the last two years :—

	1892-93. Acres.	1891-92. Acres.
Sugarcane	72,902	91,238
Rice	170,282	184,637
Jowar	177,758	157,146
Maize	122,235	114,879
Wheat	957,635	1,120,982
Cotton	216,599	188,072

The decrease under sugarcane occurred on the Western Jumna Canal and is due to the low supply of water in the Jumna River in April and May 1892.

The decrease under rice is attributed to a similar cause.

The increase under jowar and maize is due to these crops having been sown to take the place of crops which could not be sown earlier owing to short supplies during the early kharif.

The decrease in wheat is due to the abnormally heavy winter rains.

Cotton, which suffered greatly last year from the attacks of locusts, has somewhat recovered.

The value of the crops irrigated is estimated at 826 lakhs of rupees.

11. Details of the discharges and water duty of the perennial canals, together with the minimum discharges of the rivers from which their supplies are drawn, are given in the following table :—

CANAL.	MINIMUM DISCHARGE OF RIVER.	MAXIMUM DISCHARGE OF CANAL AS DESIGNED.	MAXIMUM DISCHARGE OF CANAL DURING YEAR.	AVERAGE DISCHARGE AT HEAD.		ACRES IRRIGATED PER CUBIC FOOT OF AVERAGE DISCHARGE.	
	Cubic feet per second.	Cubic feet per second.	Cubic feet per second.	Kharif.	Rabi.	Kharif.	Rabi.

Chenab	5,763	8,000	2,000	1,553	1,135	54	65

Excluding Native States Branches.

The minimum river discharges are, with the exception of the Swat River, higher than last year. The kharif duties are generally about the average of the last five years, while the rabi duties are all low. Supply exceeded demand during the greater part of the winter, and the rabi duties therefore do not compare favourably with those of seasons in which the contrary was the case.

The duty on the Chenab Canal is expected to improve as the area under irrigation increases.

12. On the Native States Branches of the Sirhind Canal the irrigation is still below the area which would have been obtained on British Branches from similar volumes of water. The proportion obtained remains as it was last year, *viz.*, 58 per cent., and the Chief Engineer, in paragraph 109 of his report, mentions that it would almost seem as if we should have to be content with an area only three-fifths of what would be irrigated did the States work up to the British standard.

13. The following table shows the working of the Native States Branches :—

STATE.	Capital outlay.	Gross revenue collected less refunds.	Working Expenses.	Net Revenue.	Percentage on Capital Outlay.	Water-rates assessed.	Area irrigated.	Water-rates assessed per acre.	Working Expenses per acre.
	Rs.	Rs.	Rs.	Rs.		Rs.	Acres.	Rs.	Rs.

The figures for the year under review are far from satisfactory. The percentage on Capital outlay, which in Patiala is 2·84 as compared with 2·78 for last year, has in Nabha fallen from 2·30 to 0·87, and in Jhind there was a loss equivalent to 0·40 per cent. on the Capital as against a profit of 1·89 per cent. in the previous year. The working expenses per acre are also very high, being Rs. 3·23 per acre as against Rs. 1·76 in 1891-92.

The value of the crops irrigated during the year from the Native State Branches is estimated at Rs. 39,68,512.

14. The working expenses of the different canals are shown below :—

	Per acre irrigated	0·79	0·88

The total working expenses are more by nearly two lakhs of rupees than last year, the increase being due almost entirely to additional expenditure on the Sirhind and the Chenab Canals. In the latter case the increase is due to the expansion in length of irrigating channels and area irrigated, and in the former case it occurs largely under establishment and is due to the decreased capital expenditure.

The rate per acre irrigated has risen in the case of the Major Works on account of the smaller area irrigated.

15. The following are the details of the charges for establishment:—

	Revenue management.	Maintenance.	Total.	Percentage.
	Rs.	Rs.	Rs.	
Direction	82,106	80,448	1,62,554	12·14
Executive	6,55,930	2,79,523	9,35,453	69·83

Navigation	1,154	...	1,154	0·08
TOTAL .	9,67,105	3,71,542	13,38,647	100·00

The share of direction charged to revenue is higher than in 1891-92 because of the smaller capital outlay.

16. The working expenses on Major Works amounted to 36 per cent. of the gross revenue realised as against 37·2 per cent. last year.

17. The following are some of the principal works charged against the Revenue Account:—

On the Swat River Canal.—Increasing the capacity of two drainage inlets.

On the Western Jumna Canal.—Regulating apparatus for Tajewala Dam, constructing Kachrauli Drain, wire rope suspension bridge on Hansi Branch, renewing with cast-iron grooves eight bays of the Tajawala undersluices.

On the Bari Doab Canal.—Building quarters for the regulating establishment at Madhopur, remodelling and constructing distributaries.

On the Sirhind Canal.—Alterations below Chupki and Akhalgarh Falls for facilitating navigation, construction of four ferries and a discharge run on Abohar Branch, minor head gates and gearing for Ludianah Division.

On Chenab Canal.—Four rest-houses for Ziladars and a workshop at Salar.

On the Indus Inundation Canals.—Reconstruction of head regulator of the Baja Branch of Manka Canal, addition to the head regulator Shoria Canal and construction of Gajani Branch and Western Distributaries, constructing Fauja and Borwala reclamation bunds.

18. The navigation receipts and charges are shown in the margin. The

	Receipts. Rs.	Charges. Rs.

increase in traffic which followed on the revision of rates for rafting mentioned in paragraph 19 of last year's review has not been maintained: it yet remains to be seen whether the decrease which has occurred in the year under review will prove to be merely temporary.

The net profit on navigation operations amounted to only Rs. 19,672 during the year.

19. The receipts on account of water power amounted to Rs. 1,51,101 as compared with Rs. 1,65,377 in 1891-92. The decrease is due to the longer closures of canals owing to slackness of demand.

20. On the Lower Sutlej and Chenab Canals, and the Muzaffargarh Canals the value of "chher" labour and the sums contributed from the Zar-i-nagha funds are included in miscellaneous receipts.

On the Lower Sutlej and Chenab Canals 638,598 labourers were called out, and of these 455,880 were actually present. After allowing for 36,326, whose absence was sanctioned, the total number of absentees was 176,392 or a percentage of 26·37 as against 32·13 of last year. Fines amounting to Rs. 94,994 were inflicted.

The value of "chher" labour, as shown in the administrative accounts, was Rs. 92,021, but in paragraph 201 of the Chief Engineer's report it is stated that the correct value is Rs. 1,50,720, the error having arisen from the full value of the labour not having been reported.

The error does not affect the balance of expenditure and receipts as the assumed value of "chher" labour is shown on both sides of the account. Contributions from the Zar-i-nagha fund amounted to Rs. 81,611.

On the Muzaffargarh Canals the numbers of labourers were—

Called out	494,074
Present	437,309
Absent with sanction	17,249
Absent without sanction	45,258

Fines for absence amounted to Rs. 26,217.

The value of "chher" labour was Rs. 1,12,514, and Rs. 18,756 were contributed from the Zar-i-nagha fund.

The Zar-i-nagha funds on the Lower Sutlej and Chenab Canals and the Mozaffargarh Canals show credit balances of Rs. 1,10,126 and Rs. 62,202 respectively.

21. The year opened with an unrealised demand of Rs. 67,260, after deducting Rs. 756 as detained at foot of table IIIC, and closed with an unrealised balance of Rs. 88,818. The demands during the year amounted to Rs. 61,22,593, and the collections to Rs. 61,01,035.

22. Two new points of interest are noted in the Resolution by the Local Government, *viz.*:—

(1) The results of the checks applied to the measurements of the irrigated area. Paragraphs 42, 72, 106 and 134 of the Chief Engineer's report deal with this subject, and the results are considered to be on the whole exceedingly satisfactory.

(2) The time spent on tour by Divisional and Sub-divisional Officers. The former Officers were away from head-quarters on tour during 182 days or half the year on the average, and the latter were on tour an average of 246 days or two-thirds of the year.

23. The report reached the Government of India on the 4th December, the date prescribed for its submission being the 15th November. It has, as usual, been prepared with great care, and is illustrated by excellent maps and diagrams. The results set forth in it are once more satisfactory, and the Government of India have much pleasure in endorsing the praise accorded by the Honourable the Lieutenant Governor to Colonel Ottley and Mr. Higham in paragraph 22 of the Resolution by the Local Government.

SURVEY OF INDIA DEPARTMENT.

NOTIFICATION.

Calcutta, the 7th February, 1894.

No. 5.—Mr. H. Haward, Head Photographic Assistant of the Photo-Litho. Office, is granted furlough for one year, under Article 371 of the Civil Service Regulations, with effect from the 26th instant, or the subsequent date on which he may avail himself of the same.

H. R. THUILLIER, Colonel, R.E.,

Surveyor-General of India.

SURVEY OF INDIA DEPARTMENT.

SUPPLY OF PRINTED MAPS.

The following Rules are published in supersession of those published in Part II of the "Gazette of India" of the 4th March 1893. Special attention is directed to the regulation regarding cash payments in Rule 1:—

1. The Map Record and Issue Office, Calcutta, supplies printed maps on the public service, on book debit, when the value exceeds Rs50, and on cash payment when below that value. It also arranges for the colouring and mounting of maps when required. All charges for freight and postage of parcels must be borne by applicants themselves. Incidental charges for colouring, mounting and binding maps and for packing cases are included in the bills submitted by this office. When accounts are settled by book debit, the rules as to the disposal of the duplicate and triplicate copies of the invoice printed thereon must be strictly adhered to. Cash payments include payments by Money Order, Remittance Transfer Receipts and Drafts on Calcutta. Stamps, Hundis, and Receipts for payment into Treasuries are not accepted.

2. Maps can also be obtained by the general public from the above-mentioned office on pre-payment or by value-payable post, as well as from the following Local Agents, who, however, have no authority to issue maps on the public service except on cash payment:—

ALLAHABAD,—Curator of Government Books.
 AHMEDABAD,—Huzoor Deputy Collector.
 LAHORE,—Munshi Gulab Sing.
 MADRAS,—Messrs. Higginbotham & Co.
 LONDON.—Mr. Edward Stanford.
 NAGPUR,—Curator of Government Books.

POONA,—Supdt., Govt. Photozincographic Dept.
 MANDALAY,—Manager, "Mandalay Herald Press."
 SIMLA,—Mrs. E. Corstorphan.
 MUSSOOREE,—Secy., Mussooree Book Society,
 Baring Institute.
 RAJKOT,—The Treasury Officer.

3. All applications for maps on the public service should be made to the officer in charge of the Map Record and Issue Office, 13, Wood Street, Calcutta, and should give full particulars as to the kind of map and its scale, and any other information that will guide this office in knowing exactly what is required. In the case of confidential maps, the previous sanction of the Government of India in the Military Department must be obtained, except in the case of specially authorised officers. (*N.B.*—Trans-frontier maps are, as a general rule, confidential.)

4. The mode of transit and address or station to which the maps are to be sent should invariably be specified.

5. Indent forms for maps on the public service can be obtained from the officer in charge of the Map Record and Issue Office.

6. Lists of all newly published maps are periodically notified in the Gazettes of India and Local Governments.

7. Indents for printed maps on the public service must be duly approved and countersigned by the authorised officer under whom the indenting officer may be serving, before they can be complied with, *viz.* :—

No. 4.—Mr. T. T. Robyns, Assistant Commissioner, has been granted, by Her Majesty's Secretary of State for India, 6 months' extraordinary leave, without pay, in extension of the furlough sanctioned in order No. 52, dated 9th March, 1893.

A. B. PATTERSON,

Commr. of the N. I. Salt Revenue Dept.

THE RESIDENT IN MYSORE.

NOTIFICATION.

Bangalore, the 31st January, 1894.

No. 376—29-94. 1. Notice is hereby given that the right of selling country spirits in each of the thirty shops in the Civil and Military Station of Bangalore, specified in the subjoined schedule, for the year beginning 1st April 1894 and ending 31st March 1895, will be put up to public auction at the upset annual prices specified therein. The sale will be conducted by the Collector at his Office in the Mayo Hall, commencing at 12 noon on Wednesday the 21st February 1894.

2. Each bidder at the auction will deposit a sum of Rs 50 previous to bidding. The shops will be knocked down to the approved highest bidder, above the upset price mentioned in the aforesaid schedule, subject to the formal confirmation by the Collector who will be at liberty to accept or reject the bid at his discretion without assigning reasons for the same; such formal confirmation will be tantamount to an acceptance of the bid. Parties intending to bid must attend either in person or by duly accredited agents. Should there be no bid above the upset price, the officer conducting the sale may lower the upset price at his discretion.

3. As soon as the auction is completed, the deposits made by the unsuccessful bidders, and not forfeited as hereinafter provided, will be returned to them. As the auction proceeds, the person whose bid is accepted for each shop, shall at once deposit a sum equal to half a month's rent for that shop. Should he fail to do so, the deposit made by him under paragraph 2 will be forfeited; the shop will at once be put up again on the above conditions, and he will be debarred from bidding again for the same or for any other shop.

4. Persons to whom shops have been knocked down, and who have made deposits as provided in paragraphs 2 and 3, shall also, within seven days from the date of the auction, deposit such further sum as with the first and second deposits will make up an amount equal to two months' rent of each shop knocked down to them, and shall take out licenses in the appended form A on the conditions hereinafter set forth. On the failure of any person to make the deposit, or to take out licenses as aforesaid, the shop or shops will be resold at the risk of such person, or, if the auction hereby notified has already been completed, will be otherwise disposed of at the discretion of the Collector of the Civil and Military Station. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

5. Re-sales effected under paragraph 4 will be at the risk of the defaulting bidder who will forfeit all gain; and in the event of a loss by re-sale, he will make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder in the re-sale. In the latter case the forfeited deposit will be deducted from the loss arising from the re-sale, and the remainder, if any, will be recovered from the bidder in the same manner as if it were in arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit will be credited to Government.

6. Sales in the thirty retail shops for the nine months ending 31st December 1893 are given in the schedule.

CONDITIONS.

- (1) The privilege conferred by the license extends only to the sale of country spirits of the strength of 20° under proof, and with the special permission and passes of the Collector or other officer authorized by him to the sale of double distilled liquors and "milk punch" in bottles duly corked and labelled in the Central Distillery.
- (2) The amount for which the privilege has been purchased, shall be payable into the Resident's Treasury in equal monthly instalments commencing from April 1894; each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent shall be payable on the 15th of the month following. The deposit of two months' rent made by the licensee will be taken in payment of the rents due for the last two months of the period of the farm. Failing payment by the 15th of the next month, the Collector shall at once proceed to recover the arrears together with interest at 6 per cent. under the rules in force for the collection of land revenue. No remission or abatement of the rent shall, on any account whatever, be claimable by the licensee.
- (3) The licensee shall purchase the spirits to be sold in his shop from the Government Contractor or his agent at the rate of 10½ annas per gallon of 20° under proof, and at proportionate rates for higher or lower strengths according to Casella's Rules delivered at the Bonded Depot established in the Civil and Military Station under the sanction of Government. The spirits shall be sold to the public by the licensee at Rs 5-5-0 per gallon of 20° under proof and at proportionate rates for higher or lower strengths.
- (4) The licensee of every shop in the Civil and Military Station of Bangalore shall pay a registration fee under the Municipal Regulations, at the rate of Rs 180 per annum, in advance for the period of the license for his shop; and he shall pay also a license fee of 4 annas per gallon on all arrack sold by him in excess of 55 gallons a month in each.

1

Collector and Superintendent of Excise Revenue,

Civil and Military Station of Bangalore, do hereby grant a license for the retail vend of Arrack manufactured in the Mysore country to

in the Civil and Military Station of Bangalore

on the following conditions :—

I. This license is not transferable by sale, gift, mortgage, or otherwise, and no persons except such as are named herein shall have power to act under it.

II. The vendor or vendors shall equally with the license-holder be responsible in the penalties herein set forth for breach of any of the conditions of the license, *vis* :—

III. The license-holder shall purchase the spirits from the Government Contractor or his agent, delivered at the Bonded Warehouse established under the sanction of Government. The rates to be charged for spirits supplied to the retail vendors are as under, per Imperial gallon (delivered at the Bonded Warehouse), to the retail vendors.—

For spirits 20° under proof	R	a.	p.
For spirits of higher or lower strengths. Proportionately according to Casella's rules.	0	10	6

IV. The license-holder shall pay a Registration fee under Section 58 of the Municipal Regulations at the rate of Rs(180) one hundred and eighty per annum, or for any portion of the year, in advance for the time this license is granted, and he shall pay a license fee of (4) four annas per gallon on all arrack sold by him in excess of 55 gallons a month.

V. The above rates are in addition to excise duty, which shall be prepaid to the Government Contractor or his agent at the rates specified below, per Imperial gallon, before the removal of the spirits from the Distillery or from any Bonded Warehouses; namely, on spirits of 20° under proof Rs4, and proportionately on spirits of higher or lower strengths.

VI. Sales of liquor under this license shall be made only in the shop for which this license is granted at the rate of Rs 5 As. 5 per gallon of 20° under proof, and at proportionate rates for higher or lower strengths. The measures to be used shall be only those as may from time to time be prescribed by Government. For sales of liquor of higher strength than 10° under proof and of lower strength than 20° under proof, the special orders of the Collector shall be obtained. Liquor of 10° under proof shall be sold only to respectable individuals under special passes issued by the Excise Department, and in bottles duly corked and labelled by the Senior Officer in charge of the Distillery.

VII. They (license-holder or vendor or vendors) shall not sell nor give any arrack to any individual to convey out of their shops or premises, except that they may do so only on special passes issued by the Excise Department.

VIII. They (license-holder or vendor or vendors) shall not sell nor give any arrack in any quantity whatever, either directly or indirectly, to any European, Non-Commissioned or Warrant Officer, or Private Soldier, or to any European, or East Indian woman connected with or related to men of these classes, and they shall not permit drunkenness or disorderly behaviour in their shops or premises, nor suffer any gambling whatsoever therein, and shall not knowingly permit prostitutes or persons of notoriously bad character to meet or remain therein, or wilfully harbour or conceal therein soldiers or others, knowing or having reason to believe such soldiers or others to be deserters; nor shall they permit more than two drams to be drunk by the same person at the same time on their premises.

IX. They (license-holder, vendor or vendors) shall not receive any articles whatsoever in barter or pledge. Payment for liquor shall be received by them in ready money only, and they shall not knowingly sell or give any liquor to any person under 12 years of age.

X (a). The liquor 20 degrees below proof, as purchased from the Bonded Warehouse, shall not be diluted or adulterated, and all liquor found to be below that strength shall, if there is reason to believe it became so owing to the conduct of the license-holder or his vendor, be seized and placed before a Magistrate who, after testing it, shall summarily confiscate it, if he agrees that it is owing to the license-holder or vendor's neglect. In cases where there is evidence of dilution, the case will be heard and tried under para. XVIII of this license.

X (b). No water or liquor other than arrack of any quantity whatever shall be kept or sold in the shop in which arrack is sold, or on the person or in possession of the license-holder or vendor or any of his employes in the shop. Aerated waters and ginger beer may be sold in the shop, but on a separate bar.

XI. Bad characters shall not be allowed to resort to the shop, and gaming, disorderly conduct, etc., therein shall be prevented; and information of suspicious characters shall be given to the Magistrate or Police Officer.

XII. The license-holder shall fix in a conspicuous place outside of his shop a board on which shall be legibly printed his name and the number of his shop and the articles he is licensed to deal in.

XIII. The license and shop accounts, which shall be true and correct, shall be produced for inspection to the Collector or any Magistrate having local jurisdiction, or any officer acting under the warrant of a Magistrate, or any Excise Officer authorized to require such production; and entry to the shop shall be allowed to any Police Officer of and above the rank of Chief or Head Constable or to any Excise Officer at any hour. The sales of liquor of higher or lower strength than 20° under proof shall be accounted for separately in the prescribed forms.

XIV. The amount of fees payable from the shops under condition IV above shall be paid to the Officer appointed by the President, Municipal Commission, to receive the same.

XV. A stock of 2 gallons of arrack shall always remain on hand with the license-holder and not be trenced upon.

XVI. The shop shall be closed by 9 P.M., and not be opened before 6 A.M., except on special permit in cases of festivals, etc.

XVII. The shop shall have only one door, and no windows or other openings shall be allowed to the rear or at the ends of the building. The bar at which the arrack is sold shall be opposite the entrance door, and so situated that all persons inside can be seen by any one passing to and fro in the street, and no second room shall be used for the sale of liquor, or be kept open for customers.

XVIII. A breach of any one of the above conditions and restrictions will subject the holder of the license and shop-vendor, on conviction before a Magistrate, to fine under Act XXII of 1881 or to forfeiture of the license under Section 13 of the Act, or both. The license-holder shall further conform himself to all such rules as may, from time to time, be framed and published under the provisions of the Excise Act No. XXII of 1881 or other Regulation for the time being in force, and any breach of such rules shall subject him to the penalties provided by the said rules.

XIX. This license shall continue in force till the 31st March, 1894, and no longer.

REVENUE DEPARTMENT.

[Revised Advertisement.]

A Dictionary of the Economic Products of India.

By DR. GEO. WATF, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes and Volume VI, Parts I, II, III & IV of the Dictionary are now ready at the Office of the Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is R45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made); packing and postage, in India, 8 annas per volume; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, R6 and 8 shillings respectively will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular and European names, habitat or source, history; properties and uses (both chemical and industrial), trade statistics, markets, etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Volume II embraces the letter C in 689 pages, Volume III contains the letters D, E, F, and half of G; Volume IV, latter half of G to middle of L, and Volume V contains the latter half of L to end of O; Vol. VI (which will consist of four parts), Part I, contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol VI) during the current year, but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a glossary of the vernacular and European names of the plants, animals, and minerals of India, and as such, will be a work of reference, which, it is hoped, may prove of considerable value.

GOVERNMENT OF INDIA. LEGISLATIVE DEPARTMENT.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR
GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING
LAWS AND REGULATIONS UNDER THE PROVISIONS OF
THE INDIAN COUNCILS ACTS, 1861 AND 1892 (24 & 25
VICT., CAP. 67, AND 55 & 56 VICT., CAP. 14).

The Council met at Government House on Thursday, the 1st February, 1894.

PRESENT :

His Excellency the Viceroy and Governor General of India, P.C., LL.D.,
G.M.S.I., G.M.I.E., *presiding*.
His Honour the Lieutenant-Governor of Bengal, K.C.S.I.
His Excellency the Commander-in-Chief, K.C.B., G.C.I.E., V.C.
The Hon'ble Sir A. E. Miller, KT., Q.C.
The Hon'ble Lieutenant-General H. Brackenbury, C.B., R.A.

The Hon'ble H. F. Glogstoun, C.S.I.
The Hon'ble W. Lee-Warner, C.S.I.
The Hon'ble P. Playfair.
The Hon'ble Mahārājā Partab Narayan Singh of Ajudhiā.

Before the list of business was proceeded with, His Excellency THE PRESIDENT made the following remarks :—

"I understand that it is not the custom of the Council for anything to be said outside the regular course of business, but I cannot take my seat here for

the first time without, on my own behalf, asking from you that indulgence which my predecessor bespoke for me last week in words which merit my warmest acknowledgment. I feel conscious that for some time I shall have to make many calls on your forbearance, and I should like you to remember that, if that is so, it will not be for want of any effort on my part to so manage the affairs of the Council that they may be transacted with all regularity and order and with a due regard to the despatch of business."

QUESTION AND ANSWER.

The Hon'ble GANGADHAR RAO MADHAV CHITNAVIS asked :—

Will the Government, in view of the backward state of the Central Provinces, be pleased to draw the attention of the Local Government to the small percentage of its income that is spent on colleges, and point out to it the advisability of giving increased aid to the local colleges to enable them to improve and strengthen the professoriate and extend their sphere of usefulness ?

The Hon'ble SIR ANTONY MACDONNELL replied :—

"The Government of India will forward the Hon'ble Member's question to the Chief Commissioner, Central Provinces, for such remarks as he may wish to offer ; and on receipt of them will consider whether any orders are called for in the direction indicated by the latter part of the Hon'ble Member's question."

LAND ACQUISITION ACT, 1870, AMENDMENT BILL.

The Hon'ble SIR ALEXANDER MILLER moved that the Reports of the Select Committee on the Bill to amend the Land Acquisition Act, 1870, be taken into consideration. He said :—

"It will be in the knowledge of Hon'ble Members present—or at least of some of those present—that the question of amending the Land Acquisition Act is one which has been before the Government of India for something over three years. Speaking generally, there were three points on which the law as it stands was considered to be specially unsatisfactory—one, that in the absence of any single claimant the Collector is unable to proceed to make an award, and is obliged, utterly irrespective of whether there is any disputed question to determine or not, to refer the matter to the Court ; and I have been told on more than one occasion by experienced District Judges that they had found it necessary to break the law in order to avoid the great hardship of compelling persons, whose rights were of very small value, to appear at an expense out of all proportion to their interest, or, in the alternative, of inflicting serious loss upon all the others.

"It was also objected—and it was found to be a serious objection—that the principle of assessors, which in the first instance might be supposed to be a most reasonable one when you were determining what the value of land should be, worked extremely badly ; that the assessors on both sides, instead of being judges of value, were simply partisans ; and that, instead of assisting the Judge in coming to a right conclusion, they were merely an expensive machinery of the Court.

"The other point, and one which was urged with a good deal of force, I think, from Bombay, was that under the Act as it stands there is no provision for anything except making a money payment to the persons whose land is taken, and that there are many cases in which it would be more beneficial for the public taking the land and for the parties whose land is being taken that they should get other land in the place of it ; and it was thought desirable to introduce a power, particularly in regard to such cases as temples and other places of worship, to substitute for the land taken other land, instead of handing over a sum of money which was neither so fitting a compensation nor so securely devoted to the purposes of the trust.

"Those were, I think, the three main points on which discussion took place, and after very lengthy discussion and frequent noting a Bill was introduced two years ago, of which the general principle was to enable the Collector to make an award on such materials as were properly before him in the first instance, whether the parties appeared or not, leaving any party who objected to the award to challenge it by an ordinary civil suit. When that was circulated for opinion a great many objections were taken to the procedure by civil suit, and accordingly when the Bill was in Select Committee last year the Hon'ble Mr. Woodburn, in whose charge it then was, proposed to substitute this principle, that the Collector might proceed to make the award unless any one of the claimants objected, but that, if any one of the claimants objected, the matter should be referred to the Court. That was accepted by the Committee, has, I think, met with general acceptance since, and is the basis of the Bill now before the Council. It only came out from Committee about a fortnight before the end of the last Calcutta session, and when it was proposed then to take it into consideration it was objected, on behalf of the Chamber of Commerce, that the Bill had been considerably altered in its course through the Committee, and that it was desirable that there should be more time to consider what the effect of the changes was; and on that account it was postponed until this present session instead of being passed, as it otherwise would have been in the ordinary course, at the end of the last session here. Since then it has been, as the Council is aware, referred back to the Committee in consequence of some papers of some importance which were received quite lately.

"The Committee have gone through the Bill again; the changes now made in the Bill as amended by the Select Committee last year are not very numerous, and I think they will all be found to be in the direction of improvement. The Committee have endeavoured, as far as it possibly could, to give effect to all the serious objections which had been taken to the Bill as it stood, and, although there are a number of amendments of more or less importance of which notice has been given for this meeting, I hope that the Bill will be passed through the Council substantially as it has come from the Committee."

The Motion was put and agreed to.

The Hon'ble MR. LEE-WARNER moved that in section 3 of the Bill, as amended, for clause (f) the following be substituted, namely:—

"(f) the expression 'public purpose' includes the provision of village-sites in cases where the Local Government shall declare by notification in the official Gazette that it is necessary to make such provision: and".

He said:—"I shall endeavour to support the amendment which stands in my name by as brief an explanation as possible. We have here a Bill which would enable the Local Government, as trustee for public interests, to acquire private property in a village for a public purpose—say a village school or dispensary—provided that it was able to declare that the object was public, and gave proof of the public need by contributing funds towards the compensation paid to the lawful owner for his compulsory dispossession. But suppose the village-community needed something far more important to every single member of it than a school or a dispensary, namely, a new village-site. Take the practical case put by the Government of Bombay in January, 1885: 'It has been found necessary in Khandesh to move a village from a dangerous position on the bank of river to a safer locality, but the only land suitable cannot be obtained without recourse to the Act,'—then no relief can be given to the anxious householders, whose women and children are nightly racked with the fear of a watery death, unless Government can certify that in the particular district it is customary for the Government to make such provision. I presume that, when the Legislature imposes a condition, a special obligation devolves on the executive to interpret that condition strictly. It might happen that custom could not easily be proved in the district. In the first place, the existing Act precludes the establishment of any custom, since the Bombay Government inform us that they are advised that the law as it stands does not admit of relief. Again, it might be that the contingency had never before arisen. This might be specially the case where new irrigation works have filled a river bed, as I

recollect was the case in some land I acquired for Government on the banks of the Nira River in the Poona District, and altered the conditions of the riparian village-sites. Or, again, a new district may have been added to the empire, and no occasion yet arisen for providing an addition to a village-site described by the Deputy Commissioner of Bassein as bounded as follows:—‘In front a river, at one end a kyaung, at the other a graveyard, and paddy fields behind. As the population grows the village becomes more and more crowded, and the surroundings more and more insanitary, especially in the case of erosion, since the only direction for expansion is behind.’ But I need not weary the Council with the difficulties which might arise in practice in the way of a conscientious declaration as to custom.

“I proceed to consider the objections to the grant of the powers which the Government of Bombay, Sir Dennis Fitzpatrick and the Chief Commissioner of Burma have recommended. They refer, I understand, to the general principle of the policy of limiting the power of the executive to interfere with private property, and to the consideration that the sacred rights of property would be invaded, in the case put, for the benefit of a small community. As to the first, whilst admitting that compulsory acquisition should be limited, I submit that in regard to village-sites the very nature of the case secures exceptionally strong and self-acting restrictions which would protect the grant of the power sought from abuse. In the first place, Government will have to find the money for the acquisition, and a strong conviction of the necessity for it is ensured by that obligation. In the next place, the expense of the exodus will fall upon the villagers, who not without the gravest necessity will uproot their temple, forsake their houses, and move away from associations most sacred to them. When they have incurred this expense, they will probably require a new village-chavdi or village-hall to which they will have to contribute, and one way or another it is certain that the change of a village-site will never take place without much hardship and regret. I submit then that there is no justification for apprehending that the powers, if granted, will be abused. With the other argument I may be briefer. To the simple village folk, who never leave their village except for the day's toil or for the occasional visit to the market town, the highest conception of public purpose which can occur to their minds must be the village-site. Whose interests are to be set against the paramount necessity for change or extension where the very safety of the people and their permanent sanitary welfare are concerned? One of themselves at the best, and more probably an absentee money-lender, who has acquired a property in the village, will be required to receive full value for the surrender of his field. If after the passing of this Act I were to find myself in a Dekkhan village, with the whole community begging me to obtain from Government a new site for them when their own village was falling into the river, I do not know what arguments I could find to justify to their common sense a refusal to take up land for a new village-site. I trust that the Council will save me from ever being placed in such a dilemma, and the Local Governments from the trouble and possible risk of searching for proof of custom.

“In conclusion, I beg to explain that I was unable to press this amendment on the Select Committee, since I joined it after the section had been disposed of. Moreover, the Committee gave such patient attention and large support to other amendments proposed by me that, when I was informed that the section had been drafted as it stands after full consideration and not without a division of opinion, I felt that the time for appeal to the Select Committee was passed, and that it was my duty to submit my amendment to Your Excellency's Council.”

The Hon'ble SIR ALEXANDER MILLER said:—“On this point I can really only speak personally for myself. It was not one of the points before the Government of India at the time when the Bill was prepared; in fact, I do not think it had ever been thought of then, but when it came before the first Select Committee it certainly was considered at very great length by that Committee and argued very minutely; and the provision which you now find in the Bill was accepted by that Committee as a fair compromise, and as enabling the provision of village-sites, in the only case in which, in the opinion of the Select

Committee, it was fair to provide them; that is to say, it was shown that there were cases in which the Government were in the habit of providing the sites and in which, in fact, the people looked to the Government to provide sites when necessary, and the Committee said that it was reasonable that the Government should in those cases have the power to provide sites compulsorily if they thought fit. The Committee were strongly of opinion that, ordinarily speaking, it is a man's own business to find his own house, and not to take his neighbour's land for the purpose unless his neighbour is willing to sell it. Accordingly the Committee distinctly refused permission to insert the words 'village-sites,' without qualification: the question was raised again before the second Select Committee; it was not discussed at the same length, but Mr. Lee-Warner did raise it; and the Committee, by a majority, I think, of four to one, came to the conclusion that the provision as it stands in the Bill went as far as it was reasonable to go in the direction of taking the land of one man compulsorily for the benefit of another for what cannot possibly be called a public purpose: and, therefore, speaking entirely for myself and in consequence of what has passed in the Select Committees, I must ask the Council to adhere to the words as they stand in clause (f). I may add that I offered personally to support the amendment provided that words were introduced which threw the whole expense of working the provision upon the Government, for the purpose of preventing Government from merely being used as a hand by which the villagers or any of them might manage to get possession of a site which they liked better than their own at the expense of some other individual. Mr. Lee-Warner thought that that would not go far enough to meet his purpose and therefore that proposal may be treated as non-existent."

The Hon'ble MR. CLOGSTOUN said :—" I beg to second Mr. Lee-Warner's amendment. The question so far has been discussed as relating to rights in which only a few villagers are concerned, but in the Madras Presidency the question has arisen as to how to provide house-sites for the *Pariahs*, who form a very large proportion of the population of Madras. They represent some 6 millions out of a population of 36 millions. The difficulty of providing houses for *Pariahs* in certain districts came up before the Government the other day, and the Government decided that, if necessary, they would take steps to acquire sites for these *Pariahs* under the Land Acquisition Act. The section as it stands now in the Bill would in most districts in the Madras Presidency give the Local Government power to provide village-sites for *Pariahs*, because in the Madras Presidency in most districts it is the practice of the Government to provide village-sites; but the needs of the *Pariahs*, or of any other similar large section of the population, may be equally great in other presidencies as in Madras, and where the Government is not in the habit of providing village-sites, the section as it has been drawn would preclude them from doing so in any such places. I think all Governments ought to have the power to give these sites. Most districts in Madras are under the raiyatwari system, and in these districts, therefore, the Government would have the power, without this section, to give sites because the waste-land is all their own and there is generally a sufficiently large amount of waste-land from which to give the sites. But there are other districts almost entirely under the zamindari system, and the section as it stands would preclude the Government from granting sites in such districts. For these reasons I am prepared to support Mr. Lee-Warner's amendment."

The Hon'ble DR. RASHBEHARY GHOSE said :—" As one of the members of the Select Committee I am bound to say, as my learned and hon'ble friend Sir Alexander Miller has already pointed out, that the amendment proposed by the Hon'ble Mr. Lee-Warner was solemnly discussed in Committee, and we came to the conclusion, after thorough discussion, that the power of the Local Government to acquire land for village-sites should be limited only to those cases in which it has been usual or customary for the Local Government to provide such sites. In Bengal, the province with which I am most familiar, it is by no means an unusual occurrence for villagers to be obliged, owing to the action of the rivers, to change their village-sites; but the Bengal

Government has never asked for any power of the kind proposed by the Hon'ble Mr. Lee-Warner, and I am not aware that any difficulty has been practically experienced by the villagers in acquiring land at a fair price for village-sites when the old sites have been washed away. I regret, therefore, that I cannot accept the amendment proposed by the Hon'ble Member."

The Hon'ble SIR ANTONY MACDONNELL said :—" I would only desire to say, with reference to the remarks which have fallen from my hon'ble friend Dr. Rashbehary Ghose, that the thorough discussion to which he refers occurred in the first Select Committee and before I had the honour of being a member of the Committee. I merely make this remark with the view of explaining that I now claim the liberty to vote upon the question."

The Hon'ble MR. WESTLAND said :—" I wish to submit to the Council a brief remark on this subject, namely, that to lay upon the Government the duty of providing village-sites in places where it is not customary to do so is to lay upon it a new duty which may involve a very serious expenditure in the future.

" If the provision does not exist, there are very many ways in which the villagers can find sites for themselves when their villages have been swept away by erosion. It certainly has, as my hon'ble friend Dr. Rashbehary Ghose has mentioned, been customary in Bengal for villagers to find sites for themselves. It is obvious that, if a provision of the law were now to enable a Local Government to provide sites for these villagers, it would be in their interest to move the Local Government in the direction of providing such sites at the expense of the Government, even in cases in which without such a provision they would have found means, as they have done for centuries, to acquire sites without assistance ; but to lay upon the Government what may prove an extremely expensive burden, and certainly is a new one, namely, that of providing village-sites in any case in which the Local Government thinks it desirable, is a measure to which I should have the strongest objection."

His Honour THE LIEUTENANT-GOVERNOR said :—" With reference to what has fallen from my hon'ble friend Dr. Rasbehary Ghose, to the effect that no inconvenience has been felt in Bengal by the absence of any such provision as this, I should like to say that cases have come to my knowledge in which very serious difficulty has been felt from the absence of this provision. Cases have occurred within my experience in which large landholders control the entire land round some particular village or station, which is a growing and increasing one, in which they exercise great, and sometimes undue, authority over the inhabitants by refusing to allow them to buy land for the sites of their houses, and by forcing them to accept leases on terms which the persons concerned think to be unduly severe. It would be convenient in many cases if sites could be provided under this section, for instance, for *amlas*, a class of ministerial officers attached to our Courts in sub-divisions. It has been brought to my knowledge that in some instances these officers have found it impossible to buy places to live in, and have been obliged to accept leases and grants of land framed in a manner which seemed to place them under liabilities and obligations to the landowners, which obligations might be thought to be liable to act in a manner prejudicial to the performance of their public duties. I would further urge upon the Council as a general question whether the language of the section as it now stands is suitable, and whether the phrase that is used giving the Government power to act only where it is customary to do so is one under which action can conveniently and properly be taken. A Local Government decides, under circumstances that are brought to its knowledge, that it is necessary to provide sites for the expansion of a village or town, or for the provision of houses for its own servants. Who is to decide whether it is customary or not ? If the Local Government chooses to say it is customary, who is to put it to the Local Government's conscience and say 'Are you stretching your powers or are you acting in accordance with the spirit of the law ?' I submit that this is a position in which the Local Government should not be placed, and it ought not to be possible for the Civil

Court to interfere, as I conceive it might do, and to say that Government must prove the fact of the custom, or else that it is acting in opposition to the law.

"On these grounds I wish to support the amendment brought forward by my hon'ble friend Mr. Lee-Warner."

The Hon'ble MR. LEE-WARNER said:—"I should like, in conclusion, to make one remark. It is natural that the Hon'ble Member in charge of the Bill and the Hon'ble Mr. Westland should be anxious to avoid the expense to Government involved in the proposal which I have brought forward. I may explain, however, that it was partly with the same motive that I was unable to accept the suggestion made by the Hon'ble Member in charge of the Bill that the words "provided that the cost is wholly met from public funds" should be added; because I felt that, if the villagers came forward and said 'We are in such terror of remaining in this village that we are willing to bear part of the cost of providing a new site,' it would be contrary to public policy to refuse such a contribution for this purpose. All we contend for is to give the Local Government a power which it does not at present possess, and that it does not possess this power the papers before the Council, as, for instance, the report of the Collector of Bijapur, sufficiently show without falling back upon the letter which the Bombay Government wrote in 1885 to the Government of India, in which they pointed out that they were legally advised that under the law they could not take up a village-site. The Government of India then replied that the matter would be looked into and, if possible, provided for when the Act was under amendment. That pledge I now ask the Council to redeem.

"The Hon'ble Member, who seemed to think that no practical difficulty had occurred, must have overlooked what the Collector of Bijapur says:—

'One of the occasions on which the insufficiency of the old Act was most felt was the necessity of providing new village-sites in cases where the existing site has been washed away, and great difficulty has often been experienced.'

"We must bear in mind that all that this amendment now proposes is to remove that objection. The clause would be permissive, not obligatory; it would still rest with the Government to decline to provide money for the purpose, and if they declined then there would be no declaration that any village-site was required. Custom may very likely be established in some cases, but my object is to avoid any undue straining of the clause inserted in the Bill, which makes it necessary to declare that it is customary to provide village-sites in the district. The Hon'ble Dr. Rashbehary Ghose has told us that in this part of India, where there are large zamindari tenures, the villagers provide their own village-sites, and that it is not necessary to interfere; but in Bombay, where every single acre of land is taken up, and where a village-community, if it moves at all, must move *en masse*, the Local Government has represented its difficulties, and asked for powers which I trust that the Council will give."

The Motion being put, the Council divided:—

Ayes.

The Hon'ble Dr. Rashbehary Ghose.
The Hon'ble Mr. Westland.
The Hon'ble Sir Alexander Miller.

His Excellency THE PRESIDENT gave his vote to the provision of the Bill as appended to the Report of the Select Committee. The amendment was accordingly negatived.

The Hon'ble FAZULBHAI VISHRAM moved that in section 5 of the Bill, as amended, for the words "Collector or other chief revenue-officer of the district, and such decision shall be final," the words "Court as provided in section 18" be substituted. He said:—"In support of this I wish only to observe that the finality of the Collector's award contemplated by section 5 of the Bill will entail great hardship upon the parties interested. It seems to me that for the purposes of acquiring land for public purposes the Collector acts as a mere agent to Government, and to vest such an agent with such absolute powers may lead to failure of justice. For under the present procedure, when a case is referred by the Collector to the Judge, the claimant stands in the position of a plaintiff and the Collector that of the defendant, and to constitute the defendant in a suit as a Judge (as proposed by section 5) will be something like an anomaly. To vest the Collector with absolute power of determining the damage, which may sometimes be as serious a matter as the determination of compensation and apportionment, and to expect a Collector who has absolutely no training in judicial work to perform the functions of a Judge, seems to me to be open to objection."

The Hon'ble SIR ALEXANDER MILLER said :—"I wish to say that this section deals only with the case of certain small amounts for damage consequent upon the entry upon the land ; to make it the subject of a regular suit before a Judge seems to be very unnecessary, and we thought that quite sufficient protection was given to the claimants by providing that these claims should go to the chief revenue-officer of the district in person, and not be decided merely by the person acting as Collector. The actual Collector of the district is not to be at liberty to delegate his authority in a case of this sort, and we thought that it was much more reasonable to give a summary procedure before him in such a small matter than to send it to the Judge, who no doubt is the proper authority to determine the value of the land itself, when the Collector's award is objected to."

The Hon'ble MR. STEVENS said :—"I wish to remark that this provision is merely for the rapid disposal of such claims as may be made for damages under section 4, that is, damages incurred in entering upon the land. The Bill goes beyond the existing law. Under the existing law such a matter is decided by the person who is called a Collector, but who in most cases is a Deputy Collector. The Select Committee propose that, instead of the case being decided by him, the ultimate decision should be made by the chief revenue-officer of the district, and therefore the Bill as it now stands gives more security than the present law."

The amendment was put and negatived.

The Hon'ble SIR ALEXANDER MILLER moved that in section 6, proviso, of the Bill, as amended, the words "out of" where they occur the second time (in line 5) be omitted. He said :—"The amendment is a purely formal one and arises in this way. The Bill as it originally came out of Select Committee provided that—

'no such declaration' [of intended acquisition] 'shall be made unless the compensation to be awarded for such property is to be paid out of public revenues, out of some fund controlled or managed by a local authority, or by a Company.'

"Then, in deference to a representation from Bombay, the words 'wholly or partly' were put in before the words 'out of public revenues.' But the words following, 'out of some fund,' read grammatically, would imply that 'wholly or partly' should be confined to 'public revenues,' whereas they were intended to apply also to 'some fund controlled or managed by a local authority.' In order to make that clear I propose the amendment in question."

The amendment was put and agreed to.

The Hon'ble MR. PLAYFAIR moved that in section 9, sub-section (4), of the Bill, as amended, after the words "in a letter addressed to him" the words "at his residence or place of business" be inserted. He said :—"The amendment I have the honour to propose is intended to facilitate the working of the Act by securing convenience to persons whose property is situated at a distance from their ordinary place of residence, and who might not receive early notice of the intention of Government to acquire such property for public purposes. It not infrequently happens in India that the post office receives letters for delivery with no fuller directions than the town, sometimes only the district, in addition to the name of the person, and there must always be a certain amount of risk in the expeditious as well as in the safe delivery of such letters. Without the insertion of the amendment I have the honour to propose it would be possible for the office of the Collector to carelessly issue notices under this Act without taking the trouble to ascertain and direct them to a correct address, and I have the honour to submit that such a contingency should, as far as possible, be guarded against."

The Hon'ble SIR ALEXANDER MILLER said :—"The only difficulty about that is that it is quite possible that the man's private address would not be where the notice ought to be given. He might have directed that the notice should be sent to him at some other place, say, at his solicitor's office, and it would be necessary, I think, to enlarge the description so as to cover such cases. But is it not the fact that a letter sent to him by post must necessarily, under the Code of Civil Procedure, be addressed to some place where he ought to be found? I would propose that the amendment be put in this way, that for the words 'at his residence or place of business' the words 'at his last known residence, address or place of business' should be substituted."

The amendment, with the further amendment suggested by the Hon'ble Sir Alexander Miller, was put and agreed to.

The Hon'ble GANGADHAR RAO MADHAV CHITNAVIS moved that in section 10, sub-section (1), of the Bill, as amended, for the words "for the year next preceding the date of the statement" the words "for three years next preceding the date of the statement" be substituted. He said :—"The amendment proposed by me is with a view to enable the Collector to come to a better and more accurate determination of the award. A statement giving the rents and profits derived from the land for one year preceding would, I respectfully submit, be a very unsafe guide in such matters. The year preceding may be one exceptionally good or one exceptionally bad, and to make a calculation for the sake of award on the strength of a statement of profits received during such a year may at all events happen to be inaccurate and unfair to either side. It is thus, I believe, essentially necessary, in order to remove misunderstandings in future, to require the parties to furnish a statement with profits and rents received or receivable during the preceding three years. I have thus ventured to place this amendment before you, and I hope it will meet with the approval of Your Lordship and the Hon'ble Members of the Council."

The Hon'ble DR. RASHBEHARY GHOSE said :—"I venture to think that the Hon'ble Member who has proposed this amendment is labouring under a slight misapprehension as to the true scope of section 10 of the Bill. All that that section says is that the Collector may call upon the claimant for a statement of the rents and profits received or receivable on account of the land for the year next preceding the date of the statement, and sub-section (2) says—

'Every person required to make or deliver a statement under this section or section 9 shall be deemed to be legally bound to do so within the meaning of sections 175 and 176 of the Indian Penal Code.

"There is no objection to a claimant, if he chooses to do so, making a statement of the rents and profits not only for three years but for any number of years, and I should think that the Collector would be only too glad to have such a statement before him. If, however, the amendment is carried, the Collector would be entitled to call upon the claimant to furnish a statement for a longer

period, a requisition which he might in some cases not be in a position to comply with, and he would then lay himself open to very serious penalties. I venture to think, therefore, that the proposed amendment is not likely to serve any useful purpose; on the contrary, it would impose upon the claimant an obligation which he might find it difficult in some cases to discharge to the satisfaction of the Collector."

The Hon'ble LIEUTENANT-GENERAL BRACKENBURY said:—"I support this amendment. The object, as I take it, of section 10, sub-section (1), is to enable the Collector to have an estimate of the rents and profits ordinarily received or receivable from the property in question, in order that he may be able fairly to assess a claim or compensation. I do not think that it would be possible to assess that claim for compensation on the rents and profits received for one year only. Three years is the period taken in Government estimates; we consider that that is a fair amount of time upon which to base an estimate of any real value, and I think that three years ought to be taken in this case."

The amendment was put and agreed to.

The Hon'ble SIR ALEXANDER MILLER moved that in section 18, sub-section (1), of the Bill, as amended, after the word "compensation" where it first occurs, the words "the persons to whom it is payable" be inserted. He said:—"It was agreed by the Select Committee that the words 'the persons to whom it is payable' should be introduced into this sub-section in order to bring it into conformity with section 30, and we have actually mentioned in the Report of the Select Committee, paragraph 10, that—

'the object of the slight addition made by us to section 18 (1) is to make the provisions of that section as to disputes concerning apportionment the same as those of section 30 on that subject.'

"It was quite by an accident that that addition has not been made, and I now move to insert it."

The amendment was put and agreed to.

The Hon'ble DR. RASIBEHARY GHOSE moved that in the first clause of section 23 of the Bill, as amended, for the words "market-value" the word "value" be substituted. He said:—"I would ask permission to slightly modify the language of the amendment, because I find that the words 'market-value' occur in more places than one in section 23, and the amendment ought therefore to run as follows:—

that in section 23 of the Bill, as amended, for the words 'market-value,' wherever they occur, the word 'value' be substituted.

"The ground on which I ask that the word 'value' should be substituted for 'market-value' is that the section as it now stands assumes that everything which may be acquired under the Statute for public purposes has got an ascertainable definite market-value; but there are things of which you cannot say that they have got any market-value: a church, for instance, or a temple. I am not putting merely a hypothetical case, for an instance actually occurred recently in the Presidency of Madras in which the question arose as to whether or not the owner of two very ancient temples was entitled to any compensation under section 24 of the present Act.

"The case came before the High Court, and a Division Bench of the High Court decided that the owner was not entitled to anything because, as Mr. Justice Shephard said, the temples did not possess any market-value. That decision was confirmed on appeal to the Privy Council, and their Lordships in delivering judgment said:—

'The case was heard by Mr. Justice Wilkinson and Mr. Justice Shephard. As regards the temples and carvings, they both agreed with the District Judge that they have no market-value. It is highly improbable that they should have any. No evidence was offered to show that there is any; and Mr. Justice Wilkinson adds that the claimant's counsel did not assist the Court by suggesting any price which might be offered as a fancy price. Their Lordships find themselves in a like position with the High Court, and all

they can do is to express agreement with the Courts below on this point.'—*Law Reports Indian Appeals, Vol. 20, p. 87.*

"I suppose no evidence could have been offered to show that there is any market-value for temples, either in Madras or in any other part of India. The result, therefore, was that the owner of the temples was expropriated, and it was held that he was not entitled to *any* compensation. In the English Land Clauses Act the term used is not 'market-value' or market-price, but 'value,' and the law on this point in England is summed up in a well-known text-book on the subject. At page 114 of *Cripps on Compensation* it is said:—

'The value to the owner can be ascertained either by a valuation of the lands taken with the addition of compensation for incidental injury, or by what is known as the reinstatement principle. In either case, the test of compensation is value to the owner. The difference arises in the method to be adopted in ascertaining this value. In a majority of cases, the value to the owner may be fixed by the value of the property taken, with the addition of compensation for incidental injury; but in some cases the value so ascertained would not be the value to the owner, and then the principle of reinstatement should be applied. This principle is that the owner cannot be placed in as favourable a position as he was in before the exercise of compulsory powers, unless such a sum is assessed as will enable him to replace the premises or lands taken by premises or lands which would be to him of the same value. It is not possible to give an exhaustive catalogue of all cases to which the principle of reinstatement is applicable. But we may instance churches, hospitals, houses of an exceptional character, and business premises in which the business can only be carried on under special conditions, or by means of special licenses.'

"In order to obviate any possible misconception I propose to add the following proviso in the shape of an explanation to the amendment in the paper:—

"'Value' shall mean market-value when the property has a market-value, but in cases where the property has no market-value the value shall be deemed to be such a sum as will enable the owner to replace the premises or lands taken by premises or lands which would be to him of the same value.'

"The Madras case illustrates the necessity for amending the language of the law as it now stands. A somewhat similar difficulty would arise in dealing with mansion houses in the country under the Act. There is no market for such houses, however expensive and costly in the interior of the country. I submit, therefore, that there can be no harm in adopting the word 'value,' qualified as it is by the explanation which I am going to add to it, for the words 'market-value' which are now to be found in the Bill."

The Hon'ble SIR ALEXANDER MILLER said:—"I should not object to the amendment on the paper at all myself. I think that, wherever an article is marketable, the market-value is the proper test of its value. But it is true that there may be cases—in fact, there has been one in which the article had a very considerable value in which was decided that it had no market-value. No particular harm was done in that case, because the temple concerned was merely taken for the purpose of preserving it, and it was just as valuable to the people after it was taken as it was before. But, suppose it had been taken for the purposes of a railway, it would, I think, be rather a hard thing to say that it had no value, and therefore that it was not to be paid for because it had no market-value and was not a source of income to the owner, and, therefore, quite irrespective of the contention of the Hon'ble Member, I think the word 'value' is a better word to use in this Bill than the words 'market-value'.

"I should object, however, to the proposed explanation, because I see great objections to any attempt to define 'value' or 'market-value.'"

The Hon'ble MR. LEE-WARNER said:—"I think that although this amendment has the support of the Hon'ble Member in charge of the Bill, yet it is one of such widespread importance, and affects so much the whole principle of this Bill, that it is rather dangerous at the last moment to touch this very debateable phrase 'market-value,' merely because in a particular instance the application of market-value to the acquisition of a particular temple proved

difficult. If the Council have read the various discussions and reports of the Select Committees, it will be remembered that on no subject has there been greater difference of opinion than on this of market-value. It was at first attempted to define it, and then, in deference to strong representations for and against that course either side, the phrase 'market-value' was not defined. We have got the word in the present Act as it stands. During the many occasions that Act has been applied, certain ideas and rulings of the Courts have collected round the expression 'market-value.' At any rate it is a more precise explanation of what is required than the vaguer word 'value.' I am not sure that, if we had no other property to take up for a public purpose except temples, it would be necessary to change the phrase. I remember a particular case in which a temple was required not for preservation but for submersion in a large reservoir. The villagers declined to sell it, not because it was of no value, but because it was impossible for them to assess the value, and they would be no parties to the sale of so sacred an edifice. It devolved upon me to settle the case, and I simply ascertained by inquiry what the cost of erecting the temple had been. I also was able to assess with perfect ease the value of the land on which the temple stood, and, having addressed the Government on the subject, I was permitted to place in deposit at the treasury, to be paid on the call of the village-headmen, the sum of money which I had awarded. In due course of time they purchased another site, the temple was removed and a new temple set up where it was required. The case, however, is so very rare that it seems to me that it would be dangerous at this stage to go and uproot a phrase which has been deliberately adopted throughout the Bill, and to unsettle the whole question of 'value' and 'market-value' which it was hoped was at last laid at rest by the manner in which this Bill was drawn up. For this reason I should be sorry to support the alteration of a phrase in reference to a matter in which there has been so much discussion."

The Hon'ble SIR GRIFFITH EVANS said that, in the case referred to by the Hon'ble Mr. Lee-Warner, he had not committed the injustice of taking the temple for nothing, as he might have done, but had made a representation to the Local Government and settled the question of compensation to the owner. It was not, however, everybody who would be so tender-hearted. This went to show there was need of amendment in the law. He, however, quite agreed with the Hon'ble Member that it would be unsafe to alter important words with regard to which there had been so much discussion, and so many decisions, at this late stage. If new words were adopted, he feared that there might be a great deal of litigation over again. He would not be inclined therefore at this stage of the Bill to alter the words, unless the proviso which his hon'ble friend Dr. Rashbehary Ghose had suggested, limiting the change to cases where there was no market-value, were adopted. If such an explanation were adopted, it would remove any objection of the kind the Hon'ble Mr. Lee-Warner had put forward. It would leave the law exactly as it was with regard to every case save the exceptional cases where there was no market-value.

The Hon'ble SIR ANTONY MACDONNELL said:—"I agree with my hon'ble friend Sir Griffith Evans that it is very undesirable at this stage to introduce into the Bill so far-reaching a change as that suggested. If the Council will refer to paragraph 14 of the Further Report of the first Select Committee, they will find it there stated that—

'we have again considered the question of a definition of the term 'market-value,' but we adhere to the opinion of our Preliminary Report that it is preferable to leave the term undefined. No material difficulty has arisen in the interpretation of it; the decisions of the several High Courts are at one in giving it the reasonable meaning of the price a willing buyer would give to a willing seller; but the introduction of a specific definition would sow the field for a fresh harvest of decisions; and no definition could lay down for universal guidance in the widely divergent conditions of India any further rule by which that price should be ascertained.'

"I think it would be unwise to introduce the change now proposed at this stage. My disposition is to agree with the substance of the Hon'ble Dr. Rashbehary Ghose's proviso, but I cannot say how far that proviso would

meet the case, and at this stage of the Bill I think it would be difficult to speak with certainty on the subject."

The Hon'ble SIR CHARLES PRITCHARD said:—"The question of the phrasing of this sub-section of the Bill received very careful attention at the hands of the Select Committee which considered the Bill on two separate occasions last year. That Committee, of which my hon'ble friends Sir Alexander Miller and Dr. Rashbehary Ghose, as well as myself, were members, reported unanimously in favour of the retention of the words 'market-value,' as used in the existing Act, for reasons that are stated in paragraph 7 of its original report dated the 1st February, 1893, and are more fully explained in paragraph 14 of its second report dated the 22nd March, 1893. The new Select Committee which has recently again considered the Bill has also reported in favour of their retention. The Hon'ble Mover of the amendment does not contend that, even in the extreme case which he has cited, the use of those words has led to any material injustice or inconvenience; the interpretation to be placed upon them has now been settled, after much litigation, by decisions of the Courts, and I would deprecate any alteration of them which would only sow the field for a harvest of further litigation and fresh decisions."

His Honour THE LIEUTENANT-GOVERNOR said:—"I quite agree with what has fallen from the two Hon'ble Members who have last spoken and also from my hon'ble friend Sir Griffith Evans on this subject. I think it would be extremely inadvisable to alter the law so suddenly and to make an alteration which even the Hon'ble Mover of the amendment had not foreseen the full effect of when he put his amendment on the paper, inasmuch as he has been obliged to suggest a further addition to it which I have only heard now for the first time. It would, in my opinion, be a very serious matter for this Council to accept an important and serious change in the law in such a light-hearted way, and if the amendment should be carried I should feel it my duty to move that the consideration of the Bill should be postponed, and that it should not be passed into law until the matter was further considered."

The Hon'ble DR. RASHBEHARY GHOSE said:—"It is said that it is impossible to foresee the full force and meaning of the proposed amendment; but the word 'value' is, I submit, not new in its application to land required for public purposes. It is to be found in the English Land Clauses Act, from which our own Act has been copied with variations which have not always been improvements. The word 'value' has received a definite meaning, certainly of a less flexible character in England than the words in the Indian Act, and the passage which I read to Hon'ble Members from *Cripps on Compensation* shows what construction has been put on that word by English Judges in the English Courts. The principle adopted by the English Courts is the very same principle which the Hon'ble Mr. Lee-Warner followed when he acquired a Hindu temple for public purposes. It is known as the principle of reinstatement. It has been said that it would be dangerous to accept the amendment now proposed at this moment. It is true the particular case in the reports was not present to my mind when the Select Committee sat on the last occasion; but I venture to think that we should not be doing our duty if we left a question like this unsettled;—unsettled perhaps is not the proper expression to use. We should leave all persons who might happen to have property of this valuable character liable to be expropriated, no doubt for the most benevolent purposes, without any compensation at all; because the law as laid down by the Privy Council must be binding on every Court in this country from the highest to the lowest. We shall have to wait—I do not know for how many years—for an amendment of the law, and, even if this amendment could be carried only at the cost of another reference to the Select Committee, I do not think that ought to be a sufficient ground for the rejection of my proposal. I propose, therefore, as there seems to be less objection to the amendment with the proviso, to take the amendment as a whole, and to add what I have just read as a rider to the amendment which stands in my name. It is perfectly true—and I am sorry to admit it—that I was not able to give notice of this amendment until yesterday afternoon; but the amendment I propose does not involve questions of a

novel or of a very abstruse character, and I submit, for the reasons already stated, that it is one which ought to be adopted, as great injustice and hardship might otherwise arise in the case of property which has either no market-value, or the market-value of which cannot be ascertained in any of the ordinary modes now followed by our Courts."

His Excellency THE PRESIDENT said :—"I should like to say that, as I understand the Rules of Business, even if this proviso were approved, it should be put as a separate amendment, and not taken as part of the amendment before the Council. The amendment must be put, I take it, in the form in which it appears on the paper, and if any Member of Council takes objection to the proviso it cannot be put."

The Hon'ble SIR ANTONY MACDONNELL said that he did not like the proviso and would vote for the Bill as it stood, but, if the Hon'ble Member wished to have the proviso, he might perhaps, with the permission of the Council, suggest another form of amendment which might meet the case.

His Excellency THE PRESIDENT thought that the proper course would be to put the amendment as it stood upon the notice-paper.

The amendment was put and negatived.

The Hon'ble MR. PLAYFAIR moved that in section 23, clause *fifthly*, of the Bill, as amended, after the words "the reasonable expenses" the words "and loss" be inserted. He said :—"I do not find that a definition has been given to the meaning of the word 'expenses' which appears in this section of the Act. The ordinarily accepted meaning of the word implies outlay, but for the present purpose this might prove to be a restricted meaning, and might be limited to the cost of removal of goods and effects from one place of residence, or place of business, to another. I have the honour to submit that the compulsory change of residence, and especially the compulsory change of a place of business, may result in a serious loss to the persons concerned, and I therefore beg leave to suggest that the Court should be empowered to take into consideration compensation for loss through disturbance, incidental to a compulsory change of residence, and more especially a change affecting a person's business. Locality often possesses an element of convenience, which has an important value in connection with business; and, if a person enjoys such special advantage through having established himself in a particular site, it may be for a long period, it seems to be reasonable that he should be entitled to compensation when he is disturbed for the benefit of the general public. I have the honour to submit that in cases such as this Government should err, if anything, on the side of liberality to those from whom it acquires land, for the benefit of the community, which, as a site, has acquired a business value. On the other hand, an applicant for loss sustained through compulsory change of place of business could not succeed if he makes an extravagant demand, as the context of this section provides that he shall receive nothing more than compensation for reasonable expense and loss (if any) incidental to such change. And, if the applicant and the Collector disagree, the Court of appeal would finally determine the reasonable loss."

The Hon'ble SIR ALEXANDER MILLER said :—"I think that, if the Hon'ble Member had read the paragraph which immediately precedes the one which he proposes to amend, he would see that the point is immediately covered by it. Amongst the things which the Collector is to take into account are damages to the moveable and immoveable property of the claimant "or his earnings"; consequently, if he loses anything in his business, or in the shape of having to transport his furniture, or move his property, that would be taken into account under the fourth head, and I do not think it is necessary to add it over again under the fifth head."

The Hon'ble DR. RASHBEHARY GHOSE said :—"I am unable to accept the proposed amendment to add 'and loss' in the fifth head in section 23, and for

the reason which has been given by my hon'ble friend Sir Alexander Miller. In this country, although the law is different in England, compensation may be given for the loss of moveable property and also for the loss of earnings. Any loss, therefore, which would presumably be compensated for under the Hon'ble Mr. Playfair's amendment would be compensated for under the fourth clause, because it would be either loss as regards the person's earnings or loss as regards moveable property, in the case, for instance, of any injury to a tradesman's stock in trade."

The amendment was put and negatived.

The Hon'ble MR. LEE-WARNER moved that for the last clause of section 24 of the Bill, as amended, the following be substituted, namely :—

" *seventhly*, any outlay or improvements on, or disposal of, the land acquired, commenced, made or effected without the sanction of the Collector after the date of the publication of the declaration under section 6."

He said :—" This amendment was already suggested to me by some papers which were laid before the Select Committee, but on the whole I thought it inadvisable to make any proposal then. After, however, the Select Committee had performed its duties, the Government received a letter from the Indian Association, dated January the 26th, which proposed one part of the amendment which I now wish to move. I then looked over the papers again, and finding that a somewhat similar proposal had received the support of my lamented friend the late Hon'ble Mr. Justice Telang, and had also been supported by the Punjab Government, as well as by the Government of Bombay, it seemed to me that it would be advisable to take this last opportunity for considering the proposal of the Indian Association, which ran in the following terms :—

' Suppose a claimant has begun to erect an additional room to his house for his convenience, or to repair the same before the publication of the declaration. The Association is of opinion he should either be permitted to complete the same or else compensated for his inconvenience. The Association does not see why, in order to enable Government to make the acquisition at less cost, he should deny to himself the comforts and safety which he might otherwise have had between the date of publication and the date of taking possession, unless it should appear clear that the only object he had in view was to add to the value of the compensation.'

" It will be observed that I propose to meet this difficulty by the second part of my amendment—the words ' without the sanction of the Collector ' ; because what I propose is that any outlay or improvements sanctioned by the Collector may be allowed for. In the same way the District Judge of Lahore referred to the same difficulty in these terms :—

' Suppose the owner has half sunk his well or dug a length of half or more of his canal cut, or suppose the works are nearing completion. Is he to stop all further work because of the declaration in the Gazette ? If the works were completed, the owner might derive considerable profit between the completion and the time of making of award by the Collector.'

" I myself recollect a case in which Government took up a very large tract to form the bed of a storage supply for water. Of course, as the embankment or bund rose, the area covered by the water extended, but it took three years to complete the embankment. The result was that the villagers on its extreme margin were able to go on cultivating for three years after the Government had not only given their declaration but had taken possession. In such cases it seems to me that if a man has partially sunk a well, and all but finished his work, it is only right that the Collector should say to him ' Well, you may finish your outlay of capital, and I will give you the compensation.' I would observe in passing that it is satisfactory to find that the Indian Association admit that the amended Bill is a great improvement on the Bill as originally introduced and also on the existing Act, and that the several suggestions made by them have all more or less been considered by the Select Committee, or at least placed before it in the recommendations of the various Local Governments. I am anxious now to take the opportunity offered by this further recommendation from the Association to go back to the reports from which I have quoted, and

provide an authority which will enable the Collector to sanction the completion of certain improvements and so award compensation for them. Turning then to the rest of my amendment, I would also ask permission to add the words proposed by the Bombay Government 'or disposal of'. It seems to me that this might possibly meet the objections which the Hon'ble Dr. Rashbehary Ghose brought to the words 'market-value,' because (I may be wrong, but) it appears to me that in the case of acquiring a site for any public purpose on which a temple was built, if the Collector were to say to the owner 'Well, I see that the Act is likely to cause difficulty in assessing the "market-value" of your temple. You may therefore make a fictitious sale and sell it to a religious body for a reasonable sum of money,' we should then get over the difficulty of there being no 'market-value.' Possibly the guardians of a temple, who object to sell the sacred object to Government, might be willing to sell it to a Brahman priest, and the price of that transaction, if approved of by the Collector, would guide him as to the price of acquisition and the determination of 'market-value.' Passing, however, away from this exceptional application of the proposed amendment, and dealing with the case put by the Government of Bombay, the Council will observe that the Collector of Bombay reports that fictitious sales are not uncommon. I am aware that if these sales are really fictitious the answer will be given that they are really no sales at all; but there may be sales which it might be difficult to prove to be fictitious, and at any rate you can stop them by forbidding any disposal of the land acquired which will be the result of this part of my amendment. I would, therefore, move that this section should run as it is set down in the amendment."

The Hon'ble SIR ALEXANDER MILLER said that he had no objection to the amendment; it seemed to him to be an improvement.

His Honour THE LIEUTENANT-GOVERNOR said :—" I listened carefully to the Hon'ble Mover's speech, but failed to catch completely the object of the amendment proposed. He puts the case of a tract of country which is being slowly submerged, and in which a raiyat goes to the Collector and says ' I spent five hundred rupees on this well. I shall get five hundred rupees compensation; will you allow me to spend one hundred rupees more to finish the well, and to use the water from it before the land is wanted.' Then I presume the Collector will say ' If you think the use of the water for two or three years will compensate you for spending the additional hundred rupees you may use it, but do not expect that you will get a profit out of the land and also get your one hundred rupees back from the Government.' I cannot understand the exact case which the Hon'ble Member intended to provide for, and perhaps he would be good enough to explain the circumstances under which compensation should be given for an improvement which has been carried out after the first declaration has been issued, and in which it would be likely that the Collector would sanction such an improvement knowing that the Government would have to pay for it in the course of a very short time."

The Hon'ble MR. LEE-WARNER said :—" I desire to be more liberal to the man whose land is compulsorily required than His Honour the Lieutenant-Governor seems to think necessary. His Honour says that the owner would get a profit out of the land; but the three years, which would elapse in the extreme limit of the case I put, after the declaration, and before the land is submerged, would be a very short period for the man to get a return for his capital sunk in the well, even if he got paid back what he had spent in sinking it before the declaration. It seems to me that nothing should be done to discourage thrift and the application of capital to the land, and I have always regretted that the present law does not allow you to compensate a man for completing an improvement which very often he had no reason whatever for supposing that he would not reap the full benefit of. It frequently happens that in irrigation schemes at the last moment some further outlying bit of land will be submerged which was never contemplated in the original plans, and the man in perfect good faith may have begun to sink his well without a thought that his field would be required, losing not merely the cost of the

material and labour but also interest on his outlay and the money-lenders' charges. All I desire is to place him in the best position possible and allow him, when the Collector permits him to complete his work, to receive compensation for the whole of it."

HIS EXCELLENCY THE COMMANDER-IN-CHIEF remarked that it appeared to him a very arbitrary proceeding that power should be taken to make a sale of property, effected under conditions that would often interfere with the original intention of the owner, outside consideration for compensation on the opinion of the Collector.

The amendment was put and agreed to.

The Hon'ble FAZULBHAI VISHRAM moved that in sub-section (2) of section 27 of the Bill, as amended, the words from "unless the Court" to the end of the sub-section be omitted. He said:—"With regard to this amendment I find that in section 27, sub-section (2), some change is proposed to be made about the costs. I am of opinion that, when the party interested succeeds in upsetting the Collector's award, it is nothing but equitable and just that he should get his costs, and to make him pay any portion of the Collector's costs is indeed a hardship. The reasons given in the Committee's report are that, if the party makes an extravagant claim or suppresses evidence before the Collector, he should be mulcted in costs. I think that these reasons are not very cogent, for they only apply to cases of exceptional nature and not generally, and, therefore, if the public generally are to be punished in the manner suggested, then they will be deterred even from putting forward their just claims for fear of being mulcted in costs. For it makes no difference with the Collector as to the amount of costs, which he must under any circumstances incur in supporting his award; and if the contention of the Committee be correct, then it will be equally equitable and just, if the Collector's award be ridiculously small, that he too should be mulcted in additional costs."

The Hon'ble SIR ALEXANDER MILLER said:—"I hope the Council will not accept this amendment. No doubt the law as it stands is that if the award of the Collector is not upheld, even if only a single rupee extra be given, the Collector must pay all the costs; and the result is that there is no check whatever on the most extravagant demands. A man may make any demand he pleases knowing that if he gains even a single rupee he would gain all his costs as well. It was proposed, on the other hand, to make the costs of the reference follow the result of the issue in the same way in the costs of ordinary proceedings. It was thought that that would be unjust to the other side, that inasmuch as the Government were taking up this land for public purposes they ought *prima facie* to pay all the expenses incident to it, but that it was reasonable to give the Court a discretion in the case of very extravagant claims or claims very badly conducted, where possibly the reference would never have been necessary if the parties had acted reasonably; that in such cases the Court might well be given a discretion to deprive the claimant of costs or even to make him pay costs. This arrangement is, I venture to think, a very reasonable one, and one that ought to commend itself to the judgment of the Council."

The Hon'ble SIR GRIFFITH EVANS said:—"There is no doubt that it is desirable to make the costs ordinarily fall upon the Collector in cases where the award is upset, but it is in the knowledge of those who have had experience in land acquisition cases that exceedingly large and baseless claims are often put forward—claims sometimes amounting to lakhs of rupees; and they are put forward with a feeling of immunity—a feeling that, if they get even one hundred rupees beyond the sum claimed, they will be able to have, upon this small addition, all their costs paid. They are consequently encouraged in many cases to engage in heavy litigation in support of extravagant claims. I do not think that it is unreasonable that the Civil Court should have some discretion in the matter of costs and that it should be able to exercise that discretion. They have it in ordinary civil suits and the High Court has the power to mulct

Plaintiff in costs or to refuse them costs in cases where they have obtained a decree, and I do not see any objection to giving some power of discouraging extravagant claims in land acquisition cases."

The Hon'ble DR. RASHBEHARY GHOSE said :—" I quite agree with my hon'ble friend Sir Griffith Evans. My experience too as regards land acquisition cases and the extravagance of the claims occasionally put forward points in the same direction. I would only point out, in addition to what has been already said, that, even if the amendment of my hon'ble friend the mover is carried, some discretion must be left to the Court, because he would strike out only the words in section 27, sub-section (2), from 'unless the Court,' etc., down to the end of the clause. The sub-section would then stand thus :—

'When the award of the Collector is not upheld, the costs shall ordinarily be paid by the Collector.'

" This would undoubtedly give a certain amount of discretion to the Court. The words to which the Hon'ble Member takes exception, instead of widening the discretion, in reality limits its exercise only to cases of a very exceptional character."

The amendment was put and negatived.

The Hon'ble MR. PLAYFAIR moved that in section 30 of the Bill, as amended, for the word "may," in line 7, the word "shall" be substituted. He said :—" I have the honour to submit that under section 30 the Collector should be required to refer to the decision of the Court disputes as to the apportionment of the amount of compensation when the Collector finds he is unable to reconcile the views of those interested in this compensation. If a person contests the Collector's apportionment and presses his contention, it will doubtless be more satisfactory that he should have a reference made to Court for a final decision. I venture to say that such a procedure would be more satisfactory than if the reference were left to the discretion of the Collector."

The Hon'ble SIR ALEXANDER MILLER said :—" I think it will be seen that anyone who objects to the Collector's award has an absolute right, under section 18, to have the matter referred to the Court, and that what this section intends to do merely is to enable the Collector himself in certain very difficult cases to refer the question to the Court of his own motion; but nothing will prevent any of the parties, who choose to go to the Court, from doing so; and the only effect of the change now proposed would be to compel the Collector to go to the Court although all the parties might be prepared to accept his decision."

The Hon'ble MR. LEE-WARNER said :—" I think it would be very unkind to the parties if this amendment were carried. Some officials would probably be glad of the change, and I have no doubt that many Collectors will find good reason for declining to undertake adjudication as to the apportionment of compensation. At the same time the discretion that the Collector has now conferred upon him by section 30 might have a conciliatory effect. He may settle the apportionment, and both the parties may be disposed at first to quarrel when they hear what the Collector's decision is. They will then on reflection probably say 'Well, it is better to accept this decision than to fight, and on the whole this apportionment seems fair.' I believe then that it will often save the parties litigation if the Collector is allowed to undertake the work of apportionment amongst them. In effect the section as it stands is an attempt to reconcile the objection of some Collectors to have a difficult task thrown upon their shoulders, with the principle that people should not be forced into a reference to the Civil Courts without absolute necessity or their own free choice. The section allows the Collector to decide if he can, whilst it gives him an opportunity of shifting the decision to the Court, and also leaves the parties themselves free to go into Court if they are dissatisfied with the Collector's apportionment. I believe myself that, if the Collectors use the power they are permitted to use

under this section, it will very often save the parties expense and a good deal of hot feeling. I should therefore be sorry to see the change introduced."

The Hon'ble MR. STEVENS said :—" I entirely agree with my hon'ble friend Mr. Lee-Warner. If I understood my hon'ble friend Mr. Playfair rightly, he said that, if the Collector is unable to reconcile the views of the parties regarding the matter in dispute, he should be obliged to refer the dispute for decision to the Court. But the words of the Bill as it stands are 'if any dispute arises,' the Collector may refer the dispute to the Court. If the amendment be carried, the effect will be that if any dispute arises the Collector must refer. Having no jurisdiction to consider the dispute, he would have no opportunity of reconciling the parties. Should the Bill become law as it is, he would have this opportunity, and doubtless his decisions would generally be accepted as final in minor cases. It seems to me advisable that he should go into petty disputes and reconcile the parties."

The amendment was put and negatived.

The Hon'ble SIR ALEXANDER MILLER said :—" Before I move the amendment which stands in the paper in my name I have to ask the permission of Your Excellency and the Council to move a previous one, which is of a merely clerical nature. If Hon'ble Members will look at the last words of section 31 (1), they will find that they direct the Collector to tender payment of the compensation awarded by him to the persons interested entitled thereto according to the award, and direct that he 'shall pay it to them if they shall consent to receive it.'

" Then section 31 (2) goes on :—

' If they shall not consent to receive it, or if there be no person competent to alienate the land, or if there be any dispute as to the title to receive the compensation or as to the apportionment of it, the Collector shall deposit the amount of the compensation in the Court to which a reference under section 18 would be submitted.'

" Of course the two clauses are not perfectly consistent, and therefore I propose to leave out the words 'if they shall consent to receive it' and to insert the words 'unless prevented by some one or more of the contingencies mentioned in the next sub-section.' The two sub-sections ought to cover the same contingencies, and the insertion of the words only makes the matter grammatically correct."

The amendment was put and agreed to.

The Hon'ble SIR ALEXANDER MILLER said :—" In the next sub-section as it runs at present it goes on to say :—

' Provided that any person interested may receive such payment under protest as to the sufficiency of the amount,'

the object being of course to get rid of the question of interest by allowing any one who is entitled to the money to take it without preventing him from saying that he ought to get something more; but as the sub-section stands it might enable a man whose interest was disputed to take the money, and it might afterwards turn out that he was not the right person to take it and that the money had been given to the wrong person. I therefore propose to insert the words 'admitted to be' after the word 'person'; that is to say, that no man whose title is under dispute is to be entitled to take payment until that question is settled.

" I must apologise to the Council for having to propose these amendments. I ought to have settled the matter in Select Committee, but it quite escaped my notice at the time."

The amendment was put and agreed to.

The Hon'ble MR. PLAYFAIR moved that in section 45, sub-section (3), proviso, after the words " person named therein " in line 3, the words " at his last

known residence, address or place of business" be inserted. He said :—" The amendment I have the honour to propose follows that proposed by me under section 9, and with the remarks I then made I leave this to the Council."

The amendment was put and agreed to.

The Hon'ble SIR ALEXANDER MILLER moved that the Bill, as now amended, be passed.

The Hon'ble MAHARAJA PARTAB NARAYAN SINGH of Ajudhiá said :—

" The Bill which is about to become law contains some radical alterations in the provisions of the former legislation on the subject, namely, Act X of 1870 and its subsequent amendments.

" Among some of the most important of its changes may be noticed the substitution of a new procedure in case of objections to the Collector's awards as to the compensation, and the discontinuance of the system of assessors to assist the Court in determining the amount.

" These are the points on which I would individually have liked to say something for the consideration of Your Excellency and Hon'ble Members, but as the Bill has been long before the public and has reached the final stage towards its passing into law, and a consensus of opinion has been obtained on these matters, I do not think now to be the proper time for re-opening them.

" As to the main features of the Bill, I must say that in many respects it is a decided improvement upon the old law, and I therefore give my vote that it may be passed."

The Motion was put and agreed to.

The Council adjourned to Thursday, the 8th February, 1894.

**Weather Review of India for the week ending at 8 a.m. on
Saturday, January 27th, 1894.**

At the commencement and at the close of the week under review the weather was unsettled over North-West India, the intervening days being fine. At the beginning of the week a shallow depression crossed the Punjab from the westward, and broke up among the Kumaun Himalayas after giving rain to Sind, Rajputana, the Punjab and the west of the North-Western Provinces and snow to Baluchistan and the North-West Himalayas. The depression was succeeded by a high pressure area, but on Thursday and Friday fresh unsettled weather, appeared in Baluchistan, which by Saturday extended to the Punjab and the west of the North-Western Provinces. In all parts of the country except the north-west the weather has been quiet and fine. The general temperature of the whole of India has been about normal, the deficiency which has prevailed in the north-west and in Madras having been balanced by an excess elsewhere.

On the morning of Sunday, the 21st, the chart showed a slight depression over the western desert which was occasioning a barometric fall over North-West India. In all other places the barometer was rising. Pressure was highest in Assam. The wind was drawing into east over the Gangetic plain and the central parts of the country, and was irregularly cyclonic in the north-west. Elsewhere the directions were fairly normal. Rain was falling over the Punjab, the west of the North-Western Provinces, Sind, Western Rajputana and part of the Gangetic plain, and snow was falling at the Hill stations in the north-west. The amounts exceeded 1 inch at Meerut, Mussoorie, Simla and

Karachi and 2 inches at Chakrata. On the morning of the 22nd the depression, advancing eastward, was approaching the Kumaun Himalayas and the barometer was rising rapidly in the Indus Valley, while it was generally falling elsewhere. The winds were very variable over Northern India. Rain and snow continued over the same regions as on the preceding day, but the amounts were somewhat heavier. Lahore, Sialkote, Rawalpindi, Ranikhet and Mussoorie had received over 1 inch and Chakrata and Simla over 2 inches. The chart of the 23rd showed that the shallow depression had disappeared, but the barometer was still falling except in the north-west. The distribution of pressure was fairly normal, readings decreasing from a high pressure area in the north-west to a low pressure area over the Bay. The winds were still variable over Northern India. Rain had again fallen over the south-east of the Punjab, over Rajputana and over the North-Western Provinces and snow on the North-West Himalayas, but the area of precipitation was decreasing. Delhi and Ranikhet were the only stations which had received amounts exceeding 1 inch. On the 24th the distribution of pressure and the general circulation of the winds were fairly normal, and the only falls of rain reported were light showers at Sibsagar, Gnatong, Bahraich, Agra, Mainpuri, Mussoorie, Chakrata, Simla and Colombo. On the 25th there was still no important change except that the barometer had begun to fall briskly in the north-west. Rain had fallen at Sibsagar, Hyderabad, Jacobabad and Bikanir and snow in Baluchistan. On the 26th the barometer was still falling briskly in Baluchistan and Guzerat, and in the last named region a small barometric depression had appeared. Except in this region the general distribution of pressure and the winds were fairly normal. Snow and rain continued to fall in Baluchistan and rain at Jacobabad. On Saturday, the 27th, though the general distribution of pressure was still very fairly normal, and the observations showed no indications of the presence of any well-defined disturbance, yet the unsettled weather had extended and rain was falling over a large part of the Punjab, Sind and Rajputana and snow on the North-West Himalayas. The amounts were, however, generally moderate or small.

Temperature.—The following table shows the variations of the mean temperature from the normal of each day of the week for the different provinces of India :—

PROVINCE.	JANUARY 1894.							Mean variation of week.

MEAN FOR WHOLE OF INDIA	+1'2	+1'7	+1'0	-0'7	-1'4	-1'0	+0'1	+0'1

The above table shows that on the first three days of the week the mean temperature of India was above, and on the four last days below, the normal average. The variations from the normal were, however, with one or two exceptions, small, and the net result for the whole country and for the whole week was an excess of $0^{\circ}\cdot 1$. In the Punjab the mean temperature was considerably below the average, but in the other provinces the variations were not large.

Rain.—The rainfall table, at the close of the Summary, shows that most of the precipitation which occurred during the week under review took place over the Punjab, but that the disturbed conditions, which occasioned it, spread eastward along the Himalayas over the North-Western Provinces as far as Assam and southward over Central India and Rajputana as far as Lower Sind. The rain was, however, heavy only in the Punjab and the west of the North-Western Provinces. Of the fifty-two rainfall divisions no less than thirty-two had absolutely no rain during the week under review, six more had an average actual rainfall per division of less than one-tenth of an inch, while the remaining fourteen divisions had effective rain. The heaviest average rainfall reported was 4·12 inches in the hill districts of the Punjab; this was followed by 1·69 inch in the central division of the Punjab and the submontane division of the North-Western Provinces, by 1·68 inch in the submontane division of the Punjab and by 1·38 inch in the north-west division of the Punjab, but these were the only divisions the average rainfall in which exceeded 1 inch. Over the whole of the central parts of the country, over the whole of Burma and over the whole of the Peninsula except South Madras, there was absolutely no rain.

The three concluding columns of the table giving the rainfall of the period from December 31st, 1893, to January 27th, 1894, show that over nearly the whole of North-West India as well as in parts of the east of the Peninsula the total rainfall has been considerably in excess of the normal average, but that in other parts of the country there has occurred practically no rain during that time.

The only heavy falls of rain, as stated above, occurred in North-West India. Meerut received, during the week, 2·96 inches, Kalsi (Dehra Dun) 3·70 inches, Sonapat (Delhi) 2·69 inches, Unah (Hoshairpur) 2·94 inches, Palampur (Kangra) 4·90 inches and Murree 3·70 inches.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 3rd February.*—Some light showers in parts of the Carnatic and Tanjore; no rain elsewhere. Agricultural operations continue favourably, and the standing crops are generally good. Harvest still yielding average outturn. Pasture and fodder sufficient. Prices generally slightly easier especially in the South, but rates for staple dry grains are still about fifty per cent. above the normal.

Bombay.—*For week ending 7th February.*—Slight rain in two districts of the Deccan. Standing crops damaged by easterly winds, frost, or blight in parts of three districts; prospects otherwise good. Reaping of early and late crops progressing in eight districts. Lands being prepared for next season in three districts. Cotton-picking continues in three districts. Fodder and water sufficient except in Baroda. Agricultural stock good. Prices steady except in two districts.

Bengal.—*For week ending 3rd February.*—There has been rain in Bihar and over a considerable part of North Bengal during the week, with beneficial results to the spring crops and poppy which are doing well. In other parts of the province rain is required for the spring crops, including spring rice which is being transplanted. In Hazaribagh poppy is also in want of rain. Sugarcane, tobacco and the earlier spring crops are being gathered. In parts of North Bengal the lands are being ploughed for the autumn crops. Cattle are reported to be in good condition, and the supply of fodder and water is sufficient. In FARIDPUR (MADARIPUR SUB-DIVISION) the numbers on relief works and in receipt of charitable relief during the week were:—*Relief-works* 708 men against 588 men in the previous week; *Charitable relief* 12 men, 41 women and 17 children, total 70 against 107 in the previous week. The price of common rice has risen slightly in some districts.

North-Western Provinces and Oudh.—*For week ending 7th February.*—Weather cold and cloudy. Rain has fallen in all but a few of the Western and Submontane districts, and in some districts the falls have been accompanied by hail. Spring crops are doing well, except in Cawnpore where injury has been caused by insects, and in Jhansi where the damage to gram by rust is widespread and to late-sown wheat serious. Crops also slightly damaged in Partabgarh and Farukhabad. Poppy flourishing except in Fyzabad where in certain places it has been damaged by caterpillars. Sugarcane-pressing continues. Prospects generally favourable. Supplies and fodder ample. Prices practically stationary.

Punjab.—*For week ending 7th February.*—Rain has fallen in seven districts. Harvesting of autumn crops almost over; irrigation of spring crops

commenced. Standing spring crops have been much benefited by the recent rains and prospects are good. Cattle generally in good condition. Fodder sufficient in all districts except Dera Ismail Khan where there is said to be a tendency to scarcity. The poppy crops are reported to be in good condition. Prices falling in six districts; stationary elsewhere.

Central Provinces.—*For week ending 7th February.*—Weather occasionally cloudy and warm with slight falls of rain in two districts. Fall of hail reported in part of one district. Crops suffering from continued appearance of rust. Prices steady.

Burma.—*For week ending 7th February.*—Harvest of wet-weather paddy all but completed in Upper and Lower Burma and outturn up to average; other agricultural operations everywhere progressing favourably. Fodder and water sufficient. In Upper and Lower Burma the price of paddy is steady except for a slight rise in Amherst, considerable rise in Bassein and Tavoy, and slight fall in Pegu and considerable fall in Myingyan.

Assam.—*For week ending 6th February.*—Weather seasonable. Ploughing for early rice commenced. Sugarcane-pressing continues. Condition of cattle good. Fodder and water sufficient.

Mysore and Coorg.—*For week ending 7th February.*—**MYSORE:** Standing crops in good condition. *Ragi* (*Eleusine coracana*) harvested in the Bangalore district. Rice sown in the Tumkur, Kolar, and Chitaldroog districts. No material change in prices.

COORG: Reaping of rice completed, threshing in progress, Picking of coffee continues in some parts. Water and fodder sufficient for cattle. Slight fall in prices.

Berar and Hyderabad.—*For week ending 7th February.*—**BERAR:** Weather generally cool, except in Akola where it is warm and cloudy. Spring crops reported to be unfavourable in almost the whole of the Akola district. Wheat, gram, and linseed are in good condition in the Amraoti and Wun districts. Weeding operations continue in Akola. Water-supply ample, but fodder insufficient in the Akot taluka. Prices stationary.

HYDERABAD: No rain during the week. Harvesting of hot-weather crops continues. Standing spring crops in good condition. Prices stationary.

Central India.—*For week ending 7th February.*—Rain during the week in Bhopal, Bundelkhand, Baghelkhand and in parts of Gwalior. No more rain is needed in Baghelkhand but the rainfall is still insufficient in Gwalior. Gram and wheat harvesting nearly completed; cotton gathered, and sugarcane being planted in Bhopal. The condition of the crop is generally good. The outturn is expected to be fair only, as the crops have been partially damaged by rain, hail, frost and insects in several places. The opium crops generally in good condition. Prices rising in Bhopal and in parts of Gwalior; steady elsewhere.

Rajputana.—*For week ending 7th February.*—Rainfall good in Bickaneer. Agricultural operations, standing crops, and prospects satisfactory.

Cattle in good condition. Pasturage or fodder sufficient. Prices fluctuating in one State ; steady elsewhere.

Kashmir.—*For week ending 6th February.*—Rain and snow fell throughout the province during the week. Prices favourable.

Nepal.—*For week ending 3rd February.*—Rain on 2nd and 3rd February. Prospects good.

North Western (state)— <i>contd.</i>	Vacuum Automatic.— <i>contd.</i>	22nd January, 1893.	(iii) Neglect of servants.—3 up mail was detained six minutes at Sahāranpur, owing to vacuum pipe in rear of train having been disconnected at the last moment in order to shunt on a carriage and to the pipe not having been replaced.	591,716*
		1st February, 1893.	(iii) Failure of machinery.—Three minutes' detention to 4 down mail at Sersāwa, owing to piston rod having jammed.	
		2nd February, 1893	(iii) Failure of machinery.—4 down mail was detained one hour and 58 minutes at Begamabad, owing to brake blocks of third class carriage No. 1605 having jammed, and in consequence all brake gearings of vacuum had to be taken down. Brake pins were hard set, and this accounted for the long delay.	
		7th February, 1893.	(ii) Failure of machinery.—6 down mail was detained 5 minutes at Ladhawal in releasing brake off the wheels of front brake as the wheels were skidding.	
		7th February, 1893	(iii) Neglect of servants.—5 minutes' detention to 80 down goods train, owing to the failure of the driver to have his brakes taken up, thus rendering them inefficient.	
		23rd February, 1893	(iii) Failure of machinery.—3 up mail was detained 9 minutes, owing to brake shaft having broken where it had been badly welded.	
		26th February, 1893	(iii) Failure of machinery.—5 up mail was detained 7 minutes at Meerut cantonment, owing to vacuum brake having been out of order, and 4 minutes were lost between Muzaffarnagar and Khatauli in consequence of vacuum of carriage No. 80 having been on.

STANDARD GAUGE — <i>contd.</i> State lines worked by the State— <i>contd.</i> North Western (state)— <i>contd.</i>	Vacuum Automatic— <i>contd.</i>	26th March, 1893	(iii) Neglect of servants.—Five minutes were lost to 5 up mail at Rājpura in releasing vacuum brake of whole train, owing to a carriage having been attached next the front brake without the vacuum pipe, and to the carriage examiner not having been asked to release the vacuum.	591,716*
		28th March, 1893	(iii) Neglect of servants.—At Sohan catch siding, the brake lever on 84 down goods got jammed against, and brake off, the ball valve on the tender vacuum cylinder. The failure was due to the driver having omitted to have the slack in the brake blocks taken up. No delay.	
		4th April, 1893	(iii) Failure of machinery.—5 up mail was delayed 9 minutes at Ghāziabad in consequence of vacuum pipe blowing, and 10 minutes at Bezamabad in taking off the vacuum brake.	
		7th June, 1893	(iii) Failure of machinery.—4 down mail was detained 10 minutes at Sarāi Banjāra in releasing carriage brake of train.

Oudh and Rohilkhand (state).	Do.	11th February, 1893	(iii) Failure of material.—Engine on No. 2 down mail, Lucknow to Fyzabad, was unable to maintain the necessary vacuum at Daryabad owing to the rubber pipe leading to vacuum chamber having a hole burnt in it, probably by fire from the ash pan. No delay.	197,652
		26th May, 1893	(iii) Failure of material.—Three minutes' detention was caused to No. 1 up mail at mile 131, owing to the pipe between the tender and brake-van having been disconnected by striking the carcass of a bullock.

Vacuum Automatic—cont'd.	10th April, 1893	(iii) Neglect of servants—4 minutes' delay in starting No. 89 down train from Victoria terminus. The driver created 13½" vacuum only. The guard detained the train to advise the driver that he had not created the necessary vacuum, <i>vis.</i> , 15" in the rear brake as required by rules.	275,618.
		28th April, 1893	(iii) Neglect of servants.—Driver could not create vacuum owing to a horse-box on 149 down train having been attached without India rubber washer on Clayton's couplings. 7 minutes' delay at Victoria terminus in replacing the washer.	
		2nd May, 1893	(iii) Neglect of servants.—Bracket hanger bolt of a 3rd class carriage on 57 down was found missing at starting time. 16 minutes' delay in starting from Victoria terminus in detaching the vehicle.	
		15th May, 1893	(iii) Failure of material.—India rubber coupling of engine No. 640 on 57 down train was found defective. 5 minutes' delay at Victoria terminus in waiting for the washer to be renewed.	
		4th June, 1893	(iii) Neglect of servants.—A porter in coupling two carriages had doubled up the India rubber washer on Clayton's couplings on 149 down train. 8 minutes' delay at Victoria terminus in rectifying the defect.	
		16th June, 1893	(iii) Neglect of servants.—Driver of engine No. 15 of 89 down train having filled his boiler too full was unable to create the proper vacuum. 6 minutes' delay in starting from Victoria terminus in waiting for the proper vacuum to be created.	
		23rd June, 1893	(iii) Failure of machinery.—Clap-net valve of ejector of engine No. 647 on 125 down train was out of order. 13 minutes' delay at Victoria terminus in trying to obtain necessary vacuum, failing which the train was worked non-automatic.

G. Pilcher, or until further orders.

SANITARY.

The 14th February, 1894.

No. 52.—The following translation of the Special Regulations of the Ottoman Board of Health, applicable to the Mecca Pilgrimage of 1894, received through Her Majesty's Secretary of State for India, is published for general information:—

Special Regulations applicable to the Meccan Pilgrimage of 1894 (year of the Hageira 1311).

Article 1.—From the beginning of the month of Rajab until the end of the month of Zilhijja

(that is to say, from the 8th January to the 2nd July), the lazaretto of Camaran will be open to receive arrivals by sea subject to quarantine.

Article 2.—During the period of these six months (Rajab, Shábán, Ramazán, Shawwál, Zilkaada, Zilhijja), pilgrim vessels coming from beyond the Straits of Bab-el-Mandeb, whatever the tenor of their Bills of Health, must proceed direct to the Island of Camaran, without calling at any other port on the littoral of the Red Sea.

Article 3.—Pilgrim vessels are vessels which are chartered to carry pilgrims proceeding to the Hedjaz.

Article 4.—Vessels bound for the Red Sea having on board not more than one pilgrim for every hundred tons of registered tonnage are not included in the definition of pilgrim vessels. Such vessels will be dealt with according to the tenor of their Bills of Health, conformably to the General Regulation of 1867 applicable to arrivals from cholera-infected places.

Article 5.—Vessels carrying not more than five pilgrims for every hundred tons of registered tonnage can proceed to Abu-Saad, where they will discharge their pilgrims and merchandise subject to quarantine destined for the Hedjaz.

Quarantine will also be performed at Abu-Saad by the *sambouks* and other coasters subject to quarantine proceeding from one port to another of the Red Sea littoral.

Article 6.—For this purpose a lazaretto is established at Abu-Saad, as a branch of the Camaran lazaretto, which will be open throughout the year to arrivals specified in Articles 4 and 5 of this Regulation.

Article 7.—Vessels upon which cases of cholera or suspicious cases have occurred, either in the port of embarkation or during the voyage, will undergo (both vessels and pilgrims) quarantine for 15 days at Camaran. This quarantine will be renewed each time a cholera case occurs among crew or passengers after their arrival at the lazaretto and will date from the last case of sickness. In such cases, the provisions of the Cholera Regulation of 1867 will be strictly applied.

Article 8.—When a batch of pilgrims has suffered from cholera during their stay at Camaran, they will not be admitted to free pratique at Jeddah until they have undergone a supplementary quarantine for five days and rigorous disinfection at the lazaretto at Abu-Saad.

Vessels carrying such pilgrims may, however, clear in quarantine in conformity with Article 16 of the principal Regulation after landing at Abu-Saad the pilgrims and their baggage, and merchandise destined for Jeddah.

Article 9.—Indian or Malay pilgrims who take the indirect route *via* Suez to the Hedjaz will be subjected to quarantine, unless they can prove, on their arrival at Jeddah, by their passports or other official documents, that they have come from beyond the Suez Canal, or that they have spent at least ten days in Egypt, in free pratique and in good health.

Vessels embarking at Suez Indian or Malay pilgrims who do not fulfil these conditions will be treated as infected, and will have to proceed to Camaran, at any rate in certain cases, to

undergo quarantine there, according to the country of origin of the pilgrims in question.

Article 10.—Merchandise destined for Yemen not susceptible of infection can be landed at Hodeida under the supervision of the sanitary authority.

Article 11.—Vessels from beyond the Suez Canal and Egypt with unclean Bills of Health must proceed to Camaran for quarantine.

Article 12.—Pilgrim vessels which arrive from ports where cholera exists, but have had no cholera case during the voyage or after arrival, will undergo (vessels and pilgrims) a quarantine of ten days. Merchandise coming from a cholera-infected port will remain on board, if there have been no cholera cases during the voyage or after arrival, and will be exempt from disinfection and from sanitary fees, except in the case of old personal effects and stuffs already used, unwashed wool, old cottons, horse hair and feathers, raw hides, and other raw animal products, as well as rags of all kinds, which will be subject to the provisions of the Cholera Regulation of 1867.

Article 13.—No pilgrim vessel, even when admitted to free pratique, will be allowed to leave Camaran without re-shipping, after the performance of their quarantine, all the pilgrims brought by her.

Article 14.—Vessels coming from the Persian Gulf and Zanzibar, with pilgrims on board, bound for the Hedjaz, will also proceed to Camaran, but will be treated, according to the tenor of their Bills of Health, in the manner provided by the Cholera Regulation of 1867.

Article 15.—*Sambouks* coming from beyond the Straits of Bab-el-Mandeb with pilgrims will be subject to the same rules as vessels specially chartered for pilgrims. They must proceed direct to the anchorage of Camaran, and will be excluded from all other Arabian ports on the Red Sea.

Article 16.—The embarkation on board pilgrim vessels of live animals, as well as hides, animal products, rags of all kinds, coal, petroleum, and all other inflammable or explosive material except such coal and animals as are necessary for the service and provisioning of the vessel during the voyage, is strictly prohibited.

Article 17. All vessels embarking more than 100 pilgrims must be provided with a medical man licensed by authority in the country of departure, as well as with medicines, disinfectants, and articles necessary for the care of the sick. A special place must be arranged on the deck as a hospital. Attendance and medicines will be given gratuitously.

Article 18.—On the arrival of a pilgrim vessel at Camaran or Abu-Saad, as the case may be, all pilgrims will be disembarked and undergo the usual medical examination. If the condition of the vessel is good, and no suspicious case has occurred during the voyage, the vessel and the pilgrims will undergo five full days' quarantine, and their clothing and effects will be disinfected; but the cargo will be subject to the provisions of the Cholera Regulation of 1867.

Article 19.—The sanitary authority will not allow the departure of a pilgrim vessel from any port in the Empire, without assuring him-
